- No palaeontological High Sensitivity or No-Go areas have been identified and the project area regarded as having low palaeontological significance
- The proposed development would have a low visual impact.
- There was no objection received on heritage grounds

DECISION

The Committee resolved to endorse the HIA as meeting the requirements of Section 38 (3) of the NHRA with the following recommendations;

Archaeology

1. No archaeological mitigation is required prior to proposed activities commencing

Palaeontology

1. In the case of any significant new fossil finds (e.g., concentrations of fossil shells, trace fossils or plant material including petrified wood) exposed during quarry excavation, these should be safeguarded - preferably in situ - and reported by the ECO as soon as possible to Heritage Western Cape (Tel: 086-142 142). This is so that appropriate mitigation (i.e., recording, sampling, or collection) by a palaeontological specialist can be considered and implemented (refer to Chance Fossil Finds Procedure attached to the report).

The above recommendation must be incorporated into the Environmental Management Programme (EMPr) for the proposed project.
