

DEAR COLLEAGUES

Please be reminded that Sisonke 2 vouchers remain valid until today, 14 January 2022.

If you consented and obtained your Sisonke 2 voucher and are yet to get vaccinated, visit a vaccination site near you **today**. Visit our official Facebook page @WCGHealth for the list of sites.

Booster doses are also available to persons who received the J&J vaccine, outside of the Sisonke Programme, two (or more) months ago or their second Pfizer dose at least six months ago. You do not have to wait for a

booster SMS reminder and can go to a vaccination site without it. The booster dose increases your system's immunity against becoming severely ill so it is advisable to get yours today.

Immunocompromised individuals who received an additional vaccine dose, will become eligible to receive a booster dose of J&J two months after having received the additional dose or a booster dose of Pfizer 6 months after having received the additional dose.
