

# FIRE SAFETY FOR INFORMAL SETTLEMENTS AND BACKYARD DWELLINGS

## WHAT TO DO AFTER A FIRE?

Assist injured people

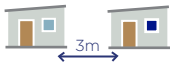

Make recovery arrangements (e.g., temporary shelter)

Work with municipal departments, Disaster Risk Management, organisations and NGOs providing relief

If possible, do not start rebuilding immediately.

Try to rebuild homes in a more ordered way, with better road and pathway access. Try to keep all structures at least 3 meters apart

Community leaders should assist with counting the number of affected homes and people
