

GET OUT ALIVE PLANNING GRID

Create a floor plan of your office or home using the space below. Draw in your primary escape route in red and your secondary escape route in blue. Stick the original near an exit or a place where everyone can see it (e.g. on your fridge at home), and make copies for other areas/rooms. **Practise your plan at least twice a year!**

Remember to include working smoke alarms, two ways out of every room and a meeting place.

EMERGENCY NUMBERS

From your landline:

10177

From your cellphone:

112
