

[Road Safety Management](#)
[Road Safety Integrated Intervention plan](#)
[TRANSPORT MONTH - OCTOBER 2020](#)

Quarter 3 represents an extremely important period which commences with Transport Month and thereafter leads up to a critical December/January festive period. October month has been dedicated to Transport Month, the Department of Transport and Public Works uses the opportunity to showcase its primary function of coordinating and managing all forms of Transport within the Western Cape one of them being Road Transport.

The Chief Directorate: Traffic Management responsible for Safer Western Cape Roads will continue to provide effective road safety education, communication and awareness programmes to positively influence all road users towards improved behavior coupled with structured Traffic Law Enforcement interventions while using the road network during Transport Month.

The attached operational plan for Transport Month 2020 has been aligned to the National 365 Road Safety Calendar as well as to the Western Cape Road Safety Education strategic objectives with the following focus areas:

▪ **Integrated Provincial Interventions and Focus**

- Pedestrian Safety interventions
- Scholar Transport interventions
- Passenger Safety interventions
- Weighbridge Operations: Driver Awareness
- Fatigue management interventions
- Seatbelt operations (Front and Rear)
- Community Radio awareness
- Online Road Safety Content for social media, internal comms and corporate coms

- **Integrated Provincial Interventions**

- Inter-Provincial Traffic operations between Western Cape, Eastern Cape and Northern Cape

The plan is based on districts priority planned interventions. The success of the attached operational plan depends solely on the commitment of all role-players towards an integrated approach and adoption of the plan.

Recommended by: Acting Deputy Director (Nokuzola Letselebe)

Approved by:
Acting Director: Road Safety Management
