## Education infrastructure delivery

The Western Cape Department of Transport and Public Works delivers infrastructure and services to people of the province to promote positive socio-economic outcome and safe, empowered and connected communities.

Learners at the Sinenjongo High School in Joe Slovo Park, Milnerton have been using temporary classrooms for years. A brand new school with the same name is being built across the road. The new facility, which is expected to be ready for the 2017 academic year, will provide accommodation for 1 250 learners.

This R47 million project was commissioned by the Department of Transport and Public Works for the Western Cape Education Department (WCED). Teaching facilities will comprise 35 standard classrooms, four science laboratory rooms, two multi-purpose classrooms, a media centre and a computer laboratory. The complex will also have a hall with toilet facilities, an administrative building, a sports field, and caretaker's facilities.

A total of R6 million is expected to go towards targeted contractor businesses, R5 million to suppliers and manufacturers, and R5 million to targeted local labour.

We lead in the delivery of government infrastructure and related services **BETTER TOGETHER.**
