# Vote 10

## **Department of Transport and Public Works**

	2011/12 To be appropriated	2012/13	2013/14		
MTEF allocations	R4 116 260 000	R4 154 026 000	R4 358 668 000		
Responsible MEC	Provincial Minister of	Provincial Minister of Transport and Public Works			
Administering Department Accounting Officer		Department of Transport and Public Works Head of Department, Transport and Public Works			

### 1. Overview

### Core functions and responsibilities

To lead the provincial strategic objective of increasing access to safe and efficient transport.

To support other provincial strategic objectives through interventions related to provincial infrastructure and property management and the co-ordination of the Expanded Public Works Programme (EPWP) within the Western Cape.

To conduct the overall management and administrative support of the department, as well as the respective programmes within the department in accordance with the Public Service Act, 1994, the Public Finance Management Act, 1999 (as amended), and other applicable legislation. Note that certain support functions such as Human Resource Management and Enterprise Risk Management were transferred to the newly established Corporate Service Centre vested in the Department of the Premier. The support service is governed through a Service Level Agreement, Policy and Service Schedules.

To promote accessibility and the safe, affordable movement of people, goods and services through the delivery and maintenance of transport infrastructure that is sustainable, integrated and environmentally sensitive, and which supports and facilitates social and economic growth through socially just, developmental and empowering processes.

To plan, regulate and facilitate the provision of public and freight transport services through own resources and partnerships in order to enhance the mobility of people and commodities and provide access to safe and efficient transport through an integrated public transport network.

To utilise provincial property (immovable assets) to act as a catalyst in achieving provincial objectives related to economic growth, social development and a sustainable environment.

To provide an appropriately authorised transport environment through the registration and licensing of vehicles, associations, operators and drivers; the issuing of driving licences; the certification of motor vehicles as roadworthy for use on public roads; the issuing of permits for abnormal load vehicles and events

on public roads and to record accident data, exercise overload control and promote safety on public roads.

To plan, regulate and facilitate the provision of accommodation for client departments and related entities; manage the provincial property portfolio for the optimum benefit of all concerned; render professional, technical and implementing agent services in respect of buildings and other related infrastructure and facilitate infrastructure planning in the Province of the Western Cape.

To co-ordinate, monitor and evaluate the implementation of the EPWP and to develop and empower communities and contractors.

During August 2010, the Provincial Government reviewed the vision, mission and values that were current at the time. The review process resulted in the vision and mission as set out below.

### Vision

"To create an open opportunity society for all in the Western Cape so that people can live lives they value."

### Mission

"To protect and promote rights and expand opportunities."

However, the Department has not altered its mission statement, which remains as follows and is aligned to the above:

"The Department of Transport and Public Works develops and maintains appropriate infrastructure and related services for sustainable economic development which generates growth in jobs and facilitates empowerment and opportunity."

### Main services

### **Corporate Support and Strategic Management**

Strategic planning facilitation and support Integrated and transversal planning facilitation and support Monitoring and evaluation support Co-ordinating support Enterprise content management support Knowledge management support Communication support Events management support Professional development programme support Corporate Service Centre liaison Management accounting support Financial accounting support Financial control support Supply chain management support

### **Public Works**

Buying and selling of immoveable assets

Property management regulatory services

Accommodation provisioning services (use of own assets and lease-in)

Property lease-out services

Auxiliary services: telecommunication for the Provincial Government; cleaning services for general provincial government buildings; horticultural services, and the Premier's residence facilities management services

Implementing agent services (construction, upgrading and maintenance of infrastructure)

Professional, technical and support services (property development, planning, construction, upgrading and maintenance of infrastructure)

Infrastructure strategic planning facilitation and planning support services (development, partnerships and immoveable assets)

Building condition audit services

### Transport Infrastructure

Planning, designing, constructing, rehabilitating and maintaining of provincial road network including public transport infrastructure

Offering of learnerships

Ancillary technical support services include: soil laboratory, survey, GIS mapping, proclamation, expropriation and road network information

Recording of accident data

### **Transport Operations**

Empowering land transport stakeholders

Co-ordination, facilitation and implementation of transport safety and compliance programmes

Assessing and capacitating municipalities on land transport

Facilitation and implementation of the electronic monitoring systems

### **Transport Regulation**

Registering of motor vehicles

Licensing of motor vehicles

Licensing of competent drivers

Roadworthiness certification of motor vehicles

Issuing permits for abnormal load vehicles and events on public roads

Overload control services on national and provincial roads

Licencing of public transport operators

Registering of minibus taxi operator associations

Dispute resolution services in the public transport domain

### **Community Based Programmes**

Expanded Public Works Programme facilitation and support services

Contractor development

### Demands and changes in services

### Demands

Growing demand for accommodation Impact of climate change on infrastructure Greening of infrastructure Reduction of infrastructure maintenance backlogs Infrastructure that promotes sustainable development Safe and maintained roads and buildings Increased demand for learner driving licence testing and driving licence testing Periodic vehicle testing in respect of vehicles older than 5 years Improved services and eradicating fraudulent activities at Driving Licence Testing Centres (DLTC's) A growing demand for public transport systems and services that are integrated and complementary

Completeness of the immovable asset register

### Changes

Emanating from the implementation of the National Land Transport Act and the Government Immoveable Asset Management Act.

Emanating from the Construction and Property Charters, requiring change in the methodology and processes to deliver and manage infrastructure.

### Acts, rules and regulations

Core legislation regulating the department's activities is the following:

Advertising along Roads and Ribbon Development Act, 1940 (Act 21 of 1940) [has been redrafted as part of the WC Transport Infrastructure Bill – submitted for legal acceptance]

Cape Roads Ordinance, 1976 (Ord. 19 of 1976) [has been redrafted as part of the WC Transport Infrastructure Bill and submitted for legal acceptance]

Constitution of the Republic of South Africa, 1996 (Act 108 of 1996)

Constitution of the Western Cape, 1998 (Act 1 of 1998)

Construction Regulation R1010 of 2003 (for compliance to occupational health and safety within the construction industry)

Construction Industry Development Board Act, 2000 (Act 38 of 2000)

Division of Revenue Act (an annual Act of Parliament)

Employment Equity Act, 1998 (Act 55 of 1998) General Conditions of Contract (2010) Government Immoveable Asset Management Act, 2007 (Act 19 of 2007) Municipal Finance Management Act, 2003 (Act 56 of 2003) National Building Regulations and Building Standards Act, 1977 (Act 103 of 1977) National Environmental Management Act, 1998 (Act 107 of 1998) National Land Transport Act, 2009 (Act 5 of 2009) and associated regulations National Road Traffic Act, 1996 (Act 93 of 1996) Occupational Health and Safety Act, 1993 (Act 85 of 1993) Preferential Procurement Policy Framework Act, 2000 (Act 5 of 2000) Promotion of Access to Information Act, 2000 (Act 2 of 2000) Promotion of Administrative Justice Act, 2000 (Act 3 of 2000) Public Finance Management Act, 1999 (Act 1 of 1999 as amended) Public Service Act, 1994 Road Safety Act, 1972 (Act 9 of 1972) Road Transportation Act, 1977 (Act 74 of 1977) Road Traffic Act, 1989 (Act 29 of 1989) Skills Development Act, 1998 (Act 97 of 1998) Western Cape Toll Road Act, 1999 (Act 11 of 1999) Western Cape Land Administration Act, 1998 (Act 6 of 1998) Western Cape Procurement (Business Interests of Employees) Act, 2010 (Act 8 of 2010) Western Cape Road Traffic Act, 1998 (Act 12 of 1998) - [being re-drafted]

### **Budget decisions**

### Introduction

The global and domestic economies are showing signs of improving, although recovery still remains fragile. This budget is therefore prepared in the context of constraints caused by the state of the global and national economic environment.

Resource allocation was guided by the achievement of the Provincial Strategic Objectives (PSO), more specifically the intended outcomes for PSO 1: Increasing opportunities for growth and jobs and PSO 3: Moving the Western Cape Forward – Increasing Access to Safe and Efficient Transport.

### **Programme Structure**

The "Transport" and "Public Works" sectors across the provincial and national spheres of government agreed to amend the programme structures to develop a uniform structure for the sector, particularly considering the impact of the national restructuring agenda as well as legislation. Consequently the new

structures were introduced with effect from 2011/12. Implementation of the new structures required adjustment of the actual historical budget outcomes, 2010/11 expected outcomes and the indicative programme allocations for alignment purposes.

In order to align the organisational structure with the new budget programme structure minor adjustments were made to the organisational structure and programme allocations. The adjustments effected enhances accountability, control and reporting.

The baseline indicative allocations over the medium term expenditure framework period as encapsulated in Budget 2010 were affected by the following:

Downward adjustment due to a net decrease in national conditional grants.

Upward adjustment from the provincial equitable share to partially counter reduction in the Roads Maintenance Grant (previously known as the Infrastructure Grant to Provinces).

Downward adjustment due to the provisions for the Human Resource and Enterprise Risk Management functions being shifted to Vote 1 - Department of the Premier as part of the Corporatisation process.

Downward adjustment due to shifting of funds to Vote 4 - Community Safety to provide for the OSD of the public transport inspectorate established in that Vote in which the Department has an interest regarding the provision of safe transport.

Upward adjustment for inflation and improvement in conditions of service.

To minimise the impact on the construction industry one of the key drivers of economic growth in the Province, the allocations for the two infrastructure programmes, namely Programme 2 - Public Works and Programme 3 - Transport Infrastructure were kept fairly stable over the medium term in nominal terms.

The Table below reflects the year-on-year growth using Budget 2010/11 as contained in Budget 2010, i.e. 2010/11 - 2012/13 as the baseline.

### Year on year growth based on budget 2010/11

	Financial Year	R'000	% Nominal growth
Main appropriation (baseline)	2010/11	3 686 548	
Adjusted final allocation	2011/12	4 116 260	11.7
Revised indicative allocation	2012/13	4 154 026	0.9
Revised indicative allocation	2013/14	4 358 668	4.9

The increase of 11.7 per cent is mainly attributed to increased investment in infrastructure in 2011/12.

The table below reflects the year-on-year growth using the Adjusted Budget 2010/11 as contained in the Adjustments Estimates 2010/11 as the baseline.

	Financial Year	R'000	% Nominal growth
Adjusted appropriation (baseline)	2010/11	4 000 096	
Adjusted final allocation	2011/12	4 116 260	2.9
Revised indicative allocation	2012/13	4 154 026	0.9
Revised indicative allocation	2013/14	4 358 668	4.9

The table above indicates that significant once off adjustments took place in the 2010 Adjustments Estimates.

The table below reflects the year-on-year growth using Budget 2011/12 **indicative allocation** as contained in the Budget 2010, i.e. 2010/11 – 2012/13 as the baseline.

	Financial Year	R'000	% Nominal growth
Indicative appropriation (baseline)	2011/12	3 800 202	
Adjusted final allocation	2011/12	4 116 260	8.3
Revised indicative allocation	2012/13	4 154 026	0.9
Revised indicative allocation	2013/14	4 358 668	4.9

The increase of 8.3 per cent can mainly be attributed to increased investment in infrastructure in 2011/12.

The table below shows the non-discretionary portion of the budget in the form of **earmarking and** conditional grants.

	2011/12	2012/13	2013/14
	R'000	R'000	R'000
Total for the Vote	4 116 260	4 154 026	4 358 668
Earmarking (excluding Provincial Roads Maintenance Grant)	939 462	947 305	966 816
Provincial Roads Maintenance Grant (replaces IGP)	411 141	483 437	521 720
Devolution of Property Rate Funds Grant (DPRFG) to provinces	291 281	322 730	351 963
Expanded Public Works Programme Incentive Grant (EPWPIG)	12 587		
Public Transport Operations Grant (PTOG)	666 255	690 480	718 460
Total non-discretionary	2 320 726	2 443 952	2 558 959
Percentage	56.4	58.8	58.7
Final allocation	4 116 260	4 154 026	4 358 668

### Programme 1: Administration

The percentage year-on-year negative growth reflected below for Budget 2011 uses the **indicative** allocation for 2011/12, as contained in Budget 2010, adjusted to compensate for the programme structure amendments as the baseline.

Financial Year	Indicative 2011/12 R'000	2011/12	2012/13	2013/14
% Year-on-Year growth	150 329	-5.0	-1.3	-1.6

The negative growth is caused by the cessation of the provision for services related to planning for the 2010 FIFA World Cup event that took place in 2010/11. Funds were also shifted to Vote 1 - Department of the Premier for the Human Resource and Enterprise Risk Management as part of the corporatisation process.

### Programme 2: Public Works

The percentage year-on-year growth reflected below for Budget 2011 uses the **indicative** allocation for 2011/12, as contained in Budget 2010, adjusted to compensate for the programme structure amendments as the baseline.

Financial Year	Indicative 2011/12 R'000	2011/12	2012/13	2013/14
% Year-on-Year growth	863 267	19.4	3.0	7.8

The relatively sharp positive growth is attributed to significant investment in building infrastructure and the preservation of these assets over the medium term, as well as an increased provision for the National Devolution of Property Rate Funds Grant.

Although the budget provisions for social infrastructure delivery, be it construction, rehabilitation or maintenance are mainly vested in Vote 5 – Education and Vote 6 – Health, respectively, this programme is required to act as the preferred implementing agent for the relevant departments to deliver their budgeted infrastructure needs. Provision has been made to ensure capacity to effectively render the required service.

### Programme 3: Transport Infrastructure

The percentage year-on-year volatile growth reflected below for budget 2011 uses the **indicative** allocation for 2011/12, as contained in Budget 2010, adjusted to compensate for the programme structure amendments as the baseline.

Financial Year	Indicative 2011/12 R'000	2011/12	2012/13	2013/14
% Year-on-Year growth	1 701 164	9.1	-0.6	5.4

The growth in 2011/12 is mainly attributed to investment in transport infrastructure and the preservation of these assets.

Part of the allocation of this programme was earmarked by the Provincial Treasury in order to preserve road infrastructure. Earmarking means that the funds in question may not be used for any other purpose unless so approved by the Provincial Treasury. The same applies to national conditional grants, but with the approval of the relevant national authority.

	2011/12	2012/13	2013/14
	R'000	R'000	R'000
Total allocation for Programme 3: Transport Infrastructure	1 856 605	1 845 297	1 945 297
Earmarked portion - Roads Infrastructure	1 350 603	1 430 742	1 488 536
%	72.75	77.53	76.52

The EPWP Incentive Grant was allocated to Programme 3 – Transport Infrastructure to be spent on road projects that are EPWP compliant and where it can yield the most job opportunities. However, this allocation is subject to the following provisions as agreed by the Provincial Treasury:-

Cash in-flow is controlled by the Provincial Treasury

Department of Transport and Public Works may be held liable for cash deficits

Incentives earned above target are offset against cash deficits

Expenditure committed must comply with the published grant framework

### Programme 4: Transport Operations

The percentage year-on-year growth reflected below for Budget 2011 uses the **indicative** allocation for 2011/12, as contained in Budget 2010, adjusted to compensate for the programme structure amendments as the baseline.

Financial Year	Indicative 2011/12 R'000	2011/12	2012/13	2013/14
% Year-on-Year growth	773 827	-0.4	2.6	2.8

The allocation of this programme was adjusted to re-direct the focus and align it towards achieving PSO 3. Mindful of the aforementioned, resources were allocated with the focus on the effective management of the implementation of the Public Transport Operations Grant, the Safely Home Programme, George Mobility Project and the phasing in of the shifting of functions as required by the National Land Transport Act, 2009 (Act No. 5 of 2009).

Notably, the Public Transport Operations Grant contributes 86 per cent of the allocation to this programme.

### Programme 5: Transport Regulation

The percentage year-on-year growth reflected below for Budget 2011 uses the **indicative** allocation for 2011/12, as contained in Budget 2010, adjusted to compensate for the programme structure amendments as the baseline

Financial Year	Indicative 2011/12 R'000	2011/12	2012/13	2013/14
% Year-on-Year growth	260 605	1.9	0.3	0.8

This programme remains fairly stable as the majority of the funds allocated are intended for agency service fees payable to municipalities for the collection of motor vehicle licences. The relatively sharp net increase in 2011/12 is attributed to provisions for the investigation of the most effective debt management system for the collection of outstanding motor vehicle license fees and a revenue forecasting model.

### Programme 6: Community Based Programmes

The percentage year-on-year negative growth reflected below for Budget 2011 uses the **indicative** allocation for 2011/12, as contained in Budget 2010, adjusted to compensate for the programme structure amendments as the baseline.

Financial Year	Indicative 2011/12 R'000	2011/12	2012/13	2013/14
% Year-on-Year growth	51 010	-3.0	06	0.6

Funds were shifted to Programme 1: Administration to strengthen the Strategic and Integrated Planning and Co-ordination Directorates for the purpose of sustaining internships. In addition, and unlike Budget 2010 the EPWP incentive grant was allocated to Programme 3 – Transport Infrastructure to be spent on road projects that are EPWP compliant and where it can yield the most job opportunities.

From the department's Annual Performance Plan for 2011/12 that must be read in conjunction with Budget 2011 it will be noticed that it is the department's aim to promote economic growth in the Province and to achieve this objective will require significant infrastructure investment. Programmes and projects that would unlock the growth potential is investment in new road infrastructure and the "Inner City Regeneration Project". Understandably, the opportunity to access funding in both cases are dependent on the department's ability to co-opt the private sector and relevant municipalities in pursuing projects that will sustainably stimulate the Western Cape economy. Funding for these projects will only be released from the Provincial Government's Asset Financing Reserve for appropriation once business plans, to access the resources have been recommended by the Economic and Infrastructure Strategic Sector Committee to the Budget Policy Committee; and after further work by the Department and the Provincial Treasury.

### 2. Review 2010/11

### Administration

### Strategic and Integrated Planning

The review of the Provincial Land Transport Framework is nearing completion, which included public participation.

The mobility concepts for the West Coast District Municipality, the Overberg District Municipality as well as the Eden District Municipality commenced.

The review of the Current Public Transport Record (CPTR) and Operating License Strategy (OLS) for the Central Karoo District Municipality, Overberg District Municipality, West Coast District Municipality, Cape Winelands District Municipality and Eden District Municipality was put on hold, due to constraints within the 2009 Integrated Transport Planning process.

However, in support of the Integrated Transport Planning process, further detailed planning was initiated in the George Municipality to support the implementation of the George Mobility Project.

The Strategic Directive for the Institutionalisation of the Provincial Strategic Objective of Increasing Access to Safe and Efficient Transport was approved by the Provincial Government and operationalised in the Department.

A municipal Integrated Transport Plan (ITP) was submitted by the City of Cape Town to the responsible Provincial Minister for approval; all other municipal ITPs were also submitted and approved with the exception of Stellenbosch which is expected to submit by 31 March 2011.

The Monitoring and Evaluation Strategy was updated and a Monitoring and Evaluation manual was issued with the aim to assist line managers in the management of their predetermined objectives.

Transport planning to support the 2010 FIFA World Cup was completed, with operational support provided to the City of Cape Town, Airports Company of South Africa as well as district municipalities. The closure and lessons learnt report has been completed.

Contributions to the Masakh'iSizwe Bursary Programme were sourced from Bursary Collaboration Venture partners. An additional opportunity was created for private sector companies to contribute to the bursary programme out of their Corporate Social Investment funds. This was done in partnership with the Cape Higher Education Consortium (CHEC).

The rollout of the Enterprise Content Management (ECM) Programme continued and incorporated a major back scanning initiative through which approximately 20 million pages is aimed to be transferred to the electronic repository. Concomitantly the registry archive was reorganised to make operations more efficient and effective.

Improving financial management continued and the following was achieved:

The Auditor-General of South Africa expressed an unqualified opinion on the 2009/10 Annual Financial Statement after qualified opinions were expressed over a number of years in the past.

Significant progress was made with the implementation of the Financial Management Improvement Programme, but some matters, namely; the concluding of the Chapman's Peak agreement and the incorporation of the Roads Capital Account into the books of the Department, will be ongoing due to complexity.

With regard to the transformation of the Roads Capital Account, the reconciliation of the asset register was completed and financial transactions incorporated into the books of account of the Department.

The Fraud Prevention Plan consisting of strategy, policy and implementation plan was reviewed and adopted. The assigning of responsibilities is aimed to be completed by the end of the financial year.

The micro organisational structure for the Branch Financial Management, excluding Supply Chain Management, was completed and submitted to Organisational Development for evaluation.

The finance and supply chain management micro structures for the District Roads Engineers Regional Office in Ceres was completed as a pilot and benchmark for the Offices and submitted to Organisational Development for evaluation.

The re-engineering of the supply chain unit commenced.

Standard operating procedures were issued for the:

Treatment of Fraud Investigative Unit (FIU) reports

Treatment of irregular, fruitless and wasteful and unauthorised expenditure

In addition, it is expected that 28 standard operating procedures will be documented by the end of the financial year.

The development of a consolidated Financial Manual has commenced and it is envisaged that the basics of this electronic tool will be completed by the end of the financial year.

The following SCM related Training programmes were developed:

Professional development programme

Associate in Management (AIM) programme

The review of the financial and supply chain delegations following a new methodology is expected to be completed by the end of the financial year.

The supply chain spend analysis was completed.

The conceptual design for Accounting Officer supply chain system and roster system was developed.

The procedure for the establishment and implementation of a supply chain monitoring, evaluation and complaints forum was developed.

The procedure for the management and treatment of allegations in respect of supply chain abuse was developed.

### **Public Works Infrastructure**

Public Works embraced the principles and the objectives pertaining to the Face of the Province Blue Print in the design of provincial buildings, maintenance of provincial government infrastructure, construction of new provincial government infrastructure, as well as refurbishment and upgrading of provincial government buildings and facilities. Energy efficiency measures were intensified, green technology utilised and water saving promoted, thereby upholding environmental integrity, sustainability and maximising sustainable resource management and use. In support of this effort the Department registered with the Green Council of South Africa.

With regards to provincial infrastructure and property management the following results were achieved:

### **General Buildings**

Upgrade of the façade and ground floor of the 4 Dorp Street Building progressed as scheduled.

Refurbished and modernised the four floors of the 4 Dorp Street Building to accommodate the Corporate Service Centre.

Completed adaptations at the Shared Service Centre in Vangate, Athlone, for Cape Nature, Community Safety traffic officers and provided additional parking to meet increased demand.

Completed the upgrade of Bonitown Youth Centre into offices to accommodate the Social Development Wynberg District Office.

Completed the upgrading of the Faure Drug Rehabilitation Centre in Eerste River and the Kraaifontein Youth Centre.

Completed the refurbishment of Goulburn Centre to accommodate the Social Development District Offices in Bellville.

Completed approximately 210 maintenance projects on provincial government buildings and attended to defective air conditioning and lifts in provincial government buildings on an ongoing basis.

Completed the refurbishment of small offices and approximately 20 small capital projects for client departments.

### **Works Education Facilities**

Continued with the construction of 15 new schools, namely; Delft Primary 3, Delft Secondary 3, Blue Downs Primary, West Lake Primary, Northpine, Fisantekraal, Citrusdal Senior Secondary (SS), Naphakade SS, Melkbosstrand SS, Parklands SS, Oaklands SS, Vista SS and Dawn School of Skills.

Completed Construction of 6 schools, namely; Nomzamo Strand Primary School (PS), Zwelihle PS In Hermanus, Wallacedene SS, Bongolwethu Primary in Phillippi, Tafelberg Elsen School Bothasig and Westlake PS in Westlake.

Completed the construction of 94 Grade R Classrooms.

Commenced with 278 maintenance projects.

Completed 250 schools maintenance projects.

Commenced with the planning of 26 new schools.

### **Works Health Facilities**

Continued with the management of the construction of Health Infrastructure which comprised of 120 capital projects.

The following 13 capital construction projects were completed:

Ceres Hospital new emergency centre

Paarl hospital phase 2 upgrades

Groote Schuur Hospital Ward E16 Respiratory Clinic mechanical ventilation upgrade

Lamberts Bay Ambulance Station extension

Plettenberg Bay Kwanokuthula

Plettenberg Bay Kwanokuthula new Ambulance station

Paarl TC Newman CHC Community health centre upgrade

Valkenberg Hospital urgent restoration

Groote Schuur Ward D7 NHLS conversion

Forensic Pathology laboratories in Paarl

Worcester, and

Malmesbury

ARV Clinic at Michael Mapongwana

Michells Plain extension to CHC

Eester River Hospital Admin and Causality

Riversdale Hospital upgrade Phase 2

Continued with the construction of 7 mega health high priority capital projects namely:

Khayelitsha Hospital that is at an advanced stage of completion

Mitchells Plain Hospital work in progress

Paarl Hospital Phase 1 that is at an advanced stage of completion

Worcester Hospital Phase IV work-in-progress

Completion of Vredenberg Hospital phase 2A staff accommodation and ring road at an advanced stage

Completion of Vredenberg Hospital phase 2B upgrading of remaining Hospital work-in-progress

George Hospital upgrading phase 3 at advanced stages of completion

Commenced with 214 health maintenance projects, 176 capital projects, as well as the planning and design for 2012/13.

### **Property Development**

The department supported by its strategic partners Cape Higher Education Consortium, City of Cape Town and Cape Town Partnership identified six precincts in Cape Town for the purpose of accelerated development. The project is known as "the Inner City Regeneration Programme". It aims to utilise provincial property to act as a catalyst thereby achieving provincial objectives related to economic growth, social development and a sustainable environment. In addition to the six precincts identified, a number of under and unutilised properties were identified. This will form part of an intensive programme of development over the next few years.

Important achievements are the signing of a memorandum of understanding between the National Treasury, the Provincial Treasury and the department agreeing on processes for property development. In addition an over-arching policy framework dealing with acquisitions, disposals and property development will be completed by the end of the financial year.

Supporting actions include ensuring the completeness of the Provincial Immoveable Asset Register; the conclusion of the pilot phase of a comprehensive Condition on Compliance Assessment, and agreement with strategic partners regarding the implementation of projects; an infrastructure assessment; a communication plan and a property market study.

### Socio Economic Objectives

Created 12 000 direct jobs through construction, maintenance and facilities management of provincial government buildings and facilities.

Commenced with 500 capital construction projects and 507 maintenance projects and advertised 1 007 infrastructure related tenders.

Provided opportunities for youth, women and black owned enterprises which resulted in contracts being awarded to (30 per cent) youth, (30 per cent) women and (50 per cent) Black owned enterprises.

#### **Property management**

User Asset Management Plans (U-AMPs) were drafted by client departments and submitted to Provincial Treasury for evaluation, and of the 14 U-AMPs received, a Custodian Asset Management Plan was drafted for submission to Provincial Treasury.

Approximately 13 properties were purchased, although transfer has not taken place in all cases.

The information on the Asset Register and Leased Property Portfolio (MDA system) was reconciled in order to improve the credibility of the province's asset register.

### **Transport Infrastructure**

### Infrastructure Planning

Public comments on the Western Cape Transport Infrastructure Bill were considered and incorporated.

The development of two arterial management plans for the pro-active management of land-use applications for sections of the R44 and MR 127 in the Winelands District region between Somerset West and south of the N1 commenced, whilst the scope of access management work on Louis Fourie Road was determined for commissioning by the professional team.

Project analyses for programme projects using a scaled application of the HDM4 Model were done as a pilot on municipal main road projects.

The development plan for Engineers and Technicians-in-Training was implemented across Transport Infrastructure. Twelve graduates were supervised by the appointed head-mentor and were each allocated a project with a supervisor and an internal mentor. Eight candidates were taken into the mechanical apprenticeship programme. The launching of a provincial-wide Land Use and Road Access Management Task Team comprising government officials and practitioners was commissioned via the provincial review of the provincial Road Access Guidelines (RAG) project.

### Infrastructure Design

Designs were commissioned in accordance with the requirements of the User Asset Management Plan (U-AMP).

### Construction

The following large projects commenced:

Street lighting on the N1 between Koeberg and Bellville

Rehabilitation of Trunk Road 22 between Nuwekloof Pass and Wolseley

Rehabilitation of Main Road 310: Prince Alfred Hamlet - Op Die Berg

Rehabilitation of Trunk Road 2/1 (M5-Black River Parkway) between Koeberg Interchange and Raapenberg Interchange

Upgrade of Main Road 559 Saldanha to Langebaan

The following large projects were completed:

Rehabilitation of Main Road 172 through Pniel

Upgrading to a surfaced standard of the Gansbaai/Elim Road (Phase 2)

Upgrade of TR2: Somerset West to Sir Lowry's Pass

Upgrade of Trunk Road 2/10: White Bridge to Knysna

Rehabilitation of Divisional Road 1254: Karwyderskraal

Rehabilitation and upgrade of the N2 east bound carriageway between Vanguard Drive Interchange and Borcherd's Quarry Interchange

Upgrade of Main Road 542: Pakhuispas to Wupperthal turnoff

The current economic downturn resulted in a levelling out of construction prices and in more competitive bidding for construction projects.

### Maintenance

EPWP was upscaled by increasingly directing resources to small routine maintenance contracts in the regions to achieve maximum labour opportunities and sustainable work for communities.

The completion of 2010 FIFA World Cup capital projects resulted in a returned focus on infrastructure maintenance.

Infrastructure upgrades for George Mobility Project are underway.

### **Transport Operations**

The NLTA is in the process of being implemented. In this regard public transport operators in the minibus taxi industry were informed in how the Act affects them as well as how to comply with it.

Continued with the monitoring of subsidised transport services as per contractual conditions

The promulgation of new legislation has resulted in the contracting function of new public transport services, such as George Mobility Project, being devolved to local authorities.

A comprehensive training plan covering all sectors has been developed.

Regarding the George Mobility Project, the Business trust for George is operational. This entity will be utilised as a multi-purpose vehicle to transform the current informal based operating system to a formal legally compliant business entity. The promulgation of the NLTA has resulted in the conclusion of new operator contracts being devolved to the local authority in terms of which the Municipal Systems Act (section 78) must be applied. This process is still underway and impacts on other interventions.

In support of the Non-Motorised Transport Strategy bicycles were delivered and distributed in the following districts: Overberg: 400, Eden: 897, Cape Winelands: 853, West Coast: 145, Cape Metro: 80, Central Karoo: 150.

Regarding the formalisation of and support to the various taxi councils (minibus and meter), multi-year financial agreements were concluded, with associated support being provided to the relevant councils. The focus of the agreements is aimed at ensuring self-sustainability within each of these sectors.

Amapelas were also assisted in registering as a business entity and are being supported in their attempts to apply for operating licenses. The project is currently under review.

With regards to Safety and Compliance, the Department, in partnership with the Department of Community Safety, municipalities and other stakeholders throughout the province, initiated the Safely Home Programme, with the primary aim to reduce road fatalities in the province by 50 per cent by 2014.

The second alcohol evidence centre or Safely Home Anti-drunk Driving Operations War-room (SHADOW) was opened in George and the promulgation of the George Impoundment facility was facilitated on the same site. In collaboration and partnership with the Department of Community Safety four (4) safety awareness campaigns were conducted this year with the focus on the following themes (Fatigue, Road side education and overloading).

To date 408 enforcement officers have been trained on the interpretation of an operating license with the objective to improve the ability to enforce compliance with public transport regulations.

In partnership with the City of Cape Town and Passenger Rail Agency of South Africa (PRASA) the planning for a six months pilot for an additional daily train service from 20h00 till 23h00 was concluded.

### **Transport Regulation**

In order to further improve service delivery at Registering Authorities (RA's), Driving Licence Testing Centres (DLTC's) and Vehicle Testing Stations (VTS's), the process relating to the conclusion of Service Level Agreements (SLA's) with all agents, which will include the revision of the agency remuneration model, continued.

The Department continued to work closely with the South African Police Service (SAPS) in identifying and combating fraud and corruption at VTS's and DLTC's.

The Department embarked on a process to investigate best practice models for debt management, as well as the operational improvement and organisational requirements of the Provincial Licence Inspectorate, responsible for the follow up and management of outstanding licence fees. Some 400 law enforcement officers were trained on the interpretation of operating licences to promote and maintain public transport compliance.

The functioning structure for the Provincial Regulating Entity (PRE) was approved in terms of the National Land Transport Act and is in the process of being operationalised.

### **Community Based Programmes**

The National Youth Service Trade Skills development programme implementation through the Construction Industry Innovation and Empowerment directorate, had 730 learners undertake theoretical and workplace training (NYS Phase 3) and recruited 3 000 learners for theoretical training (NYS Phase 4). The National Youth Service skills were primarily construction industry trade skills to address the specific skills shortages and absorb unemployed youth into meaningful economic opportunities.

The contractor development programme provided 48 specific training sessions, throughout the Western Cape, focussed on small emerging contractors, primarily at Construction Industry Development Board (CIDB) levels 1 – 2, who have not sufficiently been exposed to tender procedures; construction contracts; occupational health and safety; costing and estimating; co-operatives and joint ventures.

The mentorship service by Contractor Development Programme (CDP) was targeted at contractors in CIDB Grades 2 – 4 based on needs to enhance their performance in primarily government contracts. A pilot mentorship was undertaken to support emerging construction suppliers.

Innovative construction techniques focussing on labour intensity was analysed for practicality of implementation by construction implementing agents, including municipalities. Four sample surveys were undertaken of EPWP projects to determine the outcome of the interventions and to provide recommendations to enhance the impact thereof.

The Empowerment Impact Assessment process which is required to be undertaken on infrastructure projects of the Department of Transport and Public Works was revised, and was applied on 30 projects, including municipal pilot projects.

The Expanded Public Works Programme (EPWP) is currently implementing Phase 2 of the National Programme. Areas that received particular focus included communication of the EPWP national strategy and targets in the province; training to ensure public bodies understand the new strategy and the relevant reporting, as well as implementation of secretariat functions as per EPWP strategic directive.

A Provincial Steering Committee (PSC) has been successfully established that meets on a quarterly basis to discuss strategic issues with regard to the implementation of the EPWP programme.

Working Groups for each sector were established and met on a monthly basis to discuss and report against set targets. Each public body within the working groups contributed to the completion of the sector plans by identifying suitable projects which will meet and exceed the EPWP targets.

A series of successful district engagements were held with the purpose of establishing a District Forum for Municipalities to provide them with a platform to share best practices on the implementation of EPWP projects.

### 3. Outlook 2011/12

### Administration

### Strategic and Integrated Planning

A full review of the Integrated Transport Plans (ITPs) will not be undertaken in the 2011/12 financial year, as only yearly updates are required with full overhauls done every five years. As a consequence, the Current Public Transport Record (CPTR) and Operating Licence Strategy (OLS) components will be commissioned to ensure compliance with the annual review process. Given the lack of capacity at local municipalities to deal with transport planning the department will assist with the development of the ITPs.

As a result of the Mobility Strategy Concepts developed in the 2010/11 financial year and because the provision of municipal services is subject to the Municipal Systems Act, 2000 (Act 32 of 2000); the Department will be assisting the local sphere of government to undertake assessments in terms of section 78 of the Municipal Systems Act as the next formal step towards the provision of municipal public transport services. In terms of the Municipal Systems Act, where a municipality wishes to provide a municipal transport service, and that service amounts to a new service, or one that is being "significantly upgraded, extended or improved", then a municipality is obliged to commence an assessment in terms of section 78 of Act 32 of 2000.

With the full implementation of GIAMA, user Departments will be required to register their accommodation needs with the custodian Department. The required U-AMP for the Department of Transport and Public Works will henceforth be compiled by the Co-ordination Component.

The Departmental Monitoring and Evaluation manual on Management of Performance Information is being implemented, with focussed emphasis on moving the Department from compliance to improving performance.

The Results-Based Monitoring and Evaluation (RBME) Framework for Provincial Strategic Objective 3: Increased Access to Safe and Efficient Transport is being developed and will be affected through a M&E Implementation Plan. The RBME Framework for the Expanded Public Works Strategic Directive is being developed and will be consulted with all relevant role-players and stakeholders before implementation.

As a result of the corporatisation of human resource functions in the Department of the Premier, the SLA between the two departments will be reviewed and updated to take account of practical experiences since implementation. This is necessary to ensure continued adjustment until the service delivery requirements of the department are met.

Further work will be undertaken and a decision made regarding the future management arrangements of the Masakh'isiwe Bursary programme to ensure a transformation to a sustainable programme with qualified and strengthened government and private sector involvement.

### Knowledge management

Continuation of the process to provide the content of the department in electronic format in a single repository for easy retrieval.

Delivery of a standardised approach to Project Management as well as creating an integrated platform for providing meaningful management information quickly and easily on request.

### **Financial management**

Improving the quality of financial management towards maintaining unqualified audit reports, achieving clean audit reports, achieving a financial capability rating of 3 as a step towards a world class rating of 6 will be ongoing. Mindful of the aforementioned the initiative below will be pursued:

Compiling and implementing financial standard operating procedures thereby creating a control environment that will be conducive to the preparation of Annual Financial Statements that fairly represent the affairs of the department.

Updating the rolling Financial Management Improvement Response Plan with the 2010/11 external audit and internal audit outcomes and other findings, and implementing the required remedies to reduce the number of audit findings and promote sound financial management.

Roll out of the fraud prevention implementation plan.

Depending on the outcome of Organisation Development's evaluation of the reviewed micro organisational structure for financial management (excluding supply chain management), begin with the implementation thereof.

Continuation with the re-engineering of the supply chain (inclusive of the Accounting Officers System, micro organisational structure and the moveable asset management system) and interim quick wins.

### **Public Works Infrastructure**

Continuance with the management of the following infrastructure projects:

Continue with the construction and upgrading of the 4 Dorp Street façade, the ground floor, greenification of the provincial government precinct and street activation.

Complete the modernisation of the interior of the 4 Dorp Street Building in respect of the prioritised floors which will result in increased office space and reduction of the utilisation of lease-in buildings.

Complete the modernisation of the third floor Long Street Wing of 4 Dorp Street for the Provincial Treasury, as well as the 22<sup>nd</sup> floor for the Department of Health.

Upgrade of five cultural facilities.

Complete the ArtsCape Wardrobe construction and its relocation to the ArtsCape Complex in Cape Town.

Complete the upgrading of 6 lifts in the 9 Dorp Street Building, 13 lifts in 4 Dorp Street Building, 2 lifts in ArtsCape Building and 3 lifts in Alfred Street Building. Air conditioning upgrades to separate the air conditioning supply between 7 and 15 Wale Street, 4 Dorp Street and the Long Street Wing to be completed, as well as upgrades at 27 Wale Street.

Continue with the scheduled maintenance of provincial government buildings, as well as upgrading and refurbishment and attending to defective air conditioning and lifts in provincial government buildings.

Continue with planning and designs of new projects for 2012/13.

Continue with the management of 191 schools as the implementing agent for the Department of Education.

Complete the construction of 14 new schools namely:

Blue Downs PS, Delft N2-Gateway SS, Delft N2-Gateway SS No 2, Delft N2-Gateway PS No1, Delft N2-Gateway PS No 2, Northpine SS, Oaklands SS, Melkbosstrand SS, Fisantekraal SS, Citrusdal SS (Group 1), Naphakade SS (Group 1), Parklands SS, Vista SS, Dawn School of Skills, Storm damaged schools, Grade R classrooms, Relocation of mobile classrooms, Entshona PS, Plantation PS, Fairview PS.

Complete planning and design of 50 schools and proceed to construction namely:

Nalikamva PS, Bottelary PS, Itsitsa and ACJ Pakade, New Eisleben Secondary, Formosa PS G2a and Pacalsdorp G2a, Concordia SS G 2b and Thembalethu SS Group 2b, Cathleen Muray and Grabouw Secondary Group3, Group Seven Rusthof PS, Wellington and Westeind Ps, Group 9 Elsen Schools Cherry Botha and Rusthof, Group 10 Garden Village, Vuyiseka, Silver Sands, Group 8 St Thomas, Jagtershof PS.

Commence with the construction of 26 new schools and 50 Grade R classrooms. With regard to schools maintenance, 158 projects will be completed and planning and designs for 2012/13 will commence.

Continue with the management of 141 health projects as the implementing agent for the Department of Health.

Completion of 20 Health facility construction projects namely:

Lentegeur Hospital Relocation of Lifecare Worcester hospital upgrade phase 4 Stikland Hospital Wards 1, 6, 7 & 11 upgrade Paarl Sonstraal TB Hospital UV Lights and extraction New Khayelitsha hospital and ambulance station New Grassy Park Clinic George: Harry Comay TB Hospital upgrade Mitchell's Plain Sub district office Riversdale Hospital Phase 3 upgrade Vredendal Hospital new Ambulance Station Groote Schuur Hospital upgrade of the pharmacy Malmesbury - Wesbank new CDC Somerset Hospital Lift upgrade Khayelitsha: New Shared Service Centre Melkhoutfountein Clinic replacement George Hospital upgrade Phase 3 Beaufort West Hospital new Forensic Pathology Laboratory Eerste River Hospital Safe Ward Riversdale FPS Forensic Pathology Laboratory New Leeu Gamka Ambulance Station

The following 17 projects construction projects will commence or continue:

Grabouw CDC upgrade and extension (co-sponsor French Government) scheduled to be completed by April 2012

Groote Schuur Hospital New Main Building fire detection phase 2

Malmesbury Hospital new Ambulance station and extension to Emergency Centre

Mitchell's Plain hospital new hospital scheduled to be completed by October 2012 while the Regional laundry replacement (including equipment) will commence and is scheduled to be completed in March 2013,

New Community Day Centre (CDC) in Hermanus

Robertson Hospital Extension to Maternity Ward

Caledon Hospital Upgrade - Disa ward phase 2

Brooklyn Chest TB hospital New Multi Drug Resistant (MDR) and Extreme Drug Resistant (XDR) Wards

New Piketberg Ambulance Station

New Tulbach Ambulance Station

Strand Nomzamo: Asanda Clinic

Hermanus Hospital Emergency Centre (EC), new wards, Out Patient Department (OPD) and Administration

New Rawsonville Clinic

New Knysna - Witlokasie CDC

Malmesbury Hospital EC extension

Tygerberg Hospital EC upgrade

Vredenburg Hospital upgrading phase 2B

Complete planning and design of 63 projects which include but are not limited to the following:

New Du Noon CHC

Karl Bremer Hospital new Emergency Centre and Main Store

Knysna Hospital New emergency Centre and OPD

District Six New CDC

New Delft Symphony Way CDC

Salt River Forensic mortuary

Valkenberg Hospital upgrading

With regard to Health maintenance approximately 220 projects will be managed and completed by 2012 and planning and designs for 2012/13 will commence.

In 2010 the department commenced with the review of its assets. This work is being done in two distinct parts i.e. the updating of the Asset Register and the Condition and Compliance Assessment (Audit). This audit is currently in a pilot phase, which includes the development of a methodology and the processes that will ensure that the information generated complies with the requirements of GIAMA. The Pilot is undertaken by a multi-disciplinary team of building professionals and focusing on office accommodation in

the Central Cape Town CBD and will, on completion be transferred to departmental personnel and rolled out/undertaken on all assets allocated to user departments throughout the Province. Completion of the audit on some 12 000 buildings and over 4 000 properties comprising buildings totaling in excess of 7 million square metres, is envisaged for mid-2012.

Commence with the call for development proposals for the precincts that will be developed in cooperation with the private sector and that will contribute as a catalyst for an aggressive economic growth and spatial integration of the Inner City of Cape Town resulting in its regeneration thus by so doing contributing through deeds in maximising economic and employment growth and sustainability.

Continue rendering of facilities management services at 29 provincial government buildings, providing outsourced cleaning services to 26 facilities occupied by user departments, providing pest control services to 18 buildings of approximately 150 000 m<sup>2</sup>, clean 250 vacant erven of approximately 4 135 m<sup>2</sup>, provide horticultural services to two buildings, managing telecommunications to 33 buildings, render private security services at 33 vacant buildings and conduct waste removal at 8 provincial government buildings.

In addition the following in relations to property management will be undertaken:

Continued implementation of GIAMA by provincial government departments;

Securing land and buildings required by client departments and or the timely purchasing thereof to meet their service delivery needs;

Ensuring that municipal utilities and rates accounts (and costs) are managed effectively;

Ensuring that the immoveable asset register is credible (complete);

Ensuring that lease-in and lease-out agreements are efficiently and effectively managed taking cognisance of the risks attached to such agreements;

Enhanced revenue collection; and

Illegal occupants of government property are continuously being addressed and followed up though the state attorney on the relevant legal actions.

Create in the order of 10 000 direct decent jobs through construction, maintenance and facilities management of provincial government buildings and facilities and by so doing directly contribute to employment growth.

Provide opportunities for youth, women and black owned enterprises to be awarded contracts and in so doing broadening economic participation and realising the open opportunity society objectives.

### Transport Infrastructure

Subsidising the planning, designing, construction, rehabilitation and maintenance of municipal proclaimed roads.

### Infrastructure Planning

Improved inter-government and cross-sector transport planning liaison frameworks will be a focus for improvement through the implementation of the Provincial Land Transport Framework (PLTF) process.

With this in mind, planning will be under-pinned by the formal role-out of the Highway Development Management Version 4 (HDM4) web-site. This will assist in further development and calibration of the software to enable the strategic analysis of the proclaimed road network, as well as to enable project prioritisation. The graduate professional development programme will continue and will also serve to benchmark good practices and eventual roll-out to the rest of the Department.

The re-assignment of roads, Road Access Guidelines, and the formulation of Access Management Plans on strategic routes will continue to assist in optimising network efficiencies in the future.

Furthermore, the Provincial Land Transport Framework (PLTF), the Roads Infrastructure Strategic Framework, and the finalisation of the Western Cape Transport Infrastructure Bill will continue.

The collection and management of road accident data now forms part of this sub-programme.

The second phase of the Roads Assignment (Devolution) project (roads outside the Metro Area) will be done parallel to the Department of Transport's requirement to re-classify all the roads in the provinces.

### Design

Infrastructure designs will be commissioned to meet the planned implementation dates of the User Asset Management Plan.

The skills shortage, particularly with respect to professional engineers is a national problem which will not radically improve in the short term. However, the Graduate Training Program, as well as the implementation of the OSD (Occupational Specific Dispensation) will assist in the filling of vacant professional posts.

### Construction

The following large projects will commence in 2011/12:

Upgrade to surfaced standard of MR 269 - Hemel-en-Aarde

Upgrade of TR 28/1 from Mount Pleasant to Hermanus

Rehabilitation of MR 302 between Worcester and Bainskloof

The following large projects will be completed in 2011/12:

Street lighting on the N1 between Koeberg and Bellville

Upgrade of Koeberg Interchange 2010 project - Ramp B

Rehabilitation of Main Road 310: Prince Alfred Hamlet - Op Die Berg

Upgrade of Main Road 559 Saldanha to Langebaan

It is envisaged that the current economic downturn will continue to provide a levelling out of construction prices and in more competitive bidding for construction projects.

Furthermore, Public Transport infrastructure projects will be aligned to the priorities as laid out in the Integrated Transport Plan's and in alignment to the Provincial Land Transport Framework.

### Maintenance

As in the previous financial year, the up-scaling of the EPWP will be directed to routine maintenance contracts in the regions to achieve maximum sustainable work opportunities in local communities.

The focus on capital maintenance projects (reseal and re-gravel) will remain. This will result in slowing down the rate of deterioration of the road network condition. The backlog in periodic maintenance can however only reduce if a significant investment is made in infrastructure.

### **Transport Operations**

The following key projects will be pursued:

Preparatory work will be done around the phased shifting of functions to the City of Cape Town in terms of the NLTA.

Improved management and monitoring of the scheduled public transport grant through manual and electronic monitoring systems.

The implementation of the George Mobility Project in partnership with the George Municipality.

The further strengthening of the Safely Home Programme in partnership with the Department of Community Safety and other key stakeholders, with the primary aim to reduce road fatalities in the Province by 50 per cent by 2014.

Facilitating the provision of rail safety interventions as part of the broader public transport safety strategy.

Financial assistance to the West Coast and Winelands District municipalities for the establishment of 2 new impoundment facilities along the N7 and N1.

The drafting of the Provincial Transport law.

Ongoing support to the Metered and Minibus Taxi Councils in accordance with agreements.

### **Transport Regulation**

In order to further improve service delivery and management control at RA's, DLTC's and VTS's, solutions and systems will be developed and implemented that will result in signed Service Delivery Agreements between the Department of Transport and Public Works and municipal agents – with publicised service standards to ensure that all functions are rendered effectively, efficiently and optimally within the framework of adequate resources provided at the respective offices.

A comprehensive operational improvement process and organisational investigation will be embarked on at the Provincial Licence Inspectorate, responsible for the follow up and management of outstanding licence fees, in order to reduce the occurrence of outstanding licence fees, for completion during 2011/12. This will include an investigation into a best practice model for debt management.

Equipment required in terms of legislation at VTS's (wheel mass meters and play detectors) will be acquired.

A revenue forecasting model will be developed, to more accurately predict revenue streams.

The Provincial Regulatory Entity will be established in terms of the NLTA with the added aims to enhance end to end processes and improved systems for the receiving and adjudication of operating licence applications.

Standard conditions attached to operating licences will be reviewed and consulted with stakeholders for implementation during 2011. Training of law enforcement officers in the correct reading and interpretation of operating licences will continue during 2011.

There is still a risk of violence in the taxi industry and for that reason the Dispute Resolution Unit will not be abolished. Where the conflict has erupted or about to erupt the mediators will be deployed to ensure that issues causing conflict are dealt with amicably.

Whilst the National Land Transport Act is silent on the registration of Mini-Bus Taxi Associations, the Western Cape will continue with the regulation of this industry to ensure compliance with a minimum constitution and code of conduct for associations, their members and drivers.

### **Community Based Programmes**

The Department will continue with the implementation of Empowerment Impact Assessments on projects with a capital value of more than R2 million in order to optimise the opportunities for job creation and local economic development and empowerment that these projects offer in the areas for which they are earmarked.

The Department will continue with the facilitation of the skills development of unemployed youth within the construction sector trades as part of the National Youth Service Programme and other skills development initiatives.

The development and implementation of a contractor development programme will continue that is aimed at emerging contractors, including tender information sessions, training on construction contract documents, costing and pricing, and environmental health and safety.

Various surveys and case studies on innovative construction techniques will be conducted, aimed at providing information on the success of the various EPWP programs, as well as tracking the progress of beneficiaries of the program and enhancing the construction sector's contribution to EPWP.

The Nationally determined target for the creation of EPWP work opportunities for this province is 53 461 work opportunities, the distribution of which should be as follows:

40 per cent Youth (21 384 work opportunities)

55 per cent Women (29 403 work opportunities)

2 per cent Disabled (1 069 work opportunities)

The department will continue with the implementation and improvement of the institutional framework for the co-ordination of the Expanded Public Works Program (EPWP). This includes ensuring the smooth operation of the EPWP Provincial Steering Committee and the respective sector working groups.

The Directorate intends to have established five (5) District Municipal Forums that will meet on a monthly basis to discuss the implementation of EPWP.

The achievement of the provincial EPWP work opportunity targets will be regularly monitored, evaluated and reviewed to ensure compliance. Achievement of these targets are critical as an incentive grant is available to be accessed when targets are exceeded.

### 4. Receipts and financing

### Summary of receipts

Table 4.1 hereunder gives the sources of funding for the vote.

### Table 4.1Summary of receipts

		Outcome						Medium-term	n estimate

Note: Pre 2011/12: This conditional grant was previously known as the Infrastructue Grant to Provinces.

### Summary of receipts

Total receipts increased by R429.712 million or 11.66 per cent from R3.686 billion in 2010/11 to R4.116 billion in 2011/12.

### Treasury funding:

National conditional grants comprise 33.56 per cent of total receipts and include the following: Provincial Roads Maintenance Grant, the Devolution of Property Rate Funds Grant, the Public Transport Operations Grant, and the Expanded Public Works Incentive Grant to Provinces. The total conditional grant increased from R1.245 billion in 2010/11 to R1.381 billion in 2011 or by 10.9 per cent.

Equitable share comprises 39.17 per cent of total receipts and increases by R261.373 million or 19.35 per cent from R1.351 billion in 2010/11 to R1.612 billion in 2011/12. The equitable share portion includes treasury earmarked funding in Programme 3: Transport Infrastructure to the amount of R1.351 billion.

The Asset Finance Reserve comprises 4.16 per cent of total receipts for 2011/12 and is used to fund infrastructure related expenditure, in particular roads infrastructure. It has decreased by 15.72 per cent compared to 2010/11.

### Departmental receipts:

### Tax receipts:

Motor vehicle licences revenue continues to dominate provincial own receipts.

Between 1998/99 to 2001/02 the Western Cape increased motor vehicle licence fees (MVLF) in excess of 25 per cent, the purpose of which was to address backlogs in road infrastructure and maintenance. At the time it was believed that other provinces would follow suit. Reality proved otherwise, resulting in a significant structural differential in MVLF. The differentials are ostensibly the reason for cross-border registration behaviour especially of heavy vehicles. Against this background and drawn from the Western Cape Medium Term Budget Policy Statement 2010 - 2013, the increases in total revenue from MVLF remains limited due to the in-principal agreements with other provinces not to increase Western Cape fees until the fees structures are more or less aligned with the tariff levels in the Western Cape. During 2010, the Provincial Government of the Western Cape did engage with provinces in efforts to speed up the alignment. Taken from the Medium Term Budget Policy Statement 2011 - 2014 the Provincial Treasury indicates that provinces have gradually started increasing MVLF to align their fees with the Western Cape, albeit at different rates.

### Sales of goods and services other than capital assets:

Rental of office buildings: Receipts adjustments are based on the number of buildings, the relevant lease amount and periodical increase of the lease amount as per agreement.

Other licences and permits: Receipts adjustments are based on expected demand and revised tariffs on abnormal loads fees, applications to stage sports and fun events, for filming shoots on public roads and demand for personalised and special motor vehicle licence numbers.

Sale of capital assets: In terms of an arrangement with the Provincial Treasury, proceeds from the sale of immoveable assets are appropriated in the Annual Adjustments Estimates, or in the next year's annual budget based on actual collections. This is due to the fact that revenue attributed to the sale of immoveable assets is usually subjected to a measure of uncertainty and slow realisation.

### Donor funding (excluded from vote appropriation)

Table 4.2 hereunder gives the sources of donor funding and details of any terms and conditions attached to donor funds.

### Table 4.2 Summary of donor funding - None

### 5. Payment summary

### **Key assumptions**

Stable political and managerial leadership Sufficient managerial and operational capacity Effective decision-making processes Effective communication with clients Timely environmental impact assessment approvals No extreme weather events No exogenous shocks related to increases in rates payable Buy-in from stakeholders and partners Sound intergovernmental relations Growth in the Western Cape's motor vehicle population by at least 2 per cent per annum Voluntary payment of receivables Enabling of implementation of macro and micro organisational structures No exogenous macro-economic shocks

### National priorities

- 1. Improve the quality of basic education
- 2. Create decent employment through inclusive economic growth
- 3. Develop a skilled and capable workforce
- 4. Improve healthcare and life expectancy among all South Africans
- 5. Build a safer country
- 6. Support an efficient, competitive and responsive economic infrastructure network
- 7. Develop vibrant, equitable and sustainable rural communities that contribute to adequate food supply
- 8. Protect our environment and natural resources
- 9. Create sustainable human settlements and improved quality of household life

- 10. Build a responsive, accountable, effective and efficient local government system
- 11. Create a better South Africa, a better Africa and a better world, and
- 12. Generate an efficient, effective and development orientated public service and an empowered, fair and inclusive citizenship

### **Provincial priorities**

Provincial Strategic Objectives (PSO):

- PSO 1: Increasing opportunities for growth and jobs
- PSO 2: Improving education outcomes
- PSO 3: Moving the Western Cape forward: Increasing access to safe and efficient transport
- PSO 4: Increasing wellness
- PSO 5: Increasing safety
- PSO 6: Developing integrated and sustainable human settlements
- PSO 7: Mainstreaming sustainability and optimising resource –use efficiency
- PSO 8: Increasing social cohesion
- PSO 9: Reducing and alleviating poverty
- PSO 10: Integrating service delivery for maximum impact
- PSO 11: Creating opportunities for growth and development in rural areas
- PSO 12: Building the best run provincial government in the world

### Departmental strategic interventions

Increasing access to safe and efficient transport

Provincial Infrastructure and Property Management

Expanded Public Works Programme

### Departmental strategic thrusts

Transport Infrastructure

Innovative Resourcing

- **Building Infrastructure**
- Asset Management
- Creation of Partnerships
- Governance

### Ministerial Priority Programmes (MPP)

- MPP 1: The creation of a highly effective department and the freeing up of resources through instituting efficiency measures and programmes.
- MPP 2: Leveraging the province's CBD properties as part of a greater Cape Town project to yield fit for purpose provincial accommodation as well as additional revenue streams by 2014.
- MPP 3: Influencing parties in order to achieve a 13 per cent modal shift from private to public transport by 2014 (meaning a 60:40 private: public transport split into the City of Cape Town Central Business District) through the promotion of improved rail transport; support to integrated transport networks including the provision of rapid trunk routes for existing public transport services; and formalising the minibus taxi industry.
- MPP 4: Improving road safety, resulting in the reduction of the number of fatalities on Western Cape Roads by 50 per cent by 2014.
- MPP 5: Reducing the maintenance backlog in both public works and transport infrastructure by 16 per cent by 2014.

### Programme summary

Table 5.1 below shows the budget or estimated expenditure per programme and Table 5.2 per economic classification (in summary). Details of the Government Financial Statistics (GFS) economic classifications are attached as an annexure to this vote.

			Outcome						Medium-tern	n estimate

### Table 5.6 Summary of departmental Public-Private Partnership projects

<sup>a</sup> Projects signed in terms of Treasury Regulation 16

### Disclosure notes for projects signed in terms of Treasury Regulation 16

Project name	Chapman's Peak Drive
Brief description	Design, construction and operation of a toll road
Date PPP Agreement signed	21 May 2003
Duration of PPP Agreement	30 years
Significant contingent fiscal obligations including termination payments, guarantees, warranties, and indemnities and maximum estimated value of such liabilities.	It is the intention to sign the Third Addendum to the Concession Agreement during March 2011.

### 6. Programme Description

### Programme 1: Administration

Purpose: To provide the overall management support to the department.

### Analysis per sub-programme:

### Sub-programme 1.1: Office of the Provincial Minister – Transport and Public Works

to render advisory, parliamentary, secretarial, administrative and office support services

### Sub-programme 1.2: Management of the Department

to manage the department and provide an executive support service to the Head of Department

### Sub-programme 1.3: Corporate Support

to manage knowledge, communication, the supply chain and finance

to manage the departmental professional development programmes

to facilitate departmental responsibilities in respect of security, occupational health and safety, and human rights

to provide an operational management support service in respect of the Corporate Service Centre

to augment the Government Motor Transport trading account

### Sub-programme 1.4: Departmental Strategy

to facilitate strategic planning and policy development, integration and co-ordination across spheres of government, functional boundaries, departments and the private sector

to provide integrated planning

to provide departmental monitoring and evaluation support services

to provide for the co-ordination of transversal programmes

### **Policy developments**

No policy developments are envisaged at this stage.

### Changes: Policy, structure, service establishment, Geographic distribution of services

The Human Resources and Enterprise Risk Management functions were shifted to the Corporate Service Centre of the Department of the Premier during 2010. A new Operational Support component was created to manage the department's responsibilities in terms of the Corporate Service Centre Service Level Agreement. This necessitated a shift in the macro- and micro structure arrangements of the Department.

### **Expenditure trends analysis**

The provision for 2011/12 for the programme as a whole has decreased by 28.68 per cent compared to the main appropriation for 2010/11 and has decreased by 10.97 per cent compared to the revised estimates for 2010/11. Based on the main appropriation for 2010/11, the programme shows a decrease of 30.73 per cent over the MTEF. The provision for payments of capital assets has decreased by 68.51 per cent compared to the main appropriation for 2010/11, while current payments has decreased by 27.73 per cent and transfer payments increased slightly by 2.62 per cent. The reasons for the decrease are mainly due to the cessation of the provision for services related to planning for the 2010 FIFA World Cup event that took place in 2010/11 and funds that were shifted to Vote 1 - Department of the Premier for the Human Resource and Enterprise Risk Management as part of the corporatisation process.

### Strategic goal as per Strategic Plan:

### Programme 1: Administration

Promote good governance and an effective and efficient department.

### Strategic objectives as per Annual Performance Plan:

Improved quality of financial management.

Coherent transversal integrated strategic planning, co-ordination and monitoring and evaluation facilitated and managed across the Department.

Facilitated effective utilisation of systems, processes and knowledge within the Department.

### Programme 2: Public Works Infrastructure

**Purpose:** To provide balanced provincial government building infrastructure that promotes integration, accessibility, sustainability, equity, environmental sensitivity, economic growth and social empowerment.

### Analysis per sub-programme:

### Sub-programme 2.1: Programme Support

to manage the programme and render an administrative and professional support service

to act as preferred implementing agent for the delivery of building infrastructure

### Sub-programme 2.2: Planning

to manage the demand for infrastructure

to develop, monitor and enforce built sector and property management norms and standards

to assist with the development of User Asset Management plans

to development Custodian Asset Management Plans and related implementation plans

### Sub-programme 2.3: Design

to design building infrastructure

### Sub-programme 2.4: Construction

to construct, upgrade and refurbish building infrastructure

to manage contracts and projects

### Sub-programme 2.5: Maintenance

to perform routine and scheduled maintenance

to conduct conditions assessment of all buildings

to alter building infrastructure for reasons other than maintaining the asset

#### Sub-programme 2.6: Immovable Asset Management

to manage the property portfolio of the province

to provide accommodation for all provincial departments and other institutions

to acquire and dispose properties

to manage leasing in and leasing out of property

to manage the asset register

to monitor and evaluate the utilisation of provincial government facilities

#### Sub-programme 2.7: Facility Operations

to manage the operations of buildings, including facilities management, cleaning, greening, beautification, interior decorating and design, and day to day preventative maintenance of electronic, electrical and mechanical equipment

# **Policy developments**

The following policy development work will be undertaken and or concluded:

Policies emanating from the Government Immoveable Asset Management Act, 2007 (Act 19 of 2007):

Drafting proposed amendments to the Western Cape Land Administrations Act 6 of 1998 and its Regulations.

Policies that will enable governing and regulating the construction and property sector in the Provincial Government adequately to the satisfaction of all its clients such as the Infrastructure Delivery Management System.

# Changes: policy, structure, service establishment, geographic distribution of services

Outcome of the revised micro structure currently being developed in respect of Provincial Public Works taking account of the IDIP interventions and aimed to be implemented in the 2011/12 financial year.

# **Expenditure trends analysis**

The provision for 2011/12 for the programme as a whole has increased by 33.54 per cent compared to the main appropriation for 2010/11 and has increased by 10.43 per cent compared to the revised estimates for 2010/11. Based on the main appropriation for 2010/11, the programme shows an increase of 48.21 per cent over the MTEF. The provision for payments of capital assets has increased by 130.86 per cent compared to the main appropriation for 2010/11, while current payments has increased by 6.45 per cent and transfer payments has increased by 60.62 per cent. The increases are mainly due to additional investments in infrastructure.

# Strategic goal as per Strategic Plan:

#### Programme 2: Public Works Infrastructure

Promote good governance and an effective and efficient department.

Lead the development and implementation of Provincial Infrastructure and Property Management in the Western Cape.

# Strategic objectives as per Annual Performance Plan:

Strategic directive developed and implemented for Provincial Infrastructure and Property Management.

Reviewed Strategic Infrastructure Plan and Management Framework developed.

GIAMA implemented and complied with.

Facilitated and delivered sustainable Provincial infrastructure and accommodation.

Developed plans and secured funds for Provincial infrastructure delivery.

Promoted Socio-economic development through the implementation of Provincial infrastructure, Provincial Accommodation and Property Management programmes.

# Programme 3: Transport Infrastructure

**Purpose:** To deliver and maintain transport infrastructure that is sustainable, integrated, environmentally sensitive that supports and facilitates social empowerment and economic growth and promotes accessibility and the safe, affordable movement of people, goods and services.

#### Analysis per sub-programme:

#### Sub-programme 3.1: Programme Support Infrastructure

to manage and support the programme

#### Sub-programme 3.2: Infrastructure Planning

to provide policy and legislative framework for transport

to provide network planning for proclaimed roads

to integrate transport and spatial/development planning

to assist local authorities with planning and design of roads that qualify for subsidy

to undertake planning and promote implementation of public transport systems and services

to plan integrated modal transport facilities and systems for all modes of transport

to promote improvement of safety on transport infrastructure

#### Sub-programme 3.3: Infrastructure Design

to provide geometric, material, structural and traffic engineering designs of provincial proclaimed roads

to provide laboratory, survey, GIS, mapping, proclamation and expropriation services

to provide management and information systems for the provincial road network

#### Sub-programme 3.4: Construction

to construct and rehabilitate provincial proclaimed roads and related transport infrastructure

to assist Local Authorities and City of Cape Town with subsidies for infrastructure projects

to construct roads and related transport infrastructure through community based projects

#### Sub-programme 3.5: Maintenance

to maintain provincial proclaimed roads and related transport infrastructure

to render technical support including radio network services and training

to maintain roads and related transport infrastructure through community based projects

#### Policy developments

The following policy development work will continue:

Review of policy for provisioning of services within the road reserve.

Review of the Road Access Guidelines.

Review Technical Standards where considered appropriate.

Review of contract documentation in line with the objectives of the Expanded Public Works Programme.

Redrafting of the Advertising Along Roads and Ribbon Development Act, 1940 (Act 21 of 1940), as part of the WC Transport Infrastructure Bill – submitted for legal approval.

Redrafting of the Cape Roads Ordinance, 1976 (Ord. 19 of 1976), as part of the WC Transport Infrastructure Bill – submitted for legal approval.

# Changes: Policy, structure, service establishment, geographic distribution of services

An impact assessment on the decentralisation of functions from head office to the regional offices will be conducted to evaluate the success.

# **Expenditure trends analysis**

The provision for 2011/12 for the programme as a whole has increased by 12.35 per cent compared to the main appropriation for 2010/11 and has increased by 4.64 per cent compared to the revised estimates for 2010/11. Based on the main appropriation for 2010/11, the programme shows an increase of 17.72 per cent over the MTEF. The provision for payments of capital assets has increased by 19.57 per cent compared to the main appropriation for 2010/11, while current payments has decreased by 2.11 per cent and transfer payments have increased by 3.73 per cent

# Strategic goals as per Strategic Plan:

#### Programme 3: Transport Infrastructure

Promote good governance and an effective and efficient department.

Lead the development and implementation of Integrated Transport systems in the Western Cape.

# Strategic objectives as per Annual Performance Plan:

An effective road based transport infrastructure network for accessible, safe and affordable transport.

Economic growth and empowerment through road-based transport infrastructure investment.

# Details of transfers and subsidies:

# Programme 4: Transport Operations

**Purpose:** To plan, regulate and facilitate the provision of integrated land transport services through coordination and co-operation with national planning authorities, municipalities, community based and nongovernmental organisations and the private sector in order to enhance the mobility of all communities.

# Analysis per sub-programme:

# Sub-programme 4.1: Programme Support Operations

to manage and support the programme

# Sub-programme 4.2: Public Transport Services

to manage public transport contracts

to manage the subsidies for public transport operators

# Sub-programme 4.3: Transport Safety and Compliance

to manage, co-ordinate and facilitate transport safety and compliance in all modes

to monitor public transport operators to ensure safety of commuters

to provide safety education, awareness, training and development of operators

to provide safety education and awareness to the public

# Sub-programme 4.4: Transport Systems

to manage and operate public transport systems and related support services

# **Policy developments**

The following policy development work will be undertaken:

Conclusion of the Provincial Fare Policy for Public Transport

Development of Provincial Transport Laws

Drafting of a Provincial Transport Bill

#### Changes: Policy, structure, service establishment, Geographic distribution of services

The micro organisational structure will be re-designed to:

Give effect to the National Land Transport Act, 2009 (Act 5 of 2009).

Give effect to public transport operations as contemplated in the grant framework of the Public Transport Operations Grant published in terms of the Division of Revenue Act.

Manage the restructured subsidised public transport services.

Provide systems support in efficiently managing the Public Transport Operating Grant.

Enable the monitoring of scheduled public transport services in the Province.

The function, followed by the funds for the Public Transport Inspectorate was shifted to Vote 4: Community Safety.

#### Expenditure trends analysis

The provision for 2011/12 for the programme as a whole has increased by 3.06 per cent compared to the main appropriation for 2010/11 and has increased by 5.37 per cent compared to the revised estimates for 2010/11. Based on the main appropriation for 2010/11, the programme shows an increase of 8.63 per cent over the MTEF. The provision for payments of capital assets has increased by 925.00 per cent compared to the main appropriation for 2010/11, while current payments has decreased by 16.50 per cent and transfer payments have increased by 5.72 per cent. The reason for the variations in the trends can mainly be attributed to the allocation of this programme being adjusted to re-direct the focus and align it towards achieving PSO 3. Mindful of the aforementioned, resources were allocated with the focus on the effective management of the implementation of the Public Transport Operations Grant, the Safely Home Programme, George Mobility Project and the phasing in of the shifting of functions as required by the National Land Transport Act.

#### Strategic goals as per Strategic Plan:

#### **Programme 4: Transport Operations**

Promote good governance and an effective and efficient department.

Lead the development and implementation of Integrated Transport systems in the Western Cape.

#### Strategic objectives as per Annual Performance Plan:

Improved regulatory framework through the tabling of provincial laws and associated regulations.

Phase of Safety Management System implemented.

Number of kilometres operated in terms of the approved timetable (expressed as a percentage of the total number of kilometres scheduled).

Phases of Mobility Strategy Service operational.

# Programme 5: Transport Regulation

**Purpose:** To regulate the transport environment through the licensing and registration of vehicles, associations, operators and drivers.

#### Analysis per sub-programme:

#### Sub-programme 5.1: Programme Support Regulation

to manage and support the programme

#### Sub-programme 5.2: Transport Administration and Licensing

to, in respect of licensing administration, monitor and control all aspects related to the registration and licensing of motor vehicles

to, in respect of law administration, monitor and control all aspects related to driver and vehicle fitness

#### Sub-programme 5.3: Operator Licence and Permits

to manage the regulating of public transport operations, including the registration of operators and the processing of applications for operating licences

to support the Provincial Regulatory Entity (PRE), the provincial transport registrar and other statutory bodies

to control and regulate the quality of services provided by private operators

to monitor and control the issuing of permits for abnormal loads, sporting events and transport of hazardous goods

#### Sub-programme 5.4: Law Enforcement

to operate weighbridge stations within the Province

# **Policy developments**

The following policy work will be undertaken:

Policy development work that affects Traffic Law Administration strategic outputs will be undertaken. This includes the development and implementation of an ideal model for debt management with regard to outstanding motor vehicle licence fees, as well as revised compliance requirements pertaining to vehicle and driver fitness testing and motor vehicle licensing to ensure that perpetrators are successfully prosecuted and not allowed back within the traffic law administration environment.

Enabling powers and delegations must be assigned by the National Minister of Transport to the provincial Compliance Monitoring Unit in terms of the National Road Traffic Act, 1996 (Act 93 of 1996) to ensure that they are adequately empowered to perform all the duties attached to investigations at RA's, DLTC's and VTS's and to ensure that perpetrators are successfully prosecuted.

Amended policy and procedures will be compiled, stemming from the recent promulgation of the National Road Traffic Amendment Act, 1999 (Act 21 of 1999) and the National Road Traffic Amendment Act, 2008 (Act 64 of 2008). In addition to this provision will be made for the remaining portions of the National Road Traffic Act, 1996 (Act 93 of 1996) that were not yet in force, also having been promulgated recently, thereby effectively repealing the entire Road Traffic Act, 1989 (Act 29 of 1989).

# Changes: Policy, structure, service establishment, Geographic distribution of services

The review of the micro structure for the Traffic Law Administration directorate will be concluded.

# **Expenditure trends analysis**

The provision for 2011/12 for the programme as a whole has increased by 9.62 per cent compared to the main appropriation for 2010/11 and has increased by 3.16 per cent compared to the revised estimates for 2010/11. Based on the main appropriation for 2010/11, the programme shows an increase of 10.80 per cent over the MTEF. The provision for payments of capital assets has decreased by 66.71 per cent compared to the main appropriation for 2010/11, while current payments has increased by 10.37 per cent and transfer payments has decreased by 100.00 per cent.

# Strategic goals as per Strategic Plan:

# **Programme 5: Regulations**

Promote good governance and an effective and efficient department.

Lead the development and implementation of Integrated Transport systems in the Western Cape.

# Strategic objectives as per Annual Performance Plan:

Effectively controlled environment for traffic law administration.

Minimised road damage through overload control.

Improved transport safety.

# Programme 6: Community Based Programmes

**Purpose:** To manage the implementation of programmes and strategies that lead to the development and empowerment of communities and contractors, including the provincial management and coordination of the Expanded Public Works Programme.

#### Analysis per sub-programme:

#### Sub-programme 6.1: Programme Support Community Based

to manage and support the programme

#### Sub-programme 6.2: Innovation and Empowerment

to provide for contractor development, training programmes and learnerships

#### Sub-programme 6.3: EPWP Co-ordination and Compliance Monitoring

to monitor and evaluate performance of EPWP in the Province including compliance and reporting on job creation development

# Policy development

No further policy developments are envisaged.

# Changes: Policy, structure, service establishment, geographic distribution of services

No further changes are envisaged.

# **Expenditure trends analysis**

The provision for 2011/12 for the programme as a whole has decreased by 30.95 per cent compared to the main appropriation for 2010/11 and has increased by 21.95 per cent compared to the revised estimates for 2010/11. Based on the main appropriation for 2010/11, the programme shows a decrease of 30.96 per cent over the MTEF. The provision for payments of capital assets has decreased by 18.42 per cent compared to the main appropriation for 2010/11, while current payments have decreased by 31.21 per cent. The decline can be attributed to funds that were shifted to Programme 1: Administration to strengthen the Strategic and Integrated Planning and Co-ordination Directorates for the purposes of sustaining internships. In addition, and unlike Budget 2010 the EPWP incentive grant was allocated to Programme 3 – Transport Infrastructure to be spent on roads projects that are EPWP compliant and where it can yield the most job opportunities.

# Strategic goals as per Strategic Plan:

#### Programme 6: Community Based Programmes

Promote good governance and an effective and efficient department.

Lead the implementation and facilitation of EPWP in the Western Cape.

# Strategic objectives as per Annual Performance Plan:

The development and empowerment of communities and the construction industry towards sustainable economic and employment growth.

EPWP Provincial Co-ordination and Compliance Monitoring.
