CLASSIFICATION CIRCULAR 9

ADJUSTMENTS TO THE STANDARD CHART OF ACCOUNTS (SCOA)

PURPOSE

1. The purpose of this circular is to inform all government financial practitioners of the changes made to the SCOA with effect from 1 April 2011 of the 2011/2012 financial year.
2. Reasons for the amendments to the SCOA are provided along with an illustration of the impact thereon on the respective segment. Items shown in red indicates that the item has been removed/deleted, blue indicates that the item has been changed/re-named, while green implies that a new item has been created/added.

FUND SEGMENT

3. This segment has been aligned to the published Appropriation and Division of Revenue Bills for 2011.

OBJECTIVE SEGMENT

4. Programme structures of national and provincial departments were updated and aligned to the budget statements of departments as tabled in Parliament and the Legislatures.
5. Where a programme and subprogramme name changed, the entire programme and its subprogrammes were recreated in the financial system. Departments must activate the entire new structure and re-link the codes to the various transversal systems for interfaces.

RESPONSIBILITY SEGMENT

6. This segment is non-standardised; therefore departments need to amend the structure according to their needs in terms of the requirements of their organisational structure.
7. Consequently no changes were made by the National Treasury to this segment of the chart.

Adjustments to the Standard Chart of Accounts (SCOA) – Circular 9 issued 31 March 2011

ITEM SEGMENT

Compensation of employees

8. The item FOREIGN ALLOWANCE SOUTH AFRICAN OFFICIALS/CHILDREN ALLOWANCE under the OTHER NON-PENSIONABLE ALL (RESIDENTS) category was removed as it was incorrectly placed on the structure. The item has been added to the category SALARIES AND WAGES: FOREIGN ALLOWANCE SOUTH AFRICAN OFFICIALS.

Contractors

14. A new item has been created for casual labourers. These are workers are appointed on an ad hoc casual basis who have an explicit or implicit contract of employment which is expected to last for a short period of time. The duration of the contract is determined by the circumstances and usually spans for just an hour, a few hours, a day, a week, or for the performance of specific tasks. This item excludes staff appointed on PERSAL as permanent, temporary and/or periodic.
15. These labourers perform the tasks on an "as needed" basis. There are no expectations for permanent or non-permanent employment from both parties. The main attribute is the absence of a continuing relationship. For example, a department buys paintings and gets some individuals to assist in hanging the paintings on the walls and then compensates them for the service.

Fleet services

16. Fleet services are defined as costs relating to operation and maintenance of government vehicles. This item was previously utilised solely for Government Motor Transport (GMT). It has been amended to include all government vehicles, including ministerial vehicles as well as departmentally-owned vehicles. The departments should classify all expenditures relating to fleet vehicles under fleet services consistently for improved reporting.
17. There are other items similar to fleet service items under inventory (e.g. INVENTORY FUEL AND GAS: FUEL, OIL AND LUBRICANTS). These items are used to record bulk purchases, for example fuel for agriculture, household gas, etc. These items are only used by certain departments that purchase fuel in bulk as Inventory.

Adjustments to the Standard Chart of Accounts (SCOA) – Circular 9 issued 31 March 2011

18. If a department rents a vehicle and makes a series of payments to a fleet management company, the classification should be recorded as a lease payment. The department must determine if the lease is a finance or operating lease. Chapter 8 of the Departmental Financial Reporting Framework Guide issued by National Treasury provides guidance on how the correct classification of the lease payment can be determined. The principle guiding the classification in this instance is whether a substantial portion of all risks and rewards incidental to ownership of an asset are transferred to the department, in such instance the lease is classified as a finance lease, even though title may not eventually be transferred to the department. National Treasury provides accounting policies to departments on the treatment of such transactions and therefore does not review contracts on behalf of departments to determine if a lease the department has entered into is a finance lease or an operating lease. Professional judgment should be exercised in reaching such decisions.

19. The item for licence fees under fleet services has been removed as it was placed under this item for purposes of the systems interface; however the item should be classified as transfers and has been corrected accordingly. The item for PD: VEHICLE LICENCES (BAS code 2364) and MUN B/ACC: VEHICLE LICENCES (BAS code 2356) can be used to transact against this expenditure.

Rental and hiring

22. A new item for RENTAL AND HIRING has been created at the same level as LEASE PAYMENTS. Whilst lease payments involve agreements where a series of payments are made, Rentals and Hiring has been created for transactions that involve a once-off payment for the temporary use of an item which is owned by an external party.

23. The linking of an asset in the asset segment to the RENTAL AND HIRING payment is not required, as the assets do not belong to the department, however if a department chooses to link a rented/hired asset for purposes of improving reporting on rental/hiring such a link will be allowed. It must be noted that the approach must be consistently applied to all rented/hired asset. The National Treasury therefore proposes to link it to 'non-asset' related in the Asset segment.

Travel and subsistence

24. The item DAILY ALLOWANCE under the category TRAVEL & SUBSISTENCE: DOMESTIC has been reviewed and adjusted to ensure alignment with the resolutions issued by DPSA. The posting level item T&S DOM: DAILY ALLOWANCE (2374) has been removed and has been replaced by a more detailed set of posting level items as indicated below.

25. The definitions for the new items are provided below:

Special Daily allowance: This item is used to compensate employees for incidental expenses where actual travel expenses are claimed.

Fixed Daily allowance: This item is used in circumstances where actual travel expenses are not claimed.

Camping allowance: Daily allowance paid to camping personnel.

Separation Allowance: The allowance is paid to compensate an employee whose work requires considerable travelling for the disruption to her or his family life and for the inconvenience. For detail information, please refer to "Resolutions on Remunerative Allowances and Benefits and Financial Manual" issued by the DPSA.

26. The item for travel and subsistence for non-employees has been removed from the travel and subsistence category. This is the result of the creation of a new sub-category for non-employees which has been created.
27. A sub-category for non-employees has been created under the travel and subsistence category. The item is used for travel and subsistence paid to individuals that are not in the employment of a department.

Goods and services

Assets < R5000

10. A new category for minor Heritage Assets (value less than R5000 when purchased) has been added to the chart. The category for major Heritage assets already existed under PURCHASE/CONSTRUCTION CAPITAL ASSETS.
11. An asset is classified as a "heritage asset" because of its cultural, environmental, historical, natural, scientific, technological or artistic significance and is held indefinitely for the benefit of present and future generations.

Library books

13. The items used for the recording of the purchase of library books have been reviewed and amendments to the different categories along with the accounting and classification principles are provided below.

- a) Entities hold library books to provide a service to the community and therefore such books are viewed as assets. If the books are going to be used over more than one reporting period then the purchase of such books should be accounted for as the purchase of assets and the capitalisation threshold must be applied, which implies that books costing less than R5000 will be expensed as minor assets and recorded as such in the asset register, while books costing more than R5000 will be recorded as PAYMENTS FOR CAPITAL ASSETS and recorded in the major asset register.
