

# 5 WATER SAVING TIPS – ACCOMMODATION

**Wait for a full load** before running washing machines and dishwashers. The rinse water from some washing machines can be reused for the next wash cycle.

**Defrost foods** in the fridge or naturally rather than placing it under running water

**Collect** your shower, bath and basin water and re-use it for the garden and cleaning. \*Greywater use has some health and hygiene risks that you must avoid. Keep hands and surface areas sanitised/disinfected.

Find and **fix leaks** to reduce water usage in your establishment

**Low Flow Faucets and Shower Heads** can reduce water usage to as much as 30%. Replace old faucets and bathroom accessories with low flow components to reduce water usage.

# 5 WATER SAVING TIPS – GUESTS

Take a short **2-minute shower.**

Only **flush** the toilet **when necessary.** Don't use it as a dustbin.

**Use a cup** instead of running taps in the bathroom or kitchen, for brushing teeth, shaving, drinking etc.

**Collect** your shower, bath and basin water and re-use it to flush your toilet.

Use your **towels more than once.**
