

DOI – Transport Infrastructure – for 2024/7/14 @ 17:00

Please obey all road signs – they are there for very good reasons, and should not be moved. Moving boards not only places your life in danger but also everyone following you not knowing the road is officially closed. If you are driving and come across flooded roads, please take great care. If the water is too deep for you to see the roadway, turn around and take another route.

Where roads are underwater, the roadway may have been damaged or washed away. There may be obstacles under the water you cannot see. Water flow may be strong enough to wash your vehicle away. Keep yourself and your loved ones safe on the road.

When a road is closed, it is closed to **all road users** and to **all vehicle types**. Roads are only closed for safety reasons. Emergency personnel must be free to respond to unavoidable emergencies. The last thing anyone wants is for a fun trip to turn into tragedy.

All access routes for Citrusdal closed.

Update on important access routes:

1. The MR310 that links Citrusdal to the N7 is closed until further notice.
2. Citrusdal-N7 via MR539 – the low water bridge on this route is under water and is closed until further notice.
3. Citrusdal-N7 via Clanwilliam (MR539 to DR2183 and to the N7 via Clanwilliam – the road water level has risen.
4. Citrusdal-Ceres via MR310 this road is closed at Elandskloof until further notice.

It should be noted: Where water levels allow emergency vehicles to pass, they will receive access. **This does not mean the public can utilise the road at this stage.**

Legend for colour-coding

- **Black:** Prior to weekend damage
- **Red:** Closed
- **Orange:** One lane/Partially open
- **Blue:** Local access only
- **Green:** status changed to Open

Legend for road naming conventions

Names and number of roads are linked to the **route** or **road class**.

For ease of reference, this report mentions route numbers, road number and the name it is locally known as.

Route numbers

- An “N”-route is a national route
- An “R”- route is a regional/provincial route

Provincial Road Number

- TR (Trunk Road/ “Grootpad”)
- MR (Main Road/ “Hoofpad”)
- DR (Divisional Road/ “Afdelingspad”)
- OP (Minor road/ “Ondergeskikte pad”) – small road and mainly connects agricultural communities
