## CITY OF CAPE TOWN

**PUBLIC NOTICE IN TERMS OF SECTION 36(1) OF THE CITY OF CAPE TOWN WATER BY-LAW, 2010**

In view of the ongoing dire drought situation, the Director: Water and Sanitation of the City of Cape Town hereby gives notice of level 6 water restrictions and measures as detailed herein.

In summary, key new restriction measures include:

- residential units consuming more than 10 500 litres per month will be prioritised for enforcement
- non-residential properties to reduce consumption by 45%
- agricultural users to reduce consumption by 60%
- the use of borehole water for outdoor purposes is discouraged in order to preserve groundwater resources

Please note that permission from the National Department of Water and Sanitation is required in order to sell or buy borehole/wellpoint water.

Failure to comply with this notice may constitute an offence in terms of the aforementioned By-Law (or as amended) and the accused will be liable to an admission of guilt fine and, in accordance with Section 36(4) of the Water By-Law, 2010 (or as amended), an installation of a water management device(s) at premises where the non-compliance occurs. The cost thereof will be billed to the relevant account holder.

This notice is effective from 1 January 2018.

**LEVEL 6 WATER RESTRICTIONS**

**The City of Cape Town has implemented Level 6 Water Restrictions, effective from 1 January 2018 until further notice.**

**RESTRICTIONS APPLICABLE TO ALL CUSTOMERS**

- No watering/irrigation with municipal drinking water allowed. This includes watering/irrigation of gardens, vegetables, agricultural crops, sports fields, golf courses, nurseries, parks and other open spaces. Nurseries and customers involved in agricultural activities or with historical gardens may apply for exemption. For more information, visit [www.capetown.gov.za/thinkwater](http://www.capetown.gov.za/thinkwater).
- The use of borehole/wellpoint water for outdoor purposes, including watering/irrigating and filling/topping up of swimming pools, is strongly discouraged in order to preserve groundwater resources in the current dire drought situation. Borehole/wellpoint water should rather be used for toilet flushing.
- All boreholes and wellpoints must be registered with the City and must display the official City of Cape Town signage clearly visible from a public thoroughfare. Visit [www.capetown.gov.za/thinkwater](http://www.capetown.gov.za/thinkwater) for how to register.
- All properties where alternative, non-drinking water resources are used (including rainwater harvesting, greywater, treated effluent water and spring water) must display signage to this effect clearly visible from a public thoroughfare. Visit [www.capetown.gov.za/thinkwater](http://www.capetown.gov.za/thinkwater) for further information.
- No topping up (manual/automatic) filling or refilling of swimming pools with municipal drinking water is allowed, even if fitted with a pool cover.

- The use of portable or any temporary play pools is prohibited.
- No washing of vehicles (including taxis), trailers, caravans and boats with municipal drinking water allowed. These must be washed with non-drinking water or cleaned with waterless products or dry steam cleaning processes. This applies to all customers, including formal and informal car washes.
- No washing or hosing down of hard-surfaced or paved areas with municipal drinking water allowed. Users, such as abattoirs, food processing industries, care facilities, animal shelters and other industries or facilities with special needs (health/safety related only) must apply for exemption. For more information, visit [www.capetown.gov.za/thinkwater](http://www.capetown.gov.za/thinkwater).
- The use of municipal drinking water for ornamental water fountains or water features is prohibited.
- Customers are strongly encouraged to install water efficient parts, fittings and technologies to minimise water use at all taps, showerheads and other plumbing components.

#### **RESTRICTIONS APPLICABLE TO RESIDENTIAL CUSTOMERS**

- All residents are required to use no more than 87.5 litres of municipal drinking water per person per day in total irrespective of whether you are at home, work or elsewhere. Therefore, a residential property with four occupants, for example, is expected to use at most 10 500 litres per month.
- Single residential properties consuming more than 10 500 litres of municipal drinking water per month will be prioritised for enforcement (see note 1). Properties where the number of occupants necessitates higher consumption are encouraged to apply for an increase in quota. For more information, visit [www.capetown.gov.za/thinkwater](http://www.capetown.gov.za/thinkwater).
- Cluster developments (flats and housing complexes) consuming more than 10 500 litres of municipal drinking water per unit per month will be prioritised for enforcement (see note 1). Cluster developments with units where the number of occupants necessitates higher consumption are encouraged to apply for an increase in quota. For more information, visit [www.capetown.gov.za/thinkwater](http://www.capetown.gov.za/thinkwater).
- You are encouraged to flush toilets (e.g. manually using a bucket) with greywater, rainwater or other non-drinking water.
- No increase of the indigent water allocation over and above the free 350 litres a day will be granted, unless through prior application and permission for specific events such as burial ceremonies.

#### **RESTRICTIONS APPLICABLE TO NON-RESIDENTIAL CUSTOMERS**

- All non-residential properties (e.g. commercial and industrial properties, schools, clubs and institutions) must ensure that their monthly consumption of municipal drinking water is reduced by 45% compared to the corresponding period in 2015 (pre drought). (See note 1 below.)
- All agricultural users must ensure that their monthly consumption of municipal drinking water is reduced by 60% compared to the corresponding period in 2015 (pre drought). (See note 1 below.)
- The operation of spray parks is prohibited.
- No new landscaping or sports fields may be established, except if irrigated only with non-drinking water.
- For users supplied with water in terms of special contracts (notarial deeds, water service intermediaries or water service providers), the contract conditions shall apply.

**NOTE 1:** Failure to comply will constitute an offence in terms of the City's Water By-Law, 2010 (or as amended). The accused will be liable to an admission of guilt fine and, in accordance with Section 36(4), an installation of a water management device(s) at premises where the non-compliance occurs. The cost thereof will be billed to the relevant account holder. Customers with good reason for higher consumption need to provide the City with motivation to justify their higher consumption.

**Other restrictive measures, not detailed above, as stipulated in Schedule 1 of the Water By-Law, 2010 (or as amended) still apply. Exemptions issued under Level 4B and 5 restrictions still apply, subject to review with the possibility of being revoked. Water pressure has been reduced to limit consumption and water leaks, and such may cause intermittent water supply.**

**For further information visit [www.capetown.gov.za/thinkwater](http://www.capetown.gov.za/thinkwater) or contact us at [water@capetown.gov.za](mailto:water@capetown.gov.za).**
