

Three-year funding cycle for NPOs

The Department of Social Development has a three-year funding cycle for NPOs and other qualifying organisations to submit funding applications. This includes current funded organisations, residential and non-residential facilities. These funding applications are for the provision of specified social welfare and/or community development services on behalf of the Department.

The last call for proposals was initiated in 2017 for financial years 2018/19, 2019/20 and 2020/21. The next call for proposals will be made in 2020, for the next three-year funding cycle.
