

Water is a shared resource. Don't use more than your share.

Our province is dealing with the worst drought in a century. The Western Cape Government is helping municipalities to secure their water supply. Residents need to save as much water as possible. We can avoid running out of water, but only if we work together.

For more tips on how to save water, visit www.h2ohero.co.za **#SAVEWATER**

- ◆ **REUSE GREY WATER** collected from your shower, bath or washing machine.
- ◆ **TAKE A SHALLOW BATH** or switch to having a quick shower.
- ◆ **REDUCE WATER CONSUMPTION** in bathrooms and kitchens by fitting low-flow tap aerators.

Warning: Children can drown in shallow water. Please store open water containers out of children's reach.

YOUR MUNICIPALITY IS ENFORCING WATER RESTRICTIONS IN YOUR AREA.
