VARIATION OF THE WASTE MANAGEMENT LICENCE FOR THE DECOMMISSIONING OF THE LAMBERTS BAY WASTE DISPOSAL FACILITY (WDF), FARM LAMBERTS BAY NO. 168, LAMBERTS BAY

WASTE MANAGEMENT LICENCE

A. DECISION

I, Eddie Hanekom, in my capacity as the Director: Waste Management of the Department of Environmental Affairs and Development Planning (hereinafter referred to as "the Department"), in terms of the National Environmental Management: Waste Act, 2008 (Act No. 59 of 2008) (NEM:WA), as amended, hereby vary and replace the existing Waste Management Licence (Licence No. 19/2/5/4/F2/10/WL0010/18) of the Cederberg Municipality (hereinafter referred to as 'the Municipality') for the decommissioning of the Lamberts Bay WDF on the Farm Lamberts Bay No. 168, Lamberts Bay (hereinafter referred to as "the Facility").

B. DESCRIPTION OF ACTIVITY:

The activities for decommissioning of the Lamberts Bay WDF as per the "Minimum Requirements for Waste Disposal by Landfill", 1998, Second Edition, Department of Water Affairs and Forestry (DWAF) (now Department of Water and Sanitation) ("Minimum Requirements") and the NEM:WA "National Norms and Standards for Disposal of Waste to Landfill" Government Notice (GN) No. R 636 (GN R 636) of 23 August 2013 will entail but not be limited to the following:

- (a) Disposal of general waste
- (b) WDF Site Auditing
- (c) Gate or weighbridge recording procedures
- (d) Volume Surveys
- (e) Collection and processing of other data
- (f) Leachate and water quality monitoring
- (g) Gas monitoring
- (h) Air quality monitoring
- (i) Monitoring of rehabilitated areas
- (j) Attend to the health of workers
- (k) The determination of the total airspace at the waste disposal facility within 6 months after this Licence is issued;
- (l) Remedial design to address identified problem areas;
- (m) Final shaping, landscaping and re-vegetation;
- (n) Final landfill cover or capping design;
- (o) Permanent stormwater diversion measures, run-off control and anti-erosion measures; and
- (p) Any infrastructure relating to the End-use plan.

The following activity listed in the NEM:WA, 'List of waste management activities that have, or are likely to have, a detrimental effect on the environment', GN No. 921 of 29 November 2013 (GN No. 921), as amended, are hereby authorised:

Category A

3 (14): *The decommissioning of a facility for a waste management activity listed in Category A and B of this Schedule.*

The granting of this Waste Management Licence is subject to compliance with the conditions set out in Section C.

In this Licence, "Director" means the Director: Waste Management of the Western Cape Department of Environmental Affairs and Development Planning, who may be contacted at the address below:

Director: Waste Management
Department of Environmental Affairs and Development Planning
Private Bag X9086

CAPE TOWN

8000

In this Licence, "Director: RPW" means the Director: Resource Protection and Waste of the Department of Water and Sanitation: Western Cape Provincial Operations, who may be contacted at the address below:

Director: RPW: Western Cape Provincial Operations
Department of Water and Sanitation
Private Bag X16

SANLAMHOF

C. LICENCE CONDITIONS

LICENCE NUMBER: 19/2/5/4/F2/10/WL0055/19

WASTE APPLICATION: DECOMMISSIONING OF THE LAMBERTS BAY WDF

LOCATION: FARM LAMBERTS BAY NO. 168, LAMBERTS BAY

LICENCE HOLDER: CEDERBERG LOCAL MUNICIPALITY

CONTACT PERSON: THE MUNICIPAL MANAGER OR THE DESIGNATED WASTE MANAGER/OFFICER

ADDRESS: PRIVATE BAG X2, CEDERBERG, 7320

1. LOCATION

1.1 This Licence authorises the Cederberg Local Municipality to operate until decommissioning and closure and decommission the Facility on Farm Lamberts Bay No. 168, Lamberts Bay, Cederberg Local Municipality.

1.2 Location of property on which the Facility is situated:

Table 1-1: Location of the Facility

Latitude (S)	Longitude (E)
32°05'26.89"	18°20'24.61"

1.3 The location of the Facility must be according to co-ordinates indicated on the Waste Management Licence Application Form dated 20 January 2014 and Waste Management Licence Additional Information Annexure dated 1 April 2014 submitted by the Licence Holder, which is defined as follows:

Table 1-2: Footprint of the Facility

Corner Points	Latitude (S)	Longitude (E)
1	32°05'26.8"	18°20'24.2"
2	32°05'26.7"	18°20'20.0"
3	32°05'22.7"	18°20'25.5"
4	32°05'21.8"	18°20'19.8"
5	32°05'24.2"	18°20'18.7"

1.4 The footprint of the Facility and its associated infrastructure is 19450m².

1.5 The SG 21 Digit code of the Facility is: C02000040000016800000.

2 PERMISSIBLE WASTE

2.1 Any portion of the Facility as demarcated in condition 1.3, may be used for the disposal of general waste. Only waste that is classified as general waste, according to the NEM:WA or any current and future Norms and Standards developed by the Department, is permitted.

2.2 The Licence Holder shall take all reasonable steps to ensure that:

2.2.1 no hazardous waste; and

2.2.2 no health care waste, including pharmaceutical waste, as defined by the Western Cape Health Care Waste Management Act, 2007 (Act No. 7 of 2007), be disposed of at the Facility.

2.3 All waste loads must be checked at the gate to prevent the disposal of waste not permitted by this Licence.

2.4 Organic waste is allowed to be disposed of at the Facility, but must be in accordance with the Organic Waste Diversion Plan, targets and procedures referred to in conditions 20.7 and 20.8 of the Licence.

3 APPOINTMENT OF A WASTE MANAGEMENT CONTROL OFFICER/ ENVIRONMENTAL CONTROL OFFICER

3.1 The waste management activities that are authorised by this Licence, must be managed by fit and proper persons who are competent in respect of the responsibilities to be undertaken by them.

3.2 A Waste Management Control Officer (WMCO) or Environmental Control Officer (ECO) must be appointed, who will monitor and ensure compliance and correct implementation of all mitigation measures and provisions as stipulated in the Licence.

The WMCO/ ECO must:

3.2.1 report any non-compliance with any Licence conditions or requirements or provisions of NEM:WA to the Licensing Authority through means reasonably available;

3.2.2 identify and submit potential measures to the Licence Holder and the Director in respect of waste minimisation, including the reduction, recovery, re-use and recycling of waste; and

3.2.3 monitor the closure activities and ensure that the closure plans are in accordance with the engineering designs.

4 MANAGEMENT

- 4.1 The draft EMPr for the decommissioning of the facility dated 19 February 2014, submitted as part of the final Basic Assessment Report, is hereby approved and must be implemented together with all the conditions of this Licence.
- 4.2 An application for the amendment to the EMPr must be submitted to the Licensing Authority if any further amendments are to be made to the EMPr and this may only be implemented once the amended EMPr has been authorised by the Licensing Authority.
- 4.3 The closure and rehabilitation of the Facility must be managed by a fit and proper person who is competent in respect of the responsibilities to be undertaken by them in connection with the commencement of the decommissioning activity.
- 4.4 A copy of this Licence and the EMPr must be kept at the Facility where the waste listed activity will be undertaken. The Licence and EMPr must be produced to any authorised official of the Department who requests to see it for the purposes of assessing and/or monitoring compliance with the conditions contained herein, and must be made available for inspection by any employee or agent of the Licence Holder who works or undertakes work at the Facility.
- 4.5 The Licence Holder shall remain responsible for the Facility, and/or any of its impacts arising from the operations on the environment.

5 ACCESS CONTROL

- 5.1 Weatherproof, durable and legible notices in at least 3 (three) official languages shall be displayed at each entrance to the Facility. These notices shall prohibit unauthorised entry and state the hours of operation, the name, address and telephone number of the Licence Holder and the person responsible for the operation of the Facility.
- 5.2 The Facility shall be fenced to a minimum height of 1.8 metres, with gates of the same height at all entrances, to reasonably prevent unauthorised entry and curtail the spreading of wind-blown waste.
- 5.3 The Licence Holder must ensure that there is no illegal access to the closed and rehabilitated Facility and that no illegal dumping occurs on the Facility.
- 5.4 The Licence Holder shall take all reasonable steps to maintain service roads in a condition which ensures unimpeded access to the Facility for vehicles transporting waste and to keep the roads free of waste.

5.5 The Licence Holder shall ensure that all entrance gates are manned during the hours of operation and locked outside the hours of operation.

5.6 The Licence Holder shall ensure effective access control during the operational, closure or rehabilitated Facility and ensure that no illegal dumping occurs.

6 OPERATIONAL

6.1 Waste disposed of on the Facility shall be compacted and covered on a weekly basis with a minimum of 150 mm of soil or other material approved by the Director.

6.2 The Licence Holder shall take all reasonable steps to ensure that the Facility is operated in a manner that shall prevent the creation of nuisance conditions or health hazards.

6.3 All staff and visitors' occupational health and safety risks must be identified and managed. Protective clothing must be worn on the Facility and the provision of the Occupational Health and Safety Act, 1993 (Act No. 85 of 1993) must be complied with.

6.4 Any complaint from the public must be attended to by the Licence Holder, who must take all reasonable and practical steps to alleviate the cause of the complaint within a reasonable timeframe to the satisfaction of the Department and record it in terms of condition 14.

6.5 All waste outside the boundaries of the Facility, as specified in condition 1.3, must be removed and disposed within the boundaries of the Facility.

6.6 Reclamation of waste may occur at the Facility at the discretion of the Licence Holder, but may not take place at the waste body and the Licence Holder must adhere to the NEM:WA "*National Norms and Standards for the Sorting, Shredding, Grinding, Crushing, Screening or Bailing of General Waste*" GN No. 1093 of 11 October 2017. In addition, "*Norms and Standards for Storage of Waste*" GN No. 926 of November 2013 and GN R. 149: "*Waste Tyre Regulations*", 2008 and any subsequent waste tyre regulations must be adhered to where applicable.

6.7 All persons reclaiming waste must be wearing suitable personal protection equipment.

6.8 An Emergency Response Plan (ERP) must be developed, and all staff must be trained in the implementation thereof. The ERP should be regularly updated and must include fire evacuations, injury on duty, accidents, and procedures caused by unexpected hazardous waste ending up at the Facility.

6.9 The Facility must comply with the Noise Control Regulations P.N. 200/2013, as promulgated under the Environmental Conservation Act, 1989 (Act No. 73 of 1989).

6.10 The Licence Holder must ensure that a stockpile of at least 3 (three) weeks of suitable cover material is available at all times.

- 6.11 The waste body must be progressively constructed towards a pre-determined end-shape, as informed by an airspace determination study.
- 6.12 Areas that will not be used for waste disposal for longer than a year must be covered with a minimum of at least 200mm of suitable cover material.

7 ENVIRONMENTAL POLLUTION INVESTIGATIONS

- 7.1 If, in the opinion of the Director, any environmental pollution, nuisances or health risks may be or is occurring at the Facility, the Licence Holder must investigate the cause of the problem and take reasonable steps to alleviate the problem in consultation with the Director.
- 7.2 Should the investigation carried out as per condition 7.1 above reveal any unacceptable levels of pollution, the Licence Holder must submit a report with mitigation measures to the satisfaction of the Director.

8 WATER QUALITY MANAGEMENT

- 8.1 All runoff water (storm water) arising as a result of precipitation on land adjacent to the Facility must be prevented from entering the Facility and must be diverted and drained from the Facility, by means of works constructed by the Licence Holder.
- 8.2 Uncontaminated runoff water must under no circumstances be used to dilute leachate emanating from the Facility but must be diverted to and discharged into the nearest storm water channel.
- 8.3 Works constructed in compliance with condition 15 must be of such a capacity as to maintain a freeboard of half a metre and to accommodate:
 - 8.3.1 all storm water runoff, which could be expected as a result of the estimated maximum precipitation during a period of 24 (twenty-four) hours with an average frequency of 1:50 (once in the fifty years); and
 - 8.3.2 all expected leachate.

9 MONITORING

9.1 Water Quality Monitoring

- 9.1.1 The Licence Holder must establish and maintain a ground water monitoring borehole network with at least 1 (one) upstream and 1 (one) downstream borehole at least 10 (ten) to 20 (twenty) metres from the edge of the compacted waste body, so that unobstructed sampling, as required in terms of this Licence, can be undertaken.

9.1.2 Monitoring boreholes must be equipped with lockable caps. The Director and Director: RPW reserve the right to take water samples at any reasonable time and to analyse these samples or have them analysed.

9.1.3 Surface water monitoring must be performed in all stormwater drain outlets or any appropriate area on the Facility that allows surface water to discharge into the natural environment and adjacent to the Facility at locations selected in conjunction with and at such a frequency as prescribed by the Water Quality Monitoring Protocol approved by the Director: RPW through the Director.

9.2 Detection Monitoring

9.2.1 Monitoring shall be conducted on a biannual (twice per year) basis during late summer and late winter to capture seasonal variation, for the water quality variables as agreed by the Department and the Director: RPW.

9.3 Investigative Monitoring

9.3.1 If, in the opinion of the Director: RPW, a water quality variable listed under the detection monitoring programme, as referred to in condition 9.2, shows an increasing trend, the Licence Holder shall initiate a monthly monitoring programme until such time that the variable is within acceptable limits.

9.4 Further Investigation

9.4.1 If, in the opinion of the Director: RPW, groundwater, surface water and/or air pollution have occurred or may possibly occur, the Licence Holder shall conduct the necessary investigations and implement additional monitoring and rehabilitation measures, which shall be to the satisfaction of the Director: RPW.

10 MONITORING METHODS AND PARAMETERS

10.1 The Licence Holder shall carry out all tests in accordance with methods prescribed by and obtainable from the South African Bureau of Standards (SABS), referred to in the Standards Act, 2008 (Act No. 8 of 2008), to analyse the samples taken under the monitoring programmes specified in condition 10.2

10.2 The Licence Holder may only use another method of analysis if written proof that the method is at least equivalent to the SABS method, is submitted to the Director and the Director: RPW.

- 10.3 The Licence Holder must put in place a monitoring and measurement plan that must inter alia include:
- 10.3.1 mass (in tonnes or kilograms) received, recycled, reclaimed, treated and transferred;
 - 10.3.2 waste types and sources;
 - 10.3.3 air quality monitoring; and
 - 10.3.4 an annual (once a year) topographical survey submitted to the Director in the form of an Airspace Determination Report, which must estimate the remaining volume of airspace on the Facility and the remaining lifetime for the disposal of waste at the Facility.

11 AUDITING

11.1 INTERNAL AUDITS

- 11.1.1 Internal audits must be conducted quarterly (four times per year) by the Licence Holder and on each audit occasion an official report must be compiled by the relevant auditor to report the findings of the audits, which must be made available to the external auditor specified in condition 11.2.1 and the Department (if requested).

11.2 EXTERNAL AUDITS

- 11.2.1 The Licence Holder must appoint an independent external auditor to audit the Facility annually (once a year) and this auditor must compile an audit report documenting the findings of the audit.
- 11.2.2 The audit report must specifically state whether conditions of this Licence are adhered to and must include an interpretation of all available data and test results regarding the operation of the Facility and all its impacts on the environment.
- 11.2.3 The audit report must contain recommendations regarding non-compliance or potential non-compliance with the Licence conditions, and must specify target dates for the implementation of the recommendations by the Licence Holder.
- 11.2.4 The external audit report must be submitted to the Environmental Monitoring Committee (hereinafter referred to as the "Monitoring Committee"), provided in condition 13 below, within 3 (three) months, from the date on which the external auditor finalised the report.
- 11.2.5 Each external audit must be submitted to the Director within 30 (thirty) days, from the date on which the external auditor finalised the report.

11.2.6 Both the internal and external audit reports must be in accordance with the format as prescribed by the Department.

12 DEPARTMENTAL AUDITS AND INSPECTIONS

12.1 The Department and the Director: RPW reserves the right to audit and/or inspect the Facility at any time and at such a frequency as the Director and Director: RPW may decide, or to have the Facility audited or inspected.

12.2 The Licence Holder must make any records or documentation available to the Director and the Director: RPW upon request, as well as any other information the Director and Director: RPW may require.

12.3 The findings of these audits or inspections shall be made available to the Licence Holder within 60 (sixty) days of the end of the audit or inspection and shall not be treated as confidential.

13 MONITORING COMMITTEE

13.1 The Licence Holder must take the necessary steps to establish, maintain and ensure the continued functioning of a Monitoring Committee for the normal operative lifetime of the Facility and for a period of at least 2 (two) years after the closure of the Facility, or such longer period as may be determined by the Director.

13.2 The Monitoring Committee shall be representative of relevant interested and affected parties and may consist of at least 3 (three) of the following representatives:

13.2.1 licence Holder and/or his/her appointed consultant(s) or advisor(s);

13.2.2 representative(s) of the Health, Environment and/or Waste Departments of the relevant local authority;

13.2.3 representative(s) of this Department; and

13.2.4 At least 3 (three) persons/parties, their representatives elected by the local residents, or proof of notification of the invitation to attend the Monitoring Committee to interested and affected parties of each meeting.

13.3 The Monitoring Committee shall meet annually (once a year) and no later than 3 (three) months after the finalisation of the external audit report was conducted in terms of condition 11.2, and submitted in terms of condition 11.2.4.

13.4 The Licence Holder must keep minutes of all meetings of the Monitoring Committee and distribute these minutes to all members of the Monitoring Committee within 30 (thirty) days after the meeting.

14 RECORD KEEPING

- 14.1 The Licence Holder must keep records of all monitoring results, nuisances and complaints at the Facility.
- 14.2 Accurate records of waste volumes or masses received and recovered must be kept at the Facility and reported to the Department as per condition 14.5.
- 14.3 All records required or resulting from activities required by this Licence must:
 - 14.3.1 be legible;
 - 14.3.2 be made available and should form part of any audit report;
 - 14.3.3 if amended, be amended in such a way that the original and any subsequent amendments remain legible and are easily retrievable;
 - 14.3.4 be retained in accordance with documented procedures which are approved by the Department; and
 - 14.3.5 be made available upon the request of the Director and/or the Director: RPW.
- 14.4 The Licence Holder shall record all borehole data and chemical analysis in a format agreed upon in writing between the Director: RPW, the Licence Holder, and a relevant specialist if so required.
- 14.5 The Licence Holder must register and report all waste volumes or masses received, recovered, disposed of or stored to the Department's Integrated Pollutant and Waste Information System (IPWIS), which can be accessed on the URL: <http://ipwis.pgwc.gov.za/ipwis3/public>, as required by the Department.

15 DECOMMISSIONING PHASE

- 15.1 The Licence Holder must submit a Closure Report, which includes the Closure Design, Closure Requirements and End Use Plan to the Licensing Authority for approval 90 (ninety) days prior to construction for decommissioning of the Facility to begin.
- 15.2 Decommissioning construction of the Facility must be considered in accordance with the proposed Closure Report for the Facility in the EMPr and the final BAR as prepared by AECOM dated 1 April 2014.
- 15.3 The Facility must be capped with an appropriate infiltration control cap comprising out of 200mm topsoil on top of a 450mm of compacted clay (in 3 type V layers of the Minimum Requirements of 1998) having a clay permeability not exceeding 10^{-6} cm/sec or have static infiltration less than 0.5m/year, over a compacted waste body shaped to have a slope between 1v:4h (25%) and 1v:50h

(2%). An alternative to the 450mm compacted Clay Layer ("CCL") of specified performance clay is acceptable in which the 450, CCL is replaced with 450mm random soil compacted fill over a Geosynthetic Clay Layer.

- 15.4 Construction within the Facility must be carried out under the supervision of a Professional Civil Engineer, registered under the Engineering Profession of South Africa Act, 1990 (Act 114 of 1990).
- 15.5 The waste body must be covered with the surrounding indigenous vegetation.
- 15.6 The closure of the Facility must be constructed in accordance with recognised civil engineering practice, with special consideration to stability.
- 15.7 The slopes of the sides of the Facility must be constructed in accordance with recognised civil engineering practices, with special consideration to stability.
- 15.8 The Facility, or any portion thereof must be covered and the Facility must be maintained in such a way that:
 - 15.8.1 the formation of pools due to rain is prevented;
 - 15.8.2 free surface runoff of rain-water is ensured;
 - 15.8.3 contamination of stormwater is prevented;
 - 15.8.4 no objects or material which may hamper the rehabilitation of the Facility are present; and
 - 15.8.5 little or no erosion occurs.
- 15.9 Any development which occurs within the 1:100 (one in one hundred) year flood line and/or within 500m from the boundary of a wetland would require a Water Use Licence in terms of Section 21 of the National Water Act, 1998, (NWA).
- 15.10 Sporadic leachate from the Facility may only be discharged into any convenient sewer if accepted by the authority responsible for that sewer.
- 15.11 Any development which occurs within the 1:100 (one in one hundred) year flood line and/or within 500m from the boundary of a wetland would require a Water Use Licence in terms of Section 21 of the National Water Act, 1998.

16 REPORTING

- 16.1 The Licence Holder must, within 24 (twenty-four) hours, notify the Director of the occurrence or detection of any incident at the Facility, which has the potential to cause disruption in the normal operation of the Facility, or has caused water pollution, pollution of the environment, health risks or nuisance conditions.

- 16.2 The Licence Holder must, within 14 (fourteen) days, or a shorter period of time, if specified by the Director, from the occurrence or detection of any incident referred to in condition 16.1, submit an action plan, which must include a detailed time schedule, to the satisfaction of the Director of measures taken to:
- 16.2.1 correct the impact resulting from the incident;
 - 16.2.2 prevent the incident from causing any further impact; and
 - 16.2.3 prevent a recurrence of a similar incident.
- 16.3 In the event that measures have not been implemented within 21 (twenty-one) days of the incident to address impacts caused by the incident referred to in condition 16.1, or measures which have been implemented are inadequate, the Director may implement the necessary measures at the cost and risk of the Licence Holder.
- 16.4 The Licence Holder shall, within 48 (forty eight) hours, notify the Director of any sporadic leachate generated on account of unusual circumstances on the Facility.
- 16.5 The Licence Holder must keep and maintain an incident and complaints register, which must be available at the request of the Director.
- 16.6 The Licence Holder or duly appointed person must keep an incident report and complaints register, which must be made available to both external and Departmental auditors for the purpose of their audits.
- 16.7 The Department must be notified within 7 (seven) days of any changes to the management of the Facility, including the name of the incoming person, together with evidence that such person has the required technical competence.
- 16.8 The Department must be notified within 14 (fourteen) days of the following changes:
- 16.8.1 Licence Holder's trading name, registered name or registered office address;
 - 16.8.2 Particulars of the Licence Holder's ultimate holding company (including details of an ultimate holding where a Licence Holder has become a subsidiary); and
 - 16.8.3 Steps taken with a view to the Licence Holder going into bankruptcy, entering into composition or arrangement with creditors.
- 16.9 All audit reports (internal and external) must be submitted to the Director within 30 (thirty) days from the date on which the auditor finalised the audit.

16.10 The Department must be notified without delay in the case of the following:

16.10.1 any malfunction, breakdown of failure of equipment or techniques, accident or fugitive emission which has caused, is causing or may cause significant pollution;

16.10.2 the breach of conditions of this licence; and

16.10.3 any significant adverse environmental and health effects.

16.11 Prior written notification must be given to the Director of the following events and within the specified timeframes:

16.11.1 as soon as practicable prior to the permanent cessation of any operational activities;

16.11.2 full or partial resumption of the operation of all or part of the activities after a cessation notified under 16.11.1 above.

17 LEASING AND ALIENATION OF THE FACILITY

17.1 Should the Licence Holder want to alienate or lease the Facility, he/she must notify the Director in writing of such an intention at least 120 (one hundred and twenty) days prior to the said transaction. Should the approval be granted, the subsequent Licence Holder shall remain liable to compliance with all Licence conditions.

18 TRANSFER OF MANAGEMENT LICENCE

18.1 Should the Licence Holder want to transfer ownership of this Licence, he/she must apply in terms of Section 52 of the NEM:WA.

18.2 Any subsequent Licence Holder shall be bound by the conditions of this Licence.

18.3 The rights granted by this Licence are personal rights (i.e. not attached to a property, but granted to a natural or juristic person). As such, only the Licence Holder may undertake the activities authorised by the Licensing Authority. Permission to transfer the rights and obligations contained herein must be applied for in the following manner:

18.3.1 The applicant must submit an originally signed and dated application for an amendment of the Licence to the Licensing Authority stating that he/she wishes the rights and obligations contained herein to be transferred, and including:

18.3.1.1 confirmation that the Licence is still in force (i.e. that the validity period has not yet expired or the listed activities were lawfully commenced with);

18.3.1.2 the contact details of the person who will be the new Licence Holder;

18.3.1.3 the reasons for the transfer; and

18.3.1.4 an originally signed letter from the proposed new Licence Holder acknowledging the rights and obligations contained in the Licence and indicating that he/she has the ability to implement the mitigation and management measures and comply with the stipulated conditions.

18.3.2 The Licensing Authority will issue an amendment to the new Licence Holder either by way of a new Licence or an addendum to the existing Licence if the transfer is found to be appropriate.

19 COMMENCEMENT

19.1 The construction and rehabilitation activities of the licensed activity may not commence within 20 (twenty) days of the date of signature of the Licence.

19.2 Should the licence Holder be notified by the Licensing Authority of a suspension of the Licence pending any appeals decision on the authorised activities, he/she may not commence with the activities until authorised by the Director in writing.

19.3 After the 20 (twenty) day appeal period has expired and no good cause to extend the appeal period has been submitted, a written notice must be given to the Department that the activity will commence.

19.4 The decommissioning phase must commence by 29 August 2029. If commencement of the activity does not occur within that period, the validity of this Licence lapses and a new application for Licence must be made in order for the activity to be undertaken.

19.5 If the proponent anticipates that commencement of the activity would not occur by 29 August 2029, he/she must apply and show good cause for an extension of the commencement date in this Licence 6 (six) months prior to its expiry date.

20 GENERAL

20.1 This Licence shall not be construed as exempting the Licence Holder from compliance with the provisions of the Health Act, 2003 (Act No. 61 of 2003), the National Water Act, 1998 (Act No. 36 of 1998) or any applicable act, ordinance, regulation or by-law.

20.2 Transgression of any condition of this Licence could result in the suspension of the Licence by the Director.

20.3 This Licence is valid until 29 August 2029. The Licence may be reviewed at any time before the waste disposal airspace capacity is reached. Based on the results of the review, especially compliance to Licence conditions or recommendations from the audit reports and/or changing legislation, the Licence can be amended or withdrawn or the validity thereof be extended.

20.4 Should the Licence Holder want to conduct the waste management activity beyond the validity period, the Licence Holder must apply for a review 1 (one) year before the expiry date.

- 20.5 Non-compliance with a condition of this Licence may result in criminal prosecution or other actions provided for in section 67(1) of the NEM:WA.
- 20.6 In terms of sections 28 and 30 of the National Environmental Management Act (Act 107 of 1998), and sections 19 and 20 of the National Water Act, 1998 (Act No. 36 of 1998), any costs incurred to remedy environmental damage must be borne by the person responsible for the damage. It is therefore imperative that the Licence Holder reads through and understand the legislative requirements pertaining to the project. It is the Licence Holder's responsibility to take reasonable measures which include informing and educating contractors and employees about environmental risks of their work and training them to operate in an environmentally acceptable manner.
- 20.7 The Licence Holder must submit an Organic Waste Diversion Plan to the Director 90 (ninety) days after the date of issue of this Licence and annually (one a year) thereafter.
- 20.8 The information within the Organic Waste Diversion Plan must:
- 20.8.1 provide a status quo of current organic waste sources and volumes disposed at municipal WDFs, and current rates and procedures of organic waste diversion from WDFs; and
 - 20.8.2 set annual targets and identify procedures from 2018 that will be implemented to meet these targets for the diversion of organic waste from municipal WDFs, in order to reach a 50% diversion by the year 2022 and 100% diversion by the year 2027.

D. APPEAL OF LICENCE

- 1.1 Appeals must comply with the provisions contained in the National Appeal Regulations, 2014 (GN No. 993 of 2014), as amended.
- 1.2 An appellant (if the holder of the decision) must, within 20 (twenty) calendar days from the date that the notification of the decision was sent to the holder by the Competent Authority:
 - 1.2.1 Submit an appeal in accordance with Regulation 4 of the National Appeal Regulations 2014 (as amended) to the Appeal Administrator; and
 - 1.2.2 Submit a copy of the appeal to any registered I&APs, any Organ of State with interest in the matter and the decision-maker i.e. the Competent Authority that issued the decision.
- 1.3 An appellant (if NOT the holder of the decision) must, within 20 (twenty) calendar days from the date that the notification of the decision was sent to the registered I&APs by the holder:
 - 1.3.1 Submit an appeal in accordance with Regulation 4 of the National Appeal Regulations, 2014, as amended to the Appeal Administrator; and
 - 1.3.2 Submit a copy of the appeal to the holder of the decision, any registered I&AP, any Organ of State with interest in the matter and the decision-maker i.e. the Competent Authority that issued the decision.
- 1.4 The holder of the decision (if not the appellant), the decision-maker that issued the decision, the registered I&AP and the Organ of State must submit their responding statements, if any, to the appeal authority and the appellant within 20 (twenty) calendar days from the date of receipt of the appeal submission.
- 1.5 The appeal and the responding statement must be submitted to the address listed below:

ANNEXURE

A. REASONS FOR THE DECISION (APPEALABLE)

The reasons for the Licence decision, as well as factors affecting the broader development that were considered to ensure the effective implementation of this Licence, are explained below:

1. The subsequent non-substantive amendment was conducted in order to extend the commencement date for decommissioning of this Facility. This licence repeal the previous variation licence (Ref: 19/2/5/4/F2/10/WL0010/18).

B. REASONS FOR THE ORIGINAL DECISION TO ISSUE THE LICENCE (NOT APPEALABLE):

The reasons for the Licence decision, as well as factors affecting the broader development that were considered to ensure the effective implementation of this Licence, are listed below.

- (a) The information contained in the Application Form for a Waste Management dated 20 January 2014.
- (b) The Basic Assessment Report (BAR) dated 1 April 2014, compiled by AECOM (Pty) Ltd., including the Waste Management Licence Application Additional Information Annexure.
- (c) Comments raised by I&AP's throughout the Public Participation Process, the Applicant and the Environmental Assessment Practitioner's responses thereto;
- (d) Relevant information contained in the Departmental information base; and
- (e) The objectives and requirements of relevant legislation, policies and guidelines, including Section 2 of the NEMA, 1998 (Act No. 107 of 1998).

A summary of the issues, which, in the Department's view, were of the most significance, are set out below.

Environment

The Facility is used for the disposal of general waste, including domestic, garden and building waste. The Facility is not fenced and the surrounding land-uses in the area predominantly consists of agricultural and some informal settlements activities. The Facility itself was cleared of all vegetation when the Facility was established and therefore no natural vegetation remains on site and the Jakkals River (perennial river) is located a 100m South of the Facility.

Deviation

The applicant requested a deviation from Regulation 54(2) (a) to (d) of GN No. R. 543 of 18 June 2010 which would grant permission for deviation from listing the site alternatives as the Facility is already an existing WDF. The Department granted the requested deviation. .

Alternatives

The following alternatives were considered:

Site Alternatives

No site alternative have been assessed as the activity focuses on the closure of the existing Facility.

Activity Alternative

There are no direct activity alternatives as the process will involve the closure of the Facility.

Design Alternative

The project will entail the closure and rehabilitation of an existing waste disposal facility, where the approval of the Closure Report will determine the design.

Public Participation Process (PPP)

The PPP comprised of the following:

- (a) 40-day I&AP's Registration and public review and comment period on draft BAR (6 March 2014 to 15 April 2014);
- (b) Advertisements were placed in the "Cape Argus", in "Die Burger", "Die Son", "Swartland Gazette", "Theewaterskloof Gazette" and "Standard" on 12 to 18 January 2014 and 17 February 2014;
- (c) Fixing of notice board at the Lamberts Bay Waste Disposal Facility and at the Spar (Lamberts Bay) on 6 March 2014;
- (d) Notification sent to registered I&AP's via sms and email on 6 March 2014; and
- (e) Submission of the final BAR to the Department on 1 April 2014.

Authorities Consultation

- (a) Cape Nature;
- (b) Department of Water Affairs (DWA) regional office, Western Cape.

Comments and recommendations provided by the relevant authorities have been considered in the evaluation of this application. No authorities objected to the commencement of the activity. Where possible and relevant, the conditions imposed by Cape Nature and DWA have been included in the Waste Management Licence.
