

Our Climate is Changing

We all need to take action together

Climate Friendly Learning

REDUCE YOUR CARBON FOOTPRINT

Your carbon footprint is the sum of all direct and indirect **greenhouse gas emissions** caused by your lifestyle choices in a given time frame.

What more YOU, the Learner can do

Get cycling!

Cycling to school is not just great exercise, but can help you feel relaxed and make new friends.

Make your school a plastic bag free zone and avoid using plastic wrap in your school lunches.

Calculate

how much carbon you have saved by not using private or public transport.

Car pool, catch the bus or walk.

Plant plants!

They take up CO₂, and can provide food and shade.

Use water wisely for future generations.

Recycling is climate friendly and raises funds for your school

Western Cape Government

Environmental Affairs and Development Planning

BETTER TOGETHER.
