## *Felix and Felicity and the dragon kingdom*

Felix and Felicity landed on their next planet. Felicity said, "It look so..." "Cool," shouted Felix. It had trees the colour of orange, red, yellow and pink.

The rivers were the colour of misty days in winter.

The heard a noise behind them. Russle russle scratch! Then a creature appeared. "Hi, my name is Bella, I'm a cat dragon. I am the last of my kind roaming free." Bella was a misty dragon. She was there one minute and gone the next. "But where are the other dragons" asked Felix.

"You would have to go to Dimwiff the Dogal dragon's Castle with die Debils, there you will find they have captured all of my friends, family and other dragons. He wants us all, so he can take our powers. He wants to be the most powerful of us all." said Bella.

Just then they heard a loud deafening bark and then, "RUN!" Shouted Bella. Felix and Felicity ran and Bella flew over them. They go to the porthole but their spaceship was gone! Bella flew them around thi dragon kingdom to find all the parts to build a new spaceship. They built the new spaceship but then ..."growl...."

Dimwiff the Dogal dragon came, he had found Felix, Felicity and Bella as they were finishing up with their spaceship.

He ordered Bella to fight him if she wanted to go free. The battle commenced. Boom, Aag, Slash! Bella swiped with her tail and Dimwiff the dogal bit at her, but missed. Swipe! Crunch! Dimwiff got hit and he ran at Bella but she disappeared ... and SCRATCH! RIP! The battle stopped.

Bella had won. Dimwiff the Dogal was defeated. He frizzled up into a regular normal little dog.

Bella freed all her friends and family and they were finally safe.

Felix and Felicity went to their new improved spaceship.

"I wonder what our next adventure will be?" they said as they zoomed off.
