

01

Assessment and Evaluation

Assessment and evaluation of learners' understanding of the course material. They provide a way to gauge learners' knowledge and progress, helping teachers identify areas where additional support may be needed.

02

Immediate Feedback

Quizzes often offer immediate feedback to learners upon completion. Learners can receive instant information about their performance, which helps them identify their strengths and weaknesses.

03

Self-Paced Learning

Quizzes can be designed to allow learners to learn at their own pace. Learners can access quizzes at any time, providing flexibility in their study routine.

Why make use of the *LMS for Grade 12 revision?

GRADE 12 QUESTION AND ANSWER SERIES

wcedelern.westerncape.gov.za

04

Engagement and Motivation

The *LMS offers various question formats like multiple choice, true/false, matching columns, etc., making quizzes interactive and diverse.

05

Revision and Exam Preparation

Quizzes in the *LMS can be used as revision tools, allowing students to review and reinforce their learning. They can revisit previous quizzes or attempt new ones as a means of examination preparation.

06

Progress Tracking

The *LMS provides tracking features that allow learners to monitor their progress over time. Students can view their quiz scores, track their performance trends, and identify areas of improvement. Learner usage can be tracked per school and per district.
