STOP THE GUZZLERS.
SAVE ELECTRICITY AND WATER
AT WORK AND AT HOME.

- Switch off appliances and chargers if you are not using them.
- Collect water for reuse elsewhere in your home.
- Only wash full loads and reuse the grey water in your garden.
- Boil only as much water as you need.
- Only wash full loads and use a cold water setting.
- Be aware of water restrictions.

Invest in a solar water heater or geyser blanket and lower your geyser temperature to 60°C.

- Flush using recycled water and only when necessary.
- Catch overflow shower water in a bucket and use it to flush your toilet.
- Let the sunshine in during the day and close curtains and blinds to retain heat during the night.

- Take a 2-minute shower instead of a bath.
- Reduce excessive heating. Wear warmer clothes instead.
- Switch to longer lasting energy-saving LED light bulbs. Always switch off lights when you leave the room.

- Capture rain water for reuse in your home.
- Dry laundry using sunshine whenever possible. For rainy days, use drying racks indoors.
