**Subject:** Document from HRH Paramount Chief Aran  
**Attachments:** Final Proposal For Oude Molen Ecopark.pdf

Dear sir/ madame Honoured President, Deputy President, Premier, Mayor, government officials.

We are pleading with you and I also want to ask forgiveness for what I don't know what we, I did to you people but we see hatred from both governments not allowing us to live and own land as custodians of the land. And heritage ground being want to be taken from one more in Heritage month it is planned, are we such pests the so called coloureds that's why we are called Khoisan to by the German anthropologist studying animals called us Khoi-san people like animals.

Hope this email finds you well and in good health.

I hope you people will accept our email and consider us to be the custodians of South Africa and don't know what we have sinned to be depressed by both the Da and ANC government which was one government from the start of the so called democracy.

We want to then ask this governments to forgive us that we were born, what I said in the past I with draw it and I hope it can be forgiven as I can not say things and let our people suffer. Our suffering is bad in the Democratic apartheid than the Boere apartheid she how we are targeted, no housing, and Oude Molen eco Village is not the place for low cost housing as it will drop the prices of Pinelands houses and blacks are going to come put up hokkies on the wetlands as their king was kept prisoner here at Oude Molen eco Village our people burnt in a furnace refusing to be slaves they were burned alive, no jobs for us, no rights for us Khoi in our own country.

So please I am asking again please forgive us if we have sinned against you people in government if you refuse to forgive us, stop the mind games what you are taking us through is not human please then kill us all.

So I earnestly apply to both ANC and DA governments to forgive me and our people that we were ever born.

The depression of our people is continuing for our four hundred years and being the custodians of SA we are depressed all the time, if the DA and ANC hate us so much why don't you people wipe us out completely, put poison in our drinking water, if I am saying the wrong things again forgive me please once again.

What I have written above comes from my heart, we just want to ask you let us also have land please we would like to live in peace with the ANC and DA governments and hope they extend the same peace and freedom to us and to own land as the first nation people of Africa.

Please look at our counter proposal the one attached.

Hope to hear from the government in The Name of Ti Elotse with good news and hope you recognise us with the same rights as the Zulu having one Act for traditional eadership.

Kind regards
