Dear honorable President, Deputy President, Premier, Mayor and government agencies

Hope this email finds you well and in good health and we pray that Ti Elotse will change the mind of the honorable government officials that treat the !Xam people so bad we are crying out to our Father Ti Elotse to step in as we apologize if we did anything to deserve the treatment we are getting.

We have a counter proposal to the current proposal for the redevelopment of Oude Molen eco Village our Heritage site Oude Molen eco Village including the Two Rivers Urban park we presume president Ramaposa declared a heritage site. And we deserve to have our heritage protected and reserved in Heritage month heritage violations is busy taking place, what do we have to celebrate with the threats hanging over our heads.

Please see attached letter and we be sending another email with the proposal attached to the email.

We call for unity and peace in our country and our official recognition with the same rights as the Zulu and other indigenous and aboriginal peoples.

Kind regards
