**Subject:** Re: Oude Molen redevelopment project

We have a proposal we want to submit to to public works and City of Cape Town but doing amendments to it

Regards

Dear sir /madame

We of the Goringhaiqua Goringhaicona Kingdom council objects to the redevelopment as the Valk family gave the precinct to the department of Public Works to be custodian over the ground not ownership and the Goringhaiqua and Goringhaicona Kingdom council was here before the Valk family,

We are aware that the Zulu king was held hostage here and not only in the one building, please see in history the Arendse family which is royalty also known as Aran and family of Nelson Mandela was residing here and currently the HRH Khoebaha or Paramount chief Aran Goringhaiqua which became the Goringhaicona is residing at block B2 Oude Molen eco Village if we are going to be threaded with redevelopment we are forced to call all tribes together and stand up for our right,

It started 1652 and Amazon and City of Cape Town another 1652 doesn't respect us at all so we are going to see if we are going have another 1652 like the recent Amazon 1652 with out a fight and blood

Regards
