

# NOTICE OF RESUMPTION OF ROAD WORKS

## RECONSTRUCTION OF A SECTION OF THE N9 (5KM) BETWEEN GEORGE AND OUTDSHOORN

The Reconstruction of the N9 (5 km) between George and Oudtshoorn and Reseal of Waboomskraal Road (2 km) has resumed with effect from 06 January 2026. The works are expected to be completed by the end of March 2028.

A 24hr Stop/Go road closure will be in place during half-width construction from 12 January 2026. Motorists can expect a delay of up to 20 minutes at the closure.

\*Note: a 24-hour Stop-Go road closure does not mean a road is closed for 24 hours, but that the Stop/Go is in place around the clock - not only during certain times

The Western Cape Government is working hard to maintain our roads. Please drive carefully during this period of construction. Let us work together to ensure that our roads are safer, **FOR YOU.**

**Western Cape  
Government**

**FOR YOU**

Infrastructure

Traffic will be accommodated on the existing road with a signalled one-way traffic, 24 hour stop/go closure. It is a provision of the contract that traffic must be accommodated with the least delay and discomfort to the public as possible. Temporary full road closures (when blasting) will be communicated timeously. The safety and convenience of the travelling public are of the utmost importance and every effort will be made to ensure that all temporary road signs, cones, flag operators and speed controls are maintained and are effective. Courtesy shall be extended to the public at all times. The contractor is required to make use of approved methods to control the movement of equipment and vehicles so as not to constitute a hazard on public roads.

The public is requested to be patient and exercise caution when using these roads.

Any queries related to the above may be directed to the following parties:

Engineer's Representative (Zutari): 071 863 5420;  
Site Agent (Roadmac Surfacing Cape): 082 748 2115;  
Traffic Safety Officer (TSO): 083 778 7075.
