

# CAPE TOWN INTEGRATOR R300 RING ROAD

MAP OF THE  
PROJECT

## PROJECT SUMMARY

The extension of the R300 to the north is one of the phases that will ultimately create a ring road around the Cape Metro. This phase is focused on the section between De Bron Rd as the southern limit and Wellington Rd as the northern limit. SANRAL is responsible for the section between Stellenberg Interchange on the N1 up to the De Bron Rd limit. This phase will be constructed as a **6-lane freeway** with crossing structures at De Bron Rd, Legato Dr, Amadeus Dr and Wellington Road.

## PROJECT STATUS

The project is currently at the completion of Stage 3 Design Development. The Final BAR for the Environmental application has been submitted to the Western Cape Department of Environmental Affairs and Development Planning. Stage 4 Procurement will commence shortly.

## FINANCIAL NEEDS

Approximate value: R1,27 billion. Road infrastructure and other infrastructure developments are dependent on treasury funding and budgeting. The Western Cape Government also requires funding to maintain and expand on their infrastructure delivery, the value of which is declared in the annual budget. The economic contribution of such projects are significant.

## PRIVATE SECTOR OPPORTUNITY

The construction project will undergo a public tender process. During construction various opportunities will be made available to the public in the form of labour opportunities as well as material and plant provision. The entire project will therefore have private sector involvement.

## STAGE 3: DESIGN DEVELOPMENT

- Completion: June 2025
- Environmental Authorisation: October 2025

## STAGE 4: PROCUREMENT

- Procurement stage: start July 2025
- Appointment of Contractor: Feb 2026-May 2026

## STAGE 5: CONSTRUCTION

- Commencement: June 2026
- 42 Month Construction period
- Completion: December 2029

## IMPLEMENTATION AUTHORITY

Western Cape Government Department of  
Infrastructure: Transportation Infrastructure Branch

## ENGINEERING CONSULTANTS FOR THE PROJECT:

BVi Consulting Engineers, Western Cape

## Other:

SANRAL  
City of Cape Town
