INVENTORY MANAGEMENT REPORTING

Purpose

To solicit issues or queries in respect of the first phase of implementation with regards to Inventory Management.

Background

- In terms of Chapter 8, Disclosure Note 42, of the Departmental Financial Reporting Framework Guide for the year ending 31 March 2010, “departments are required to provide additional disclosure of inventory in a form of an annexure”.
- Entities that are not yet preparing and presenting their financial statements on an accrual basis, such as national and provincial departments, are not required to follow GRAP 12. However, these departments are moving from cash to accrual accounting and will phase in the requirements of GRAP 12 to facilitate inventory accounting.
- In order to achieve this, they must first obtain reliable values for inventory for the required annexures in the 2009/10 Annual Financial Statements (AFS) leading to full compliance with GRAP 12 for the 2012/13 financial year –end.
- The inventory management practices compel national and provincial departments to review all inventory management policies and practices for all inventory operations and compare actual practice with the requirements of the Inventory Management Framework.
- Draft policies and procedures must be documented as far as possible with a view to approving all the required policies and procedures by the end of 2010/11.
