# Introduction

In line with the requirements of section 217 of the South African Constitution, the Western Cape Government is committed to transparency in public procurement. In our continued commitment towards clean governance and transparency, the Provincial Treasury is pleased to publish the first edition of the Procurement Disclosure Report.

This report details all personal protective equipment (PPE) procurement and expenditure in the Western Cape from 1 April 2020 until 30 June 2020.

Going forward an automated report will be made available on the [Provincial Treasury website](#) on a monthly basis. The next report will be available on 31 August 2020.

# Background

This first edition of the Procurement Disclosure Report is a proactive initiative by the Provincial Treasury to provide the public, oversight bodies and other interested parties with useful information on public procurement activities related to the COVID-19 pandemic.

The initial focus of this report is on Personal Protective Equipment (PPE), but this will be incrementally expanded as additional information becomes available.

**National Treasury Instruction Note 1 of 2015 requires the publication of the following information in respect of contracts awarded:**

- Contract description;
- Bid number;
- Names of successful bidder(s);
- Preference points claimed;
- Contract Price(s),
- Contract period (if possible);
- Name of Directors; and
- Date of commencement.

**This Procurement Disclosure Report includes the following information sets:**

- PPE items procured by each Department, including associated costs;
- Unit cost;
- Total cost;
- Supplier(s) name;
- Total payment to supplier(s)

*This information is extracted from various procurement systems, except for term of contract and contract commencement date.*

**Bookmark this website link to access future reports: [www.westerncape.gov.za/provincial-treasury/procurement-disclosure-report](http://www.westerncape.gov.za/provincial-treasury/procurement-disclosure-report)**

# Objective

The purpose of the Procurement Disclosure Report is to ensure transparency on procurement within the Western Cape Government.

All interested parties and oversight bodies can now access procurement information through this report. It is a valuable source of information that supports the important work done by oversight bodies and will strengthen good governance within the Western Cape.

The Procurement Disclosure Report simplifies reporting by combining procurement data collected from various sources and eliminating duplication and discrepancies that result from lead and lag times of various systems in capturing procurement transactions. This report seeks to provide accurate, relevant, meaningful and credible information, presented in a user-friendly and accessible document.

# Reporting Methodology

The information in this report is drawn from various systems, including the Departmental Bids Awarded Registers; the LOGIS provisioning system, the ePS procurement system for quotations (now used for formal bids during the emergency dispensation), and the BAS payment and accounting system. This information is then matched and verified against the National Treasury's Central Supplier Database (CSD) and the Western Cape Supplier Evidence Bank, with respect to supplier information.

Supplier information is then correlated with government personnel information system (PERSAL) to ensure there is no conflict of interest for state employees doing business with the state. It is further validated against the National Treasury's register for tender defaulters.

# Report Glossary

- **Payment Quantity** – The number of items purchased
- **Last Unit of Measure** – Indicate the size, volume or composite quantity
- **Average Unit Price** – Average Cost per individual unit paid by the Department
- **Date of Applicable NT Price** – To cross reference National Treasury (NT) benchmark prices, this date must be used
- **Payment Amount** – Total amount that was paid to the supplier for a particular purchase

# National Treasury Benchmark Pricing

The National Treasury issued four different iterations of benchmark pricing for the disclosure period. Since different benchmark prices are applicable at different times, depending on the order date, this report only references the applicable benchmark date to enable the cross-referencing that may be required.

Access the National Treasury benchmark prices and related instruction notes here >>

						<b>R112,103,171.03</b>

\* A BAS/LOGIS reconciliation is required for this specific order in order to report on the unit cost and unit of measure. This information will be verified in the monthly reconciliation process with the department)

## Department of Health

The Department of Health's information is displayed differently given the fact that the procurement of Personal Protective Equipment is part of their normal procurement requirements. The COVID-19 pandemic has resulted in an increase in quantities required.

### PPE Expenditure per supplier:

Supplier Name	Payment amount
Medical Plant Africa	R48 283 280,00
Pepkor Trading	R35 319 012,15
