Introduction

The Provincial Treasury is pleased to publish the first **annual Procurement Disclosure Report (PDR)** for the **period 01 March 2020 to 31 March 2021**. This is in line with the requirements of section 217 of the South African Constitution and supports our continued commitment to good governance and transparency in public procurement in the Western Cape.

The purpose of this report is to provide a consolidated view of annual COVID-19 procurement expenditure since the start of the pandemic (1 March 2020) as well as for the financial year (period 1 April 2020 to 31 March 2021) for the Western Cape Government. The aim of this report is to provide beneficial insight into COVID-19 procurement expenditure over the consolidated period. The inclusion of information from March 2020, in addition to the 2020/21 financial year, has been made in order to provide readers with a full overview of COVID-19 related expenditure to date in the Western Cape.

Background

At the beginning of the COVID-19 pandemic, the Western Cape Government took a decision to make public all COVID-19 procurement in the interest of transparency and accountability in the PDR. This report seeks to provide accurate, relevant, meaningful, and credible information, presented in a user-friendly and accessible document that reflects our procurement spending for the period mentioned above. It also provides further context and insight on Western Cape Government procurement activities, processes and challenges experienced.

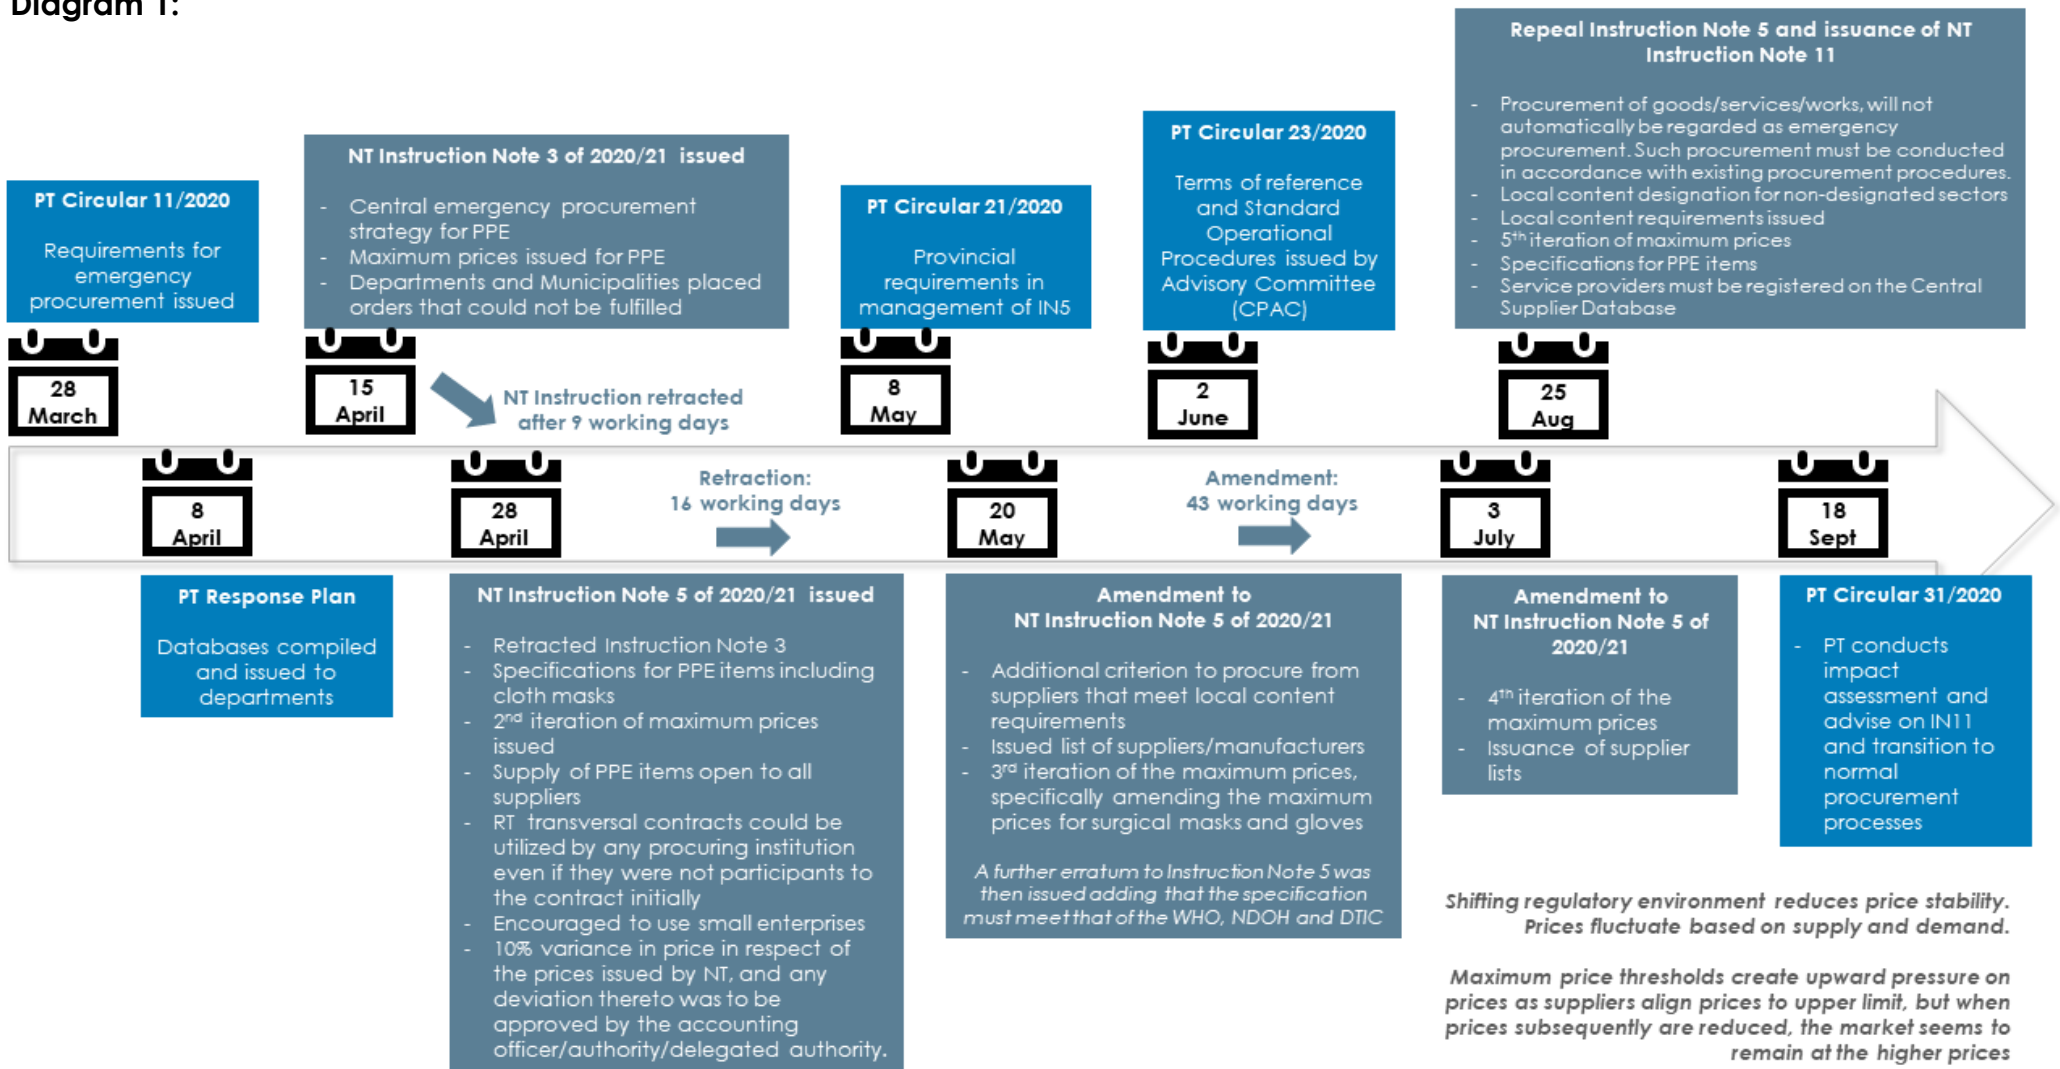

The first iteration of the PDR was issued on 28 July 2020 for the period 01 April 2020 to 30 June 2020, with subsequent versions being issued monthly, and a quarterly report published on 26 February 2021. The Provincial Treasury has sought to continuously refine and improve procurement disclosure reporting over the course of the period under review.

Monthly reporting on all COVID-19 procurement expenditure transactions is available via the National Treasury COVID-19 dashboard which is published on the Provincial Treasury website alongside all previous editions of the PDR: <https://www.westerncape.gov.za/provincial-treasury/procurement-disclosure-report>.

Please note that the information provided in this report is subject to **important disclaimers** that impact on the accuracy and reconciliation of, and of subsequent changes to, the data presented, which are outlined on page 209 at the end of the Procurement Disclosure Report.

Prescripts Applicable During the Period

Diagram 1:

Experiences and Lessons Learnt during the Pandemic

The first iteration of benchmark pricing was issued by National Treasury on 15 April 2020 with the latest iteration issued on 25 August 2020 (See diagram 1 above). This provided an inconsistent and unstable regulatory environment making it difficult to maintain consistency and standardisation on purchasing requirements throughout the period.

Supply and demand of Personal Protective Equipment (PPE) was affected at a global scale, resulting in prices fluctuating and significant price increases, driven by the scale of the sudden increase in global demand relative to available supply.

Supplier lists issued by the National Treasury were not maintained, creating difficulty in establishing available suppliers as well as compliant suppliers. Hence Western Cape Government Central Supplier Database (CSD) registered suppliers became the default position. PPE specifications issued by National Treasury assisted with compliance to applicable standards when purchasing PPE requirements in the Western Cape.

It must be noted that the maximum price thresholds of 15 April 2020 created upward pressure on prices as suppliers aligned prices to upper limits, however when prices were subsequently reduced, the market remained at the high price without making the downward adjustments in terms of the National Treasury benchmarks. In certain instances, a hike in prices was felt as is evident in the purchasing of thermometers in the Western Cape.

National Treasury transversal contract suppliers could not deliver to the demand of the Western Cape Government and departments had no option but to revert to product buyouts and contract extensions to maintain stock levels and to meet service delivery needs. A product buy-out is when a department buys all available stock that a supplier has available.

Local content criteria applicable during the disaster issued on 20 May 2020 also encumbered processes during the pandemic in terms of red tape required for certification and securing compliant suppliers for PPE, noting that PPE items and cloth masks were not in the norm purchased by departments nor were they previously designated for local content and production.

Current and Future Procurement Processes

For the period under review, the Western Cape Government departments relied on their existing procurement policies and the requirements of the Public Finance Management Act, 1999 (Act No. 29 of 1999) ("the PFMA"), the National Treasury Regulations, 2005 ("the NTRs") and Provincial Treasury Instructions, 2019 ("the PTIs").

National Treasury Instruction Note 11 issued on 25 August 2020 indicated that the procurement of all goods, services and works will not automatically be regarded as emergency procurement. This Instruction Note took effect from 1 October 2020. The following procurement methods have always been, and will continue to be, followed by accounting officers and authorities in the Western Cape Government:

Procurement Requirements for PPE and National Treasury Benchmark Pricing

The following requirements were applicable for PPE purchasing for the reporting period (please note that that these requirements were not all in place from the start of the COVID -19 disaster declaration but were issued at different intervals during lockdown via National Treasury Instructions:

COMPLIANCE WITH MINIMUM SPECIFICATION AS DETERMINED BY THE WHO; NDOH AND DTIC

PRICES EQUAL TO OR LOWER THAN NT BENCHMARK PRICES WITH 10% ALLOWABLE VARIANCE

REGISTRATION ON CENTRAL SUPPLIER DATABASE AND ANY OTHER DATABASE AS APPROVED BY NT

SUPPLIERS OF CLOTH MASKS REQUIRED REGISTRATION WITH THE DEPARTMENT OF SMALL BUSINESS DEVELOPMENT (28 APRIL - 20 MAY 2020)

COMPLIANCE WITH LOCAL CONTENT AND PRODUCTION FOR TEXTILE, CLOTHING, LEATHER AND FOOTWEAR SECTOR, WHERE APPLICABLE

The National Treasury, in addition issued Instruction Note 11 of 2020 which became applicable to the Province from 1 October 2020. The following requirements are applicable as stipulated in compliance to Instruction Note 11:

- All PPE procurement at a 100% threshold in terms of the local content and manufacture designation for clothing and textiles. Bidders not meeting the 100% local content and manufacture requirements will be deemed to be unresponsive to tender requirements;
- These requirements are to be included in bid advertisements when procuring PPE items;
- Normal exemption processes with the Department of Trade, Industry & Competition;
- 3 July 2020 benchmark pricing for PPE and fabric masks to be applied and negotiations with service providers where prices are higher with 10% allowable variance;
- Necessary approvals be obtained from the accounting officer, accounting authority or delegated person with justifiable reasons and confirmation that the prices are market related should it be more than the benchmark pricing; and
- Suppliers with exorbitant prices be reported.

Summary of COVID-19 Expenditure for 2020/21

Total COVID-19 Procurement Expenditure for the period 01 March 2020 to 31 March 2021 amounted to **R2.03 billion**.

Of the total expenditure **R2.021 billion** was spent by provincial departments and **R4.150 million** by provincial public entities

Of the total COVID-19 expenditure, **R1.524 billion (67.32%)** spent by provincial departments and **R3.47 million (83.53%)** spent by provincial public entities, benefitted Small Medium Micro Enterprises (SMMES)

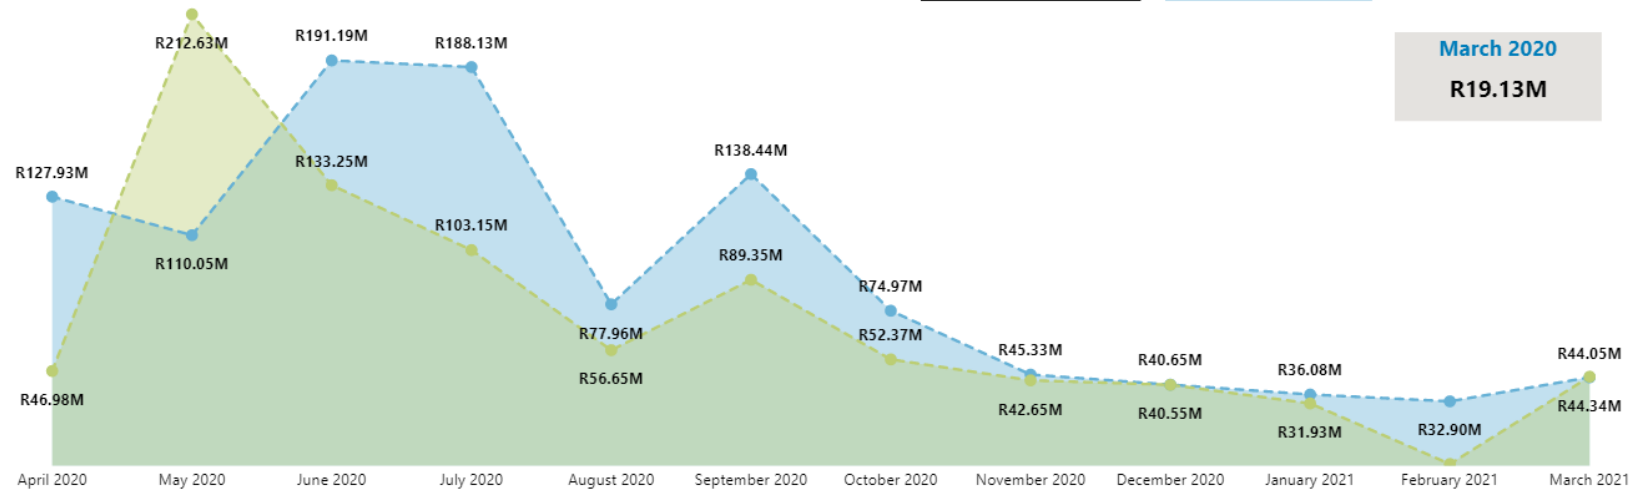

Note that the national target is that 30 % of procurement spending goes to SMMES via sub-contracting mechanisms. The Western Cape Government has through direct procurement spent 67.35% of its procurement expenditure for the financial year to SMMES exceeding the national target through direct procurement by approximately 37.35%

Disclaimers

- This information is unaudited at this stage and must still undergo a full internal and external audit processes. This means that some changes to the data will occur as transactions are reconciled and validated.
- This transactional information is secured as a data upload from various financial, non-financial, manual and electronic systems that must be manually reconciled. In some cases, this will impact on data correctness and integrity are prevalent. While all efforts have been made to ensure the correctness of the data, in cases where these are identified after publication then corrections will be issued.
- Transactional information is based on orders placed on a month-to-month basis. Therefore, this information:
 - does NOT translate to cumulative expenditure for the period.
 - does NOT reflect journalised entries and corrections done by procuring entities from an in-year-monitoring perspective, and does not include subsequent financial reconciliations or amendments made at this stage.
 - does NOT reconcile back to a contract as the current financial systems have not been configured to house this information and there is a National embargo on purchasing and development of financial systems due the National Treasury requirements as they relate to the Integrated Financial Management System(IFMS). So, transactions only reflect what has been transacted per supplier.

Way Forward

The Provincial Treasury hereby wishes to thank our provincial departments and provincial public entities for positively responding to the reporting requirements, despite various challenges as it relates to data extraction and consolidation from various systems and verification being largely a manual and labour intensive exercise. Collectively we have delivered on this groundbreaking initiative in ensuring transparency on procurement expenditure for COVID-19.

This initiative has allowed as valuable insights into introspectively review our procurement and to take the necessary strides to improve on reporting and procurement processes.

Monthly reporting on all COVID-19 procurement expenditure transactions is available via the National Treasury COVID-19 dashboard which is published on the Provincial Treasury website alongside all previous editions of the PDR: <https://www.westerncape.gov.za/provincial-treasury/procurement-disclosure-report>.
