WESTERN CAPE GOVERNMENT'S PROCUREMENT REQUIREMENTS IN RESPONSE TO THE DECLARATION OF A NATIONAL STATE OF DISASTER DUE TO THE CORONAVIRUS (COVID-19) PANDEMIC

1. PURPOSE

- 1.1 The purpose of this circular is to provide guidance to accounting officers/accounting authorities in respect of managing their procurement requirements in response to the Coronavirus (COVID-19) pandemic and its effects in South Africa ("the COVID-19 Disaster").

2. BACKGROUND

- 2.1 As of 15 March 2020, the COVID-19 has been classified as a Disaster in terms of Section 23 of the Disaster Management Act, 2002 (Act No. 57 of 2002) ("the DMA"). It has further been classified as a national state of disaster in terms of Section 27 of the DMA.
- 2.2 The National Executive is therefore primarily responsible for the co-ordination and management of the COVID-19 Disaster (pursuant to Section 26(1) of the DMA), and provincial organs of state must play a supportive role to the National Executive. Provincial support must be provided in close co-operation with the National Executive; undertaken in consultation with all relevant disaster management centres; and provided in accordance with any contingency plans, emergency procedures and disaster management plans that are applicable at a national, provincial and municipal level.
- 2.3 Given the above, the Provincial Treasury has taken immediate steps to provide guidance to provincial institutions on the existing measures available to ensure the timely, lawful and effective procurement of essential goods and/or services required to respond to the COVID-19 Disaster.

3. PROCUREMENT OF ESSENTIAL GOODS AND SERVICES REQUIRED TO RESPOND TO THE COVID-19 DISASTER

- 3.1 Provincial organs of state involved with the provision of disaster-related support in response to the COVID-19 Disaster need to:
 - 3.1.1 Ensure that they provide such support in co-operation and coordination with each other and any other existing structures, organisations and institutions mandated to provide support in relation to the disaster in question; and
 - 3.1.2 Optimise the collective skills and expertise of such organs of state and/or existing structures, organisations and institutions;

as the case may be, with particular linkages to the seven workgroups established in the Province for the COVID-19 Disaster, i.e. (1) Health, (2) Business/Economy/Tourism, (3) Education/Social, (4) Government Business Continuity & Advisory Services, (5) Transport and Logistics, (6) Safety and Security, and (7) Communication, which all fall under the co-ordination control of the Joint Operations Committee (JOC).

- 3.2 Each provincial organ of state legally mandated to provide disaster relief-related support must rely on its existing supply chain management policy, read with the applicable provisions of the Public Finance Management Act, 1999 (Act No. 29 of 1999) ("the PFMA"), the National Treasury Regulations, 2005 ("the NTRs") and Chapter 16A of the Provincial Treasury Instructions, 2019 ("the PTIs"), to procure any essential goods and/or services required for the provision of such support. In addition, the following procurement methods should be considered:
 - (i) Emergency procurement: a provincial organ of state may rely on its existing emergency procurement policy, read with Regulation 16A6.4 of the NTRs and paragraph 5.5.5 of Chapter 16A of the PTIs, to procure essential goods or services required for the provision of disaster-related support in emergency circumstances;
 - (ii) Procurement by way of limited bids: a provincial organ of state may rely on the limited bidding provisions contained in its accounting officer system and supply chain management policies, read with Regulation 16A6.4 of the NTRs and paragraph 5.5.4 of Chapter 16A of the PTIs, to procure essential goods or services required for the provision of disaster-related support; and

- (iii) Contracts procured by other organs of state: an accounting officer / accounting authority may rely on the provisions of Regulation 16A6.6 of the NTRs, read with paragraph 5.5.9 of the PTIs, to participate, on behalf of their respective provincial organs of state, in any contract arranged by any other organ of state if it has certified that the contract was secured through a procurement process that is fair, equitable, transparent, competitive and cost-effective and subject to the written approval of such other organ of state and the relevant contractors.

3.3 The PTIs also make provision for the arrangement of provincial transversal contracts (contracts used by more than one department) and for the Provincial Treasury to designate any other provincial department not specifically defined in the PTIs as a principal procuring department with the concurrence of the Provincial Minister responsible for Finance. For the purposes of procuring provincial transversal contracts to respond to the COVID-19 Disaster in the Province, these categories shall **apply** as follows, subject to the provincial mandates, corporate functions and budget appropriations of the provincial departments concerned. Emergency procurement procedures, limited bidding, contracts procured by other organs of state and existing contracts may be utilised for these transversal requirements:

Principal Procuring Department	Corporate functions	Transversal requirements for COVID-19
Provincial Treasury	Provision of goods or services where no single institution can be determined as the principal procuring institution for the provision of such goods or services.	To be defined as and when transversal contracting requirements become applicable.
Department of the Premier	Provision of corporate shared services in respect of people management, corporate assurance, legal services, corporate communication and information technology related goods or services where such provision has a financial or contractual impact on other institutions.	Defined as per Workgroup: Communication and/or defined as per Workgroup: Government Business Continuity & Advisory Services.
Department of Transport and Public Works	Provision of accommodation or transport requirements where such provision has a financial or contractual impact on other institutions.	Defined as per Workgroup: Transport and Logistics and/or as per Workgroup: Government Business Continuity and Advisory Services.
Any other provincial department designated by the Provincial Treasury, with the concurrence of the Provincial Minister responsible for Finance	Provision of goods or services not contemplated by the categories referred to above in this table where the provision of such goods or services has a financial or contractual impact on other institutions.	Defined as per Workgroup: Health [Principal Procuring Department: Department of Health] Defined as per Workgroup: Economy/Tourism/Business [Principal Procuring Department: Department of Economic Development and Tourism] Defined as per Workgroup: Education/Social [Principal Procuring Departments: Western Cape Education Department and Department of Social Development]

Principal Procuring Department	Corporate functions	Transversal requirements for COVID-19
		Defined as per the JOC [Principal Procuring Department: Department of Local Government] Defined as per Workgroup: Safety and Security [Principal Procuring Department: Department of Community Safety]

3.4 Attached is the NT circular dealing with emergency procurement related to the disaster and which is self-explanatory. It includes essential health related items that are on transversal contracts as well as a pricelist of items not on transversal contracts. Institutions may use the NT circular where their needs have not been addressed in accordance with the process identified under par 3.1 – 3.3. It must also be noted that most of the items on the NT lists relates to the Department of Health. It is advisable that institutions engage with the Department of Health where they wish to procure these items themselves.

3.5 The Provincial Treasury will provide further guidance on the above as and when required.

4. DATE OF COMMENCEMENT

The guidance and requirements included herein are applicable with immediate effect.

5. REQUEST

5.1 Accounting officers and accounting authorities are required to:

- a) document all processes and procedures followed for audit purposes;
- b) maintain a list of essential goods and services as well as all expenditure related to the COVID-19 crises; and
- c) ensure that the content of this Circular is brought to the attention of all relevant officials within their institution.

DAVID SAVAGE
HEAD OFFICIAL: PROVINCIAL TREASURY
DATE: 20 March 2020

DAVID MAYNIER
PROVINCIAL MINISTER OF FINANCE AND ECONOMIC OPPORTUNITIES
DATE: 23 March 2020

ANNEXURE A

ACCOUNTING AUTHORITIES OF ALL SCHEDULE 2 AND 3 PUBLIC ENTITIES

HEAD OFFICIALS OF PROVINCIAL TREASURIES

NATIONAL TREASURY INSTRUCTION NO. 08 OF 2019/2020:

EMERGENCY PROCUREMENT IN RESPONSE TO NATIONAL STATE OF DISASTER

1. PURPOSE

1.1 The purpose of this Instruction is to—

- 1.1.1. facilitate emergency procurement to deal with the COVID-19 pandemic which was declared a national state of disaster (the Disaster) on 15 March 2020; and
- 1.1.2. avoid the abuse of the supply chain management (SCM) system to deal with the Disaster.

2. BACKGROUND

- 2.1 On 15 March 2020, President Cyril Ramaphosa announced the declaration of a national state of disaster following the World Health Organisation declaring the COVID-19 outbreak as a pandemic as well as measures that must be implemented by the nation.
- 2.2 The Department of Public Service and Administration issued Circular 07 of 2020 that gives guidelines for the containment and management of the Corona Virus in the Public Service. Paragraph 2.6.19 of the said Circular reads as follows:

2.6.19. It is incumbent on departments to procure sufficient hand sanitisers, soap, gloves, masks, tissues and when possible temperature scanners for use to monitor employee's possible exposure in terms of the COVID-19 symptoms. The procurement of such equipment must be defrayed from departments existing budget allocations. Such screening must be done by personnel with the requisite expertise.

- 2.3 On 18 March 2020, regulations under the Disaster Management Act, 2002, were published in the *Gazette* regarding steps to prevent an escalation of the disaster or to alleviate, contain and minimise the effects of the Disaster. These regulations provide that institutions must comply with the Public Finance Management Act and the

applicable emergency provisions in the regulations and instructions issued under that Act.

- 2.4 Institutions will have to put in place additional measures to address the programme of preventing the spread of the COVID-19 virus and these measures will require that a procurement process is followed.
- 2.5 The nature of the goods that are required are not goods ordinarily procured and the high demand of these items by both the private and public sector may lead to uncompetitive and inflated prices.
- 2.6 To assist with the challenges that this pandemic will have on SCM operations, the National Treasury has put in place measures to assist the institutions to procure the basic preventative items to contain and manage the transmission of the COVID-19 virus.
- 2.7 This will ensure that the goods procured, comply with the specification as determined by the National Department of Health and at negotiated prices as agreed with suppliers.
- 2.8 National Treasury has engaged with Transversal Contract suppliers of these items and has put measures in place to ensure continuity of supplies and to keep the prices in check (**Annexure A: Table 1**).
- 2.9 For items that are not on Transversal Contracts, the OCPO has sought quotations on behalf of institutions from the suppliers (**Annexure A: Table 2**).
- 2.10 The list of items, suppliers and prices are attached as **Annexure A**. This Annexure may be updated from time to time during this period and it is advisable to frequently check for updates.

3. COVID-19 EMERGENCY PROCUREMENT PROCEDURES

- 3.1 The central facilitation of procurement negotiations for these items is crucial as it will assist in the following:
 - 3.1.1 Pre-negotiated prices based on economies of scale;
 - 3.1.2 Security of supply; and
 - 3.1.3 Prevent rogue and panic buying.
- 3.2 This Instruction applies to items and suppliers listed on **Annexure A**.
- 3.3 **Use of Transversal Contracts:**
 - 3.3.1 Items on **Annexure A: Table 1** are items on Transversal Contracts.
 - 3.3.2 Institutions that are already participants on these contracts may continue placing orders as usual.
 - 3.3.3 Where an institution is not a participant of the mentioned Transversal Contracts, the accounting officer or accounting authority may procure the listed items on **Annexure A: Table 1** from these contracts without obtaining participation approval from the National Treasury Transversal Contracting Unit.

3.4 **Items not on Transversal Contracts:**

- 3.4.1 Items on **Annexure A: Table 2** are items that are not on Transversal Contracts.
- 3.4.2 National Treasury have made alternative arrangements with the suppliers providing the items listed on Table 2.
- 3.4.3 Accounting officers and accounting authorities may place orders with the suppliers listed on Table 2 for the specific required items.

3.5 **Items not on Annexure A (Table 1 and 2)**

- 3.5.1 If an item is not listed on Annexure A, and is deemed to be a specific requirement for the Institution, the Emergency procurement prescripts may be followed:
 - i. Accounting officers of national and provincial departments and accounting authorities of national and provincial public entities may deviate for inviting competitive bidding in cases of emergency – paragraphs 8.1 and 8.2 of National Treasury SCM Instruction 3 of 2016/17. This does not require National Treasury's approval.
 - ii. In terms of paragraph 9.2 of the National Treasury Instruction SCM No. 3 of 2016/17, accounting officers and accounting authorities may expand contracts for goods up to 15% or R15 million. For expansions in excess, the relevant treasury must approve. For the purposes of this Instruction, the requirement of paragraph 9.2 of the said instruction is waived for procurement of items related to COVID-19.

3.6 **Reporting requirement**

All items procured in terms of paragraph 3.5 as emergency procurement related to COVID-19 must be reported to the relevant treasury within 30 days. The report to the relevant treasury must contain the following information:

- i. Description of item
- ii. Supplier name
- iii. Unit price
- iv. Quantity
- v. Total price
- vi. Saving achieved when compared to the prices listed on **Annexure A**
- vii. Motivation for deviating from the items listed in **Annexure A** (if applicable)

3.7 **General compliance measures**

- 3.7.1 Where more than one supplier is listed per item, institutions may procure from any suppliers that have stock available.
- 3.7.2 Where an institution or a provincial treasury already have a contract(s) in place for the same items listed in **Annexure A**, the institution must honour the contract and continue to procure from that contract.
- 3.7.3 Where these items are included in existing Facilities Management Contracts, Institutions may negotiate with the Facilities Management Service Provider to provide

these items. Contracts may be expanded or varied (refer paragraph 3.5(ii)), but only for items that will aid the prevention of the spread of the virus. Institutions must not pay prices in excess of the prices provided for in **Annexure A**.

- 3.7.4 If an institution experiences any challenge with ordering the required items listed in **Annexure A**, it must immediately communicate the challenge to National Treasury Transversal Contracting Unit to intervene.
- 3.7.5 National Treasury will issue a communication once the risk of depletion of supplies are established.
- 3.7.6 Institutions may approach any other supplier to obtain quotes and may procure from such suppliers on condition that-
 - i. the items are to the specifications as determined by the National Department of Health;
 - ii. the prices are equal or lower than the prices in **Annexure A**; and
 - iii. the supplier is registered in the Central Supplier Database.
- 3.7.7 Where Institutions already procured items, prior to the issue of this Instruction, under the Emergency Procurement procedures as stipulated in paragraphs 8.1 and 8.2 of National Treasury SCM Instruction 3 of 2016/17, such procurement must be reported within 10 days to the relevant treasury.

4. IMPACT ON PROCUREMENT PROCESSES

4.1 TENDER BRIEFING SESSIONS

- 4.1.1 Public Procurement is essential in preventing the spread of the virus and some processes within the procurement process are prone to interaction with various stakeholders, such as tender briefing sessions and public tender opening.
- 4.1.2 To ensure that service delivery is not negatively impacted and to complement the measures announced by the President, National Treasury advises that institutions must, as far as possible, avoid convening briefing sessions.
- 4.1.3 Briefing sessions should not be made compulsory or mandatory, unless otherwise approved by the accounting officer or accounting authority.
- 4.1.4 Bidders may be requested to send electronic mails for any enquiries related to the bid. The institution must specify the period within which the e-mail enquiries must be sent. The institution must respond to all enquiries related to the bid at least a week before the closing date of the bid. A schedule of the questions and answers must be uploaded on the institution's website and or any other measure to ensure that all bidders receive the information.
- 4.1.5 Institutions may extend the response period for bids beyond the required 21 days to accommodate the enquiry process, but not more than 40 days.
- 4.1.6 Where briefing session cannot be avoided, the session must be arranged in such a way that the number of attendees does not exceed 100 people per session, taking into

consideration the venue capacity and the guidelines issued around maintaining a safe distance between persons. This can be achieved by hosting more than one briefing session and implementing an RSVP process so that institutions can control the number of persons attending each session.

- 4.1.7 Institutions may also consider other means of conducting the briefing sessions such as podcasting, teleconferencing, Microsoft Teams, Zoom, and similar enablers.
- 4.1.8 In the case of bids that have already been advertised with a determined briefing date, the bid closing date and briefing session date may be extended to accommodate the logistical arrangements to effect the necessary health requirements as published. The revised dates must be republished on the eTender publication portal and the organ of state's website where possible.
- 4.1.9 Institutions must ensure that, in respect of all procurement activities, all precautionary measures issued by the Department of Health and other relevant authorities are strictly observed to prevent the spread of the COVID-19 virus.

4.2 PUBLIC OPENING OF TENDERS

Where there is a public bid opening, the institution must comply with the regulations made under the Disaster Management Act, 2002, published in the *Gazette* on 18 March 2020.

5. APPLICABILITY

This Instruction applies to all national and provincial departments, constitutional institutions and public entities listed in Schedules 2 and 3 to the Public Finance Management Act, 1999.

6. DISSEMINATION OF INFORMATION CONTAINED IN INSTRUCTION

- 6.1 Heads of provincial treasuries are requested to bring the contents of this Instruction to the attention of accounting officers and supply chain management officials of their respective provincial departments.
- 6.2 Accounting officers of national and provincial departments are requested to bring the contents of this Instruction to the attention of accounting authorities and the supply chain management officials of Schedule 3A and 3C public entities reporting to their respective executive authorities.
- 6.3 Accounting authorities of Schedule 2, 3B and 3D public entities are requested to bring the contents of this Instruction to the attention of the supply chain management officials of their public entities.

7. NOTIFICATION TO THE AUDITOR-GENERAL

A copy of this Instruction will be submitted to the Auditor-General for notification.

8. AUTHORITY FOR THIS CIRCULAR AND EFFECTIVE DATE

- 8.1 This Instruction is issued in terms of section 76(4)(c) and (g) of the Public Finance Management Act, 1999 and takes effect from the date of issue.
- 8.2 This Instruction will be in effect until the national state of disaster, declared on 15 March 2020, lapses or terminates or until this Instruction is withdrawn.

9. CONTACT INFORMATION

Any enquiries in respect of this instruction must be submitted to:
