2.3 Core operation functions and Support functions by occupational level

Job evaluation or grading systems, as illustrated in the EEA9, are used to measure a job in terms of content in order to establish its worth or value in relation to other jobs in an organization. The worth or value of a job is represented on a vertical axis as an occupational level. A job could either be a **Core operation** function or a **Support** function. **Core Operation Function** positions are those that directly relate to the core business of an organization and may lead to revenue generation, e.g. sales, production, etc. Whereas **Support Functions** positions provide infrastructure and other enabling conditions for revenue generation, e.g. human resources, corporate services, etc. Please indicate on table 2.3.1 the number of employees that are in **Core Operation Function** positions at each occupational level.

2.3.1 Please indicate the total number of employees (including people with disabilities), that are involved in **Core Operation Function** positions at each level in your organization. Note: A=Africans, C=Coloureds, I=Indians and W=Whites

10 Analysis

10.1 Please indicate in which categories of employment policy or practices barriers to employment equity were identified:

Categories	Yes	No	Please explain
Recruitment procedures	\checkmark		Ongoing departmental restructuring has prevented vacancies from being filled permanently. All designated candidates including those with disability to be targeted.
Advertising positions	V		There is a concern that advertisements are not explicit enough in emphasizing EE requirements and that the advertisements are not reaching sufficient designated persons.
Selection criteria			Criteria must be reassessed to ensure that they make allowance for EE and take potential and experience into account.
Appointments	V		Appointments have not always been made in a strategic and long-term view because of the need to meet operational requirements. Measures involving reasonable accommodation to be investigated. Operational requirements must take the requirements of the EE Plan into account
Job classification and grading			These are set nationally by DPSA; the Department cannot unilaterally effect any changes
Remuneration and benefits			Levels are set nationally.
Terms and conditions of employment			The filling of posts with contract workers is seen to create a barrier to filling posts permanently with designated persons.
Job assignments	V		There is no clear strategy to ensure that work assignments are rotated to ensure that capacity is developed and to provide opportunities for designated persons
Work environment and facilities			There is an absence of a reasonable accommodation strategy especially in respect of persons living with disability.
Training and development	V		There is a sense that career planning is absent and that it needs to provide particularly for the development of designated persons. Selection of courses is limited. Selected service providers must be accredited in order to ensure external recognition of learning.
Performance and evaluation systems		V	There is no link between performance and evaluation systems and progression and opportunities for designated persons. Performance evaluation at senior level does include measurement of EE achievements
Promotions		\checkmark	Staff movement occurs through the application process. This may entail moving into a more senior post, but promotion is not used generally as a stand-alone process
Transfers			Transfers are used where necessary in order to meet capacity demands but is not used as an ee measure
Demotions			Demotions are generally not applicable in the Department
Succession and experience planning	V		There is no clear strategy for succession planning that would accelerate the movement and development of designated persons. Insufficient growth opportunities are provided
Disciplinary measures			Disciplinary measures and standards are set nationally.
Dismissals			Dismissals (if any) occur in line with national procedure
Corporate culture	V		There is a feeling that racial tension causes exclusion and that language is used as a barrier. There is a lack of leadership drive and commitment with regard to the EE process. This is demotivating for line employees
HIV and AIDS education and prevention programmes			HIV and AIDS education programmes are being initiated
Other (please specify)

What were the factors that contributed to the accomplishment of the employment equity goals and objectives during the past year?

The EEA requires that the Department establish areas of under-representation of designated persons in its workforce and then take active measures to correct the under representation. The yardstick for measuring representivity in the Department is the demographic profile of the economically active population of the Western Cape. Targets have been set in line with this demographic.
