General Information

Introduction by the Accounting Officer

The main objectives of the Provincial Treasury for the 2006/07 financial year were on improving the provincial budget process, inclusive of better alignment with the national and local spheres, tightening up on supply chain and infrastructure management mechanisms, initiating a financial management improvement programme and furthering the implementation of the Municipal Finance Management Act (MFMA, Act 56 of 2003), amongst others by institutionalising the LG-MTEC engagements with municipalities.

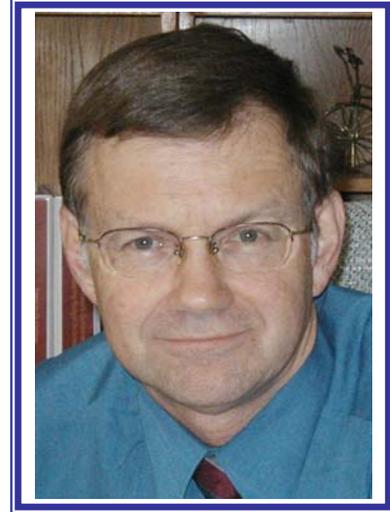

We stood up to the challenge in meeting our responsibilities as a change agent to achieve our two main targets as Treasury, i.e. better financial governance and improved levels of service delivery. These were achieved by the application of a range of instruments in both the provincial and local government spheres. The instruments used varied from meso to municipal-region specific economic analyses to improve Integrated Development Plans and ultimately budget responsiveness, hands-on support to municipalities as regards financial management matters to a range of steps emanating from analysis of audit findings (internal and external) and in year monitoring reports (financial and non-financial) to assist departments in improving their financial capability status. Part of this process involved strengthening the coordination mechanisms between the Treasury and the Departments of Local Government and Housing and that of the Premier, with the ultimate aim of improving overall governance within the geographical region of the Province.

It was a very challenging time as many vacant posts had to be filled to give effect to the aims of the restructured Treasury, although the vacancy rate continued to remain stubbornly high. A range of initiatives were introduced to improve management and leadership skills, a number of which will be carried forward into the new financial year. In addition, technical skills of both existing and new staff were developed further. A major change in the structure resulted from Provincial Cabinet approval that the Internal Audit component be substantially enlarged to progressively take over full responsibility from the outsourced service suppliers for internal audits within the Province.

It was a difficult task to receive a clean Audit Report for the previous reporting period and even more so to maintain and improve on this standard during this reporting period. However, much is still needed to take the Provincial Treasury to a higher level of performance in the years to follow.

Some of these challenges are briefly listed below:

- I already reported during the previous period that the co-ordination and alignment of activities within Programme 2: Resource Management needed further attention. This has commenced but further refinement and alignment will take place to better integrate and co-ordinate the components of this comprehensive and complex programme in the new financial year;
- Increase the pace and extent of implementation of the many asset management policy requirements and at the same time to provide adequate guidance to departments and local authorities;
- Deepen the provision of financial governance support and guidance to departments and municipalities with particular reference to Internal Audit, Accounting and Risk Management;
- Finding sufficient financial resources to appropriately fund the manifold needs and requirements of the Province and municipalities alike, especially as regards infrastructure;
- Strengthen and sophisticate the key support services, i.e. finance, human resource and document management services to the rest of Treasury, and
- Maintain a high level of service delivery in an environment where the turnover rate of staff is still unacceptably high and finding ways and means to effectively counter this.

The Ministry

Ms Lynne Brown became the Minister of Finance, Economic Development and Tourism on 5 May 2004. On 27 July 2005 the Minister's portfolio was amended with the shifting away of Economic Development, while the important Finance and Tourism portfolios remained with her. As Head of the Provincial Treasury her duties include charting the road for this organisation and membership of the influential National Budget Council and National Budget Forum, both chaired by the national Minister of Finance (Minister Trevor Manuel). Minister Brown is also the Executive member responsible for the Gambling Board.

Bills

The Bills that the Executive Authority submitted to the Western Cape Provincial Parliament during the financial year under review are the following:

- Western Cape First Finance Bill, 2004
- Western Cape Provincial Youth Commission Bill, 2004
- Western Cape Investment and Trade Promotion Agency Law Amendment Bill, 2004
- Provincial Development Council Law Amendment Bill, 2004
- Western Cape Adjustments Appropriation Bill, 2004
- Western Cape Land Use Planning Ordinance, 1985, Amendment Bill
- Western Cape Appropriation Bill, 2004

Visit abroad

During the 2006/07 financial year Minister Brown attended the World Travel Market (WTM) in the United Kingdom (London) from 4 November 2006 to 8 November 2006. The purpose of the visit was to market the Province to an international audience, as the WTM is one of the world's biggest conventions of tourism operators. From 8 November 2006 to 17 November 2006 she was part of the WC Premiers' India - Dubai delegation.

VISION

As a change agent to achieve maximum well-being

MISSION

To obtain financial and supportive means and utilise them to the optimum advantage of the whole community.

DEPARTMENTAL ETHOS

- To give effect to the Public Service Code of Conduct;
- To be of service;
- To empower people;
- To be an employment equity employer; and
- To be aware of, and to cultivate respect for our country's heterogeneity.

Legislative and other mandates

The legislative mandate within which the Provincial Treasury operates, consist of the following mix of national and provincial legislation:

- **Annual Division of Revenue Act**
To provide for the equitable division of revenue raised nationally, inclusive of conditional grants, amongst the three spheres of government and matters incidental thereto.
- **Basic Conditions of Employment Act, 1997 (Act 75 of 1997)**
To provide regulatory prescripts, in addition to the Public Service Act, 1994 and the Public Service Regulations, 2001, regarding the conditions of employment of staff in the Treasury.
- **Borrowing Powers of Provincial Government Act, 1996 (Act 48 of 1996)**
To provide norms and conditions which the Treasury must adhere to in negotiating loans for the Provincial Government.
- **Employment Equity Act, 1998 (Act 55 of 1998)**
To regulate the processes and procedures of the Treasury in achieving a diverse and competent workforce broadly representative of the demographics of the Western Cape and eliminating unfair discrimination in employment towards implementing employment equity.
- **Intergovernmental Fiscal Relations Act, 1997 (Act 97 of 1997)**
To define the role of the Minister of Finance and Economic Development and that of the Treasury as representatives of the Provincial Government, in promoting co-operation between other spheres of government on fiscal, budgetary and financial matters; to provide insight into the prescribed processes for the determination of the equitable share and allocation of revenue raised nationally and for matters in connection therewith.
- **Labour Relations Act, 1995 (Act 66 of 1995)**
To regulate and guide the Treasury in recognising and fulfilling its role in effecting labour harmony and the democratisation of the workplace.
- **Local Government: Municipal Finance Management Act, 2003 (Act 56 of 2003) (MFMA)**
To regulate financial management in the local sphere of government; to require that all revenue, expenditure, assets and liabilities of municipalities and municipal entities are managed economically, efficiently and effectively; to determine the responsibilities of persons entrusted with municipal borrowing; to make provision for the handling of financial emergencies in municipalities; and to provide for matters connected therewith.
- **Occupational Health and Safety Act, 1993 (Act 85 of 1993)**
To provide for the health and safety of persons at work and for the health and safety of persons in connection with the use of plant and machinery; the protection of persons other than persons at work against hazards to health and safety arising out of or in connection with the activities of person at work; to establish an advisory council for occupational health and safety; and to provide for matters connected therewith.
- **Preferential Procurement Policy Framework Act, 2000 (Act 5 of 2000)**
To provide the Treasury with a regulatory framework enabling and assisting departments and potential historically disadvantaged individuals (HDIs) in the sustainable development and implementation of a preferential procurement system.

- **Promotion of Access to Information Act, 2000 (Act 2 of 2000)**
 To give effect to the constitutional right of access to any information held by the State and any information that is held by another person and that is required for the exercise or protection of any rights; and to provide for matters connected therewith.
- **Promotion of Administrative Justice Act, 2000 (Act 3 of 2000)**
 To give effect to the right to administrative action that is lawful, reasonable and procedurally fair and to the right to request written reasons for administrative action as contemplated in section 33 of the Constitution of the Republic of South Africa, 1996; and to provide for matters incidental thereto.
- **Provincial Tax Regulation Process Act, 2001 (Act 53 of 2001)**
 To regulate the intergovernmental process that must be followed by provinces in the exercise of their power in terms of section 228 of the Constitution to impose taxes, levies and duties, and flat-rate surcharges on the tax bases of any tax, levy or duty imposed by national legislation; and to provide for matters connected therewith.
- **Public Finance Management Act, 1999 (Act 1 of 1999) (PFMA)**
 To regulate financial management in the Treasury to ensure that all revenue, expenditure, assets and liabilities of the Treasury are managed efficiently and effectively; to provide for the responsibilities of persons entrusted with financial management in the Treasury and to provide for matters connected therewith. In addition, to describe the powers and functions of Treasuries and to direct their responsibilities with respect to other departments and public entities.
- **Public Service Act, 1994 (Act 103 of 1994)**
 To provide for the organisation and administration of the Treasury and for human resource management which includes the regulation of conditions of employment, terms of office, discipline, retirement and discharge of staff members of the Treasury and matters connected therewith.
- **Skills Development Act, 1998 (Act 97 of 1998)**
 To provide an institutional framework to devise and implement national, sector and workplace strategies to develop and improve the skills of the South African workforce; to integrate those strategies within the National Qualification Framework contemplated in the South African Qualification Authority Act, 1995; to provide for learnerships that lead to recognised occupational qualifications; to provide for the financing of skills development by means of a levy-grant scheme and a National Skills Fund; to provide for and regulate employment services; and to provide for matters connected therewith.
- **Skills Development Levy Act, 1999 (Act 9 of 1999)**
 To provide for the imposition of a skills development levy; and for matters connected therewith.
- **Western Cape Direct Charges Act, 2000 (Act 6 of 2000)**
 To provide for the withdrawal of State moneys from the Western Cape Provincial Revenue Fund, as a direct charge, in accordance with the Constitution of the Republic of South Africa, 1999 (Act 108 of 1996), the Constitution of the Western Cape, 1997 (Act 1 of 1998) and the Public Finance Management Act, 1999 (Act 1 of 1999), and for matters incidental thereof.

- **Western Cape Gambling and Racing Law, 1996 (Law 4 of 1996)**
To provide regulatory prescripts to support the responsible Minister in ensuring sound financial administration and management and matters incidental thereto by the Western Cape Gambling and Racing Board.
- **Western Cape Law on the Powers and Privileges of the Provincial Legislature Amendment Act, 1998 (Law 3 of 1998)**
To provide the Treasury with regulatory prescripts in assisting the Legislature when necessary, in meeting their financial responsibilities as set out in legislation.
- **Western Cape Provincial Tender Board Law, 1994 (Law 8 of 1994)**
Although this Law has been revoked, a number of period contracts concluded under this Law and its regulations, are still valid and have to be administered in terms of this legislation.

The Provincial Treasury is responsible for the following public entity:

□ **Western Cape Gambling and Racing Board**

The Board has been established in terms of the **Western Cape Gambling and Racing Law, 1996 (Law 4 of 1996), that purports to provide a** regulatory framework for good financial, gaming and betting management by the Western Cape Gambling and Racing Board. The Board has to control all gambling, racing and activities incidental thereto in the Province, subject to any applicable policy determinations of the Provincial Cabinet. The Board's functions and responsibilities are fully captured under section 12 of the Western Cape Gambling and Racing Law, 1996.

Accountability on executive authority level for the gambling portfolio is vested in Minister Brown. The Western Cape Gambling and Racing Board itself acts as the accounting authority, but has delegated powers to the Chief Executive Officer of the Board. In general, accountability arrangements for all the relevant functionaries are in accordance with the Public Finance Management Act, 1999 (Act 1 of 1999).

- **Programme 4: Financial Governance**
To enhance performance orientated financial management.

1.4. Key strategic objectives and achievements

1.4.1 Key strategic objectives

The Provincial Treasury set itself the following key strategic objectives, which were published in the Five Year Strategic and Performance Plan 2005/06 – 2009/10 tabled in the Provincial Parliament at the end of March 2005. These strategic objectives underwent minor changes in the second Annual Performance Plan 2006/07 – 2008/09 that was again tabled in the Provincial Parliament at the end of March 2006. They are listed per programme below:

Programme 1: Administration

- Ensure the rendering of secretarial, administrative and office support services.
- Assist with tourism functions vested under the Minister.
- Ensure an efficient public profile for the Minister.
- Enable the Minister to realise her executive responsibilities.
- A well functioning and co-ordinated institution that delivers on its responsibilities.
- Attract and acquire the desired employee profile.
- Develop and maintain a learning organisation in order to produce a competent workforce.

- Develop appropriate interventions to transform the culture of Provincial Treasury to create an environment of optimum employee performance in relation to Treasury's strategic objectives.
- Refining work systems for the optimal delivery of all Transactional Human resource management.
- Good budget management to remain within prescribed budget limits.
- Timely and accurate reflection of the status of Provincial Treasury's ledger accounts.
- Good supply chain management services.
- Proper internal control measures and risk management in the Provincial Treasury.
- Determine and maintain good administrative standards.

Programme 2: Sustainable Resource Management

- Render administrative support service to ensure the effective operational management of the unit.
- Capacitate and train administrative support and line function staff.
- Support and promote BBBEE initiative through administrative functions.
- Describe the Western Cape economy by determining and analysing key provincial and, where possible, district economic variables and their interrelation.
- Determine the sources, potential and constraints for enhanced growth and development in the Western Cape, as framed within iKapa Elihlumayo.
- Assess the impact of various budget (municipal and provincial) policy objectives on selected economic variables, providing a link between the macro, meso and municipal spheres.
- Provide technical assistance and training in the application of macroeconomic analysis.
- Disseminate information to other government and external key stakeholders in the provincial economy and labour market to foster understanding of economic variables and promote steps to enhance economic growth and reduce inequalities.
- Administer a medium-term revenue planning process.
- Analyse and optimise national transfers in line with the evolving intergovernmental architecture and in support of accelerated and shared growth.
- Analyse and optimise provincial own sourced revenue.
- Expansion of provincial own sourced revenue options.
- Evaluate and develop provincial financing instruments.
- Administer gambling and racing matters.
- Determine an overall financing envelope for municipalities over MTEF.
- Assess viability of municipal revenue budgets.
- Analyse and optimise local government own revenue base.
- Analyse and optimise local government debtors.
- Analyse and provide advice on municipal long-term debt.
- Analyse and provide policy advice with regard to tariffs, debtor and credit control, and property rates.

- Provide technical assistance and training.
- Co-ordinate and guide the process to determine provincial priorities and recommend financial resource allocation, which effectively contribute to, accelerated and shared economic growth in the province.
- Promote overall strategic goals of Treasury to understand line departments' core business, functions, and progress.
- Fulfil role of the Provincial Treasury as prescribed by the MFMA, with regard to the review of municipal budgets and IDP's and oversight of the municipal budget process.
- Provide policy advice, effective technical and strategic support and a change agent service to provincial departments, municipalities, and co-ordinating role within Treasury.
- Improve input-output sequencing of information and the quality of the latter within the budget processes.
- Develop the effectiveness of in-year expenditure monitoring systems towards monitoring financial and non-financial performance indicators.
- Strengthen the institutional capacity, inclusive of professionalism, skills, knowledge, motivation, attitudes, integration, and values.
- Develop intra Provincial Treasury, intra provincial; inter provincial and government co-ordinating structures and systems.
- Deepen the analysis of budget votes, i.e. in content and profile.
- Facilitate the optimal vesting of functions between the provincial and local spheres of government.

Programme 3: Asset and Liabilities Management

- Render administrative support services to ensure the effective operational management of the programme.
- Capacitate and train administrative support to fulfil line function responsibilities.
- Support and promote BBBEE initiatives through administrative functions.
- Ensure effective control and management of the Provincial Revenue Fund.
- Render effective technical, strategic support and training to provincial departments and local government where applicable.
- Compliance with the PFMA, MFMA, accounting policies, regulations and guidelines.
- Ensure that departments/municipalities embrace SCM as a strategic directive that delivers continual cost and value improvements resulting in effective future planning, mitigation of risk in SCM, leveraged buying power and a smoother acquisition process.
- Provide strategic leadership and guidance in strategic sourcing for the procuring of goods and services in Provincial Departments.
- Ensure the strategic use of available technology tools to improve knowledge base and operations.
- The development of a supplier network through value added partnerships and the promotion of BEE.
- The development of a balanced, centre led SCM management system that maximises departmental-wide leverage.
- Establish Infrastructure Programme Management Units (IPMU's).

- Strengthen and render effective technical and strategic support to departments, public entities, municipalities and municipal entities.
- Provide strategic leadership and guidance in immovable assets.
- Build the necessary capacity in the Provincial Treasury to take over all PPP assessment related responsibilities from the National Treasury.
- Assess PPP projects in progress; monitor and enforce compliance with legislation.
- Facilitate and provide developmental technical assistance and support to departments on all PPP projects in progress.
- Establish and ensure implementation of policies for effective management of assets and liabilities.
- Strengthen and provide technical and strategic support for the institutional capacity of provincial and local government.
- Monitor compliance with the PFMA, MFMA and regulations.
- Establishment of the necessary structures to service loans and guarantees.
- Provide for the management and implementation of existing financial systems and eventual transition to the IFMS, ensuring compliance with the PFMA and other relevant legislation.
- Monitor and report on financial management system's performance.
- Render effective technical, strategic support and training to departments.
- Monitor and verify monthly SITA costs relating to transversal financial systems ensuring optimal management of cost drivers.

Programme 4: Financial Governance

- Render administrative support services to ensure the effective operational management of the unit.
- Capacitate and train administrative support and line function staff.
- Support and promote BBBEE initiatives through administrative functions.
- Ensure the development of accounting practices that will promote effective and efficient capturing of REAL movements/accountability.
- Ensure integrity of financial data.
- Co-ordinate and perform an oversight function of trading entities in terms of the PFMA requirements.
- Identify, develop and implement financial norms and standards and monitor and assist with nominal and substantive compliance by municipalities and departments respectively in terms of the MFMA and PFMA.
- Ensure the existence of an appropriate and dynamic financial legislative framework.
- Co-ordinate and perform an oversight function of provincial public entities in terms of the PFMA requirements.
- Develop and facilitate the implementation of effective risk management and governance capacity within the Provincial Government.
- Consolidate inherent risk assessments, build a risk profile for the Provincial Government as a whole and ensure the development of response strategies to mitigate transversal risks.
- Render an effective risk based internal audit (IA) service.

- Ensure fully functional audit committees.
- Promote close co-operation and co-ordination between assurance providers to prevent duplication of effort.

1.4.2 Programmes

On a programme level, the following areas of achievements can be highlighted:

Programme One: (Administration)

For the second consecutive year the Provincial Treasury, notwithstanding a high vacancy rate, still attained the goal of spending within 1 per cent of its adjusted budget on 31 March 2007. This was achieved by the collective efforts of all the senior managers without compromising service delivery. The 2007/08 to 2009/10 APP was also compiled with the assistance of AFReC (an outside service provider linked to the University of Cape Town) to assist us in the revision of measurable objectives and performance measure indicators for the department. This process was necessary to ensure that future performance planning and quarterly reporting are more measurable and realistic and enhanced alignment of processes. The department advertised vacant posts nationally in an attempt to secure a wider spread of applicants, which resulted in the vacancy rate declining from 32% to fewer than 20%. The Office of the Minister appointed a Media Liaison Officer (MLO) in the year under review.

Programme Two: (Sustainable Resource Management)

Great strides were made in the newly established local government financial landscape. Amongst others, it included greater interaction and improved intergovernmental relations with municipalities in an effort to firstly, understand the business of municipalities and secondly to smoothen the implementation of the MFMA in municipalities. While a great deal of focus was placed on municipalities, the thirteen departments within the Provincial Government received the same level of attention as in previous years in terms of the PFMA. During the reporting period additional staff members with scarce skills were appointed.

The estimates of provincial expenditure were tabled on 6 March 2007 and provide a detailed account of the provincial government's service delivery commitment and key policy developments for the 2007/08 MTEF period.

Programme Three: (Asset and Liabilities Management)

For the 2006/07 financial year, the focus was on performing SCM assessments in provincial departments, engaging municipalities on the implementation of SCM, developing Provincial Treasury Instructions, facilitating the arrangements of transversal contracts, and implementing asset management requirements within the Province. The programme was also responsible for the implementation of the new framework "toolkit" for infrastructure best practices. It also engaged Public Works on specific areas on Property Management to be monitored by Provincial Treasury. A new bank tender was awarded on 15 December 2006 with effect from 1 April 2007. The management and control of Supporting and Interlinked Financial Systems were also improved in all the departments that lead to less downtime and a higher level of customer satisfaction within departments.

Programme Four: (Financial Governance)

Cabinet approved departmental risk management units and staff was appointed after a recruitment drive. The units have been trained in basic risk management tools and techniques. A co-sourced internal audit service was provided to all provincial departments (including Provincial Parliament). The Internal Audit function underwent an external quality assessment review by the Institute of Internal Auditors. The Financial Governance Review and Outlook 2005 was published and the Consolidated Annual Financial Statements for the Province were compiled and submitted to Cabinet within the prescribed timeframe.

1.4.3 Summary of Achievements

The restructuring process in Provincial Treasury continued in 2006/07 with the expansion of Programme 2: Sustainable Resource Management from five to eight sub-programmes and Programme 3: Asset and Liabilities Management from four to six sub-programmes to enhance accountability and improve reporting. Many posts were filled within the new organogram and specific focus was placed on attaining employment equity without compromising service delivery. The challenge remains to address the high staff turnover rate as new appointees do not stay very long within the Provincial Treasury before seeking greener pastures elsewhere. This places tremendous pressure on management to attain set targets and thus affects service delivery.

On a more positive side, incentives were provided to the staff to improve their educational levels and training was regarded as a priority area, which was facilitated by means of a bursary scheme. Concurrent with the effort to improve the skills development levels of the staff within the Provincial Treasury, greater focus was also placed on open communication processes within and across all components.

The department published the first Socio-Economic Profiles of Local Government (SEP-LG) in 2006. This publication has proved to be a major success with immediate impact as it highlighted areas that needed urgent attention for improved quality of life. The department of Education has acted on the findings of SEP-LG and are working closely with municipalities, FETs and Provincial Treasury to address issues of access in education, relevance of the FETs curriculum to support district economies and the skills mismatch. The publications (PER&O and SEP-LG) have increased the visibility of Provincial Treasury, receiving requests from agencies such as the German Development Institute, Moody's Investor Services, international investors and the private sector. The other prominent documents were the MTBPS 2007, Service Delivery Review and the PER&O 2007. The MTBPS 2007 laid out a fiscal policy perspective for 2007 that emphasised the aspect of accelerated and shared growth. In more concrete terms this boiled down to sustained infrastructure investment, further allocations for the social and economic sectors and a boost for the expanded public works programme.

The departmental Risk Management units were approved followed by a recruitment drive, and all departmental risk management units were trained in basic risk management tools and techniques.

1.5 Overview of the service delivery environment for 2006/07

The Provincial Treasury does not render services directly to the public, but to provincial departments and municipalities as assigned by the PFMA and MFMA respectively. Nonetheless, the environment in which it operates is very much competitive and forever changing. The skills and expertise needed are distinctive and in short supply, resulting in the department being in direct competition with the private sector and other spheres of government for the scarce skills. It is with this in mind that the Provincial Treasury developed and implemented an external graduate programme to offer final year students the opportunity to gain valuable work experience and thus increase the skills pool.

The National Government generally and the Provincial Government in particular are confronted with the need to effectively and efficiently spend its limited budget on improvement of services to the people. The Western Cape has been committed to a service delivery environment imbued with the spirit of the iKapa Elihlumayo eight lead strategies. Provincial Treasury put forward the idea of developing a survey to measure opinions and develop a benchmark for attitudes on service delivery in the Province. The survey will look at how people perceive their socio-economic conditions and what they see as the most important socio-economic challenges for government.

In spite of all the initiatives regarding the new fiscal arrangements launched since the advent of our nascent new democracy, a great deal still remains to be done to improve per capita income levels, economic disparities, general fiscal management and a range of socio-economic circumstances. The challenges of Provincial Growth and Development Strategies (PGDS) still remains, and new initiatives must be developed to effect significant improvements over the medium to long-term.

As change agent in resource allocation, ensuring efficacy of spending and general fiscal discipline, treasuries collectively and individually deal with significant challenges to improve the general welfare within their respective provinces. This challenge was also true for the Western Cape in 2006/07.

The Provincial Treasury also intensified the focus on Local Government in terms of MFMA, 2003 (Act 56 of 2003). In addition the Provincial Treasury has taken up its MFMA roles and responsibilities and assisted in the promotion of sound and sustainable management of the financial affairs of municipalities.

1.6 Overview of the organisational environment for 2006/07

The approved organisational structure was further expanded for the year under review to enable the Provincial Treasury to better fulfil its Constitutional mandate, which is to address the socio-economic challenges of the Province in tandem with all other departments, municipalities and other stakeholders. In pursuit of achieving the high level goals that were set for the Provincial Treasury, it will always be important to appoint new staff of the right calibre who can make the necessary contributions as required. As already indicated, unfortunately many new appointees and some key Senior Management personnel, including the HR manager, left the service of the Provincial Government for greener pastures. This placed immense pressure on the current staff to deliver on the objectives the department committed to, especially on the MFMA responsibilities.

1.7 Strategic overview and key policy developments for the 2006/07 financial year

Relevant policy developments are described under the following sub-headings:

Shift towards outcome based budget allocation

The Provincial Treasury further commenced with the assessment of provincial departments' and municipal measurable information to ensure alignment of their strategic objectives towards the desired outcomes of the Province.

Qualitative impact of provincial service delivery

As in the past the qualitative impact of provincial service delivery on provincial socio-economic variables have not been assessed. However, during the year under review certain analytical instruments were designed to assist with such assessments.

Extended asset management functions

The procurement and provisioning functions have been integrated and as part of the restructuring of the Provincial Treasury, a Supply Chain Management component was established for monitoring, setting standards and best practice policies with regard to procurement, physical asset management, public private partnerships and related issues. Physical Asset Management and Public Private Partnerships (PPP's) are still relatively new components within the Provincial Treasury environment and most work performed is still of a developmental nature to establish a basis from which to develop policies, standards and practices. As soon as the National Treasury Regulations have been amended, certain new powers regarding PPP's will be vested in provincial treasuries that will give them larger responsibilities for the future and more progress to report back on.

Financial Management Improvement Plan

The Financial Governance Component has focussed on financial management issues raised by Auditor-General in the 2005/06 financial year. This has necessitated the implementation of a financial management improvement plan for departments and entities. The purpose of the plan is to identify transversal issues raised by the Auditor-General that require remedial steps either by the relevant entity or Provincial Treasury or a combination of both.

The outcome of the plan is to raise the financial management capability of the Province to a level 4 as set by the Auditor-General by the end of the 2007/08 financial year.

1.8 Departmental revenue

This section deals with the Provincial Treasury's performance in terms of the collection of departmental revenue for the financial year under review. It will again be discussed on a per programme basis in paragraph 2. Table 2 below depicts the departmental own revenue collected by the Provincial Treasury for the period 2003/04 to 2006/07. The Provincial Treasury is the only provincial department to collect more own revenue than it requires in terms of departmental payments. This can be ascribed to the fact that functions are aligned to national policy instruments while its expenditure is comparable to smaller departments.

Table 2: Departmental revenue collected for period 2003/04 – 2006/07

Receipts	2003/04	2004/05	2005/06	2006/07	2006/07	Deviation from target	
	Actual	Actual	Actual	Target	Actual	R'000	%
	R'000	R'000	R'000	R'000	R'000		
Tax receipts	132,424	145,644	221,972	234,860	275,984	38,824	16.37
Casino taxes	111,079	132,640	205,318	219,660	256,948	34,988	15,76
Horse racing taxes	21,345	13,004	16,654	15,200	19,036	3,836	25,24
Non-tax receipts	256,783	243,290	240,884	55,140	55,547	407	0,74
Interest	250,133	240,621	233,362	54,131	54,125	(6)	(0.01)
Other receipts	6,650	2,669	7,522	1,009	1,422	413	40.93
Financial transactions (Recovery of loans and advances)			4,521	0	9,802	9,802	0.00
Total departmental receipts	389,207	388,934	467,377	290,000	341,333	49,033	16.77

In general, the substantial higher collection in own revenues resulted from the adoption of a very conservative approach in determining the revenue targets in the beginning of the period under review given future risks in national formula financing and fixed asset financing requirements. Only programmes 1, 2 and 3 collected own revenue which is discussed in more detail below:

Programme 1: Administration – Departmental own receipts registered against this programme, essentially insignificant, consist mainly of sales of miscellaneous goods such as scrap and waste paper and commission on insurance.

Programme 2: Sustainable Resource Management – Own revenue collected by this programme relates mainly to casino and horseracing taxes. The substantial variance for which the actual amounts exceed the targeted amounts at the tax receipts can be ascribed to higher than anticipated gambling and betting activity, which might be caused by more disposable income being available to households. Included under the other receipts is an amount for fines and penalties, which due to its very nature was not budgeted for in the first place thereby adding to the substantial variance.

Programme 3: Asset and Liabilities Management – This programme is responsible for managing interest earned on investments. The interest revenue collected is on par with estimates due to effective management of investments according to an investment and nascent asset financing policies.

1.9 Departmental payments

This section deals with Provincial Treasury's performance in terms of departmental payments for the financial year under review. Table 3 depicts departmental payments made by the Provincial Treasury and more specifically the variance between total voted funds and actual expenditure.

Table 3: Departmental payments

Programmes	Voted for 2006/07 R'000	Roll-overs and Adjustments R'000	Virement R'000	Total Voted R'000	Actual Expenditure R'000	Variance R'000
1. Administration	27,605	1,732	(310)	29,027	28,724	303
2. Sustainable resource management	24,130	(1,713)	(1,084)	21,333	21,332	1
3. Asset and liabilities management	49,677	(986)	2,846	51,537	51,537	0
4. Financial governance	32,834	967	(1,452)	32,349	32,343	6
Total	134,246	0	0	134,246	133,936	310

Programme 1: Administration (98,96% actual expenditure)

The under spending (1,04%) on this programme can mainly be attributed lower than expected spending on foreign travel and staff events. Provisions were also made for donations and FASSET which did not materialise as anticipated, thus increasing the under spending.

Four vehicles were also purchased to add to the motor car pool for the department as more MFMA appointments were made and they are required to conduct municipal visits.

Programme 2: Sustainable Resource Management (100% actual expenditure)

There are no material variances to report on.

Programme 3: Asset and Liabilities Management (100% actual expenditure)

There are no material variances to report on.

Programme 4: Financial Governance (100% actual expenditure)

There are no material variances to report on.

1.10 Transfer payments

During the year under review transfer payments were only made to the City of Cape Town in respect of the regional service council levies as well as to households as indicated in Table 4 below:

Table 4: Transfer payments

Name of Institution	Amount Transferred R'000	Estimate Expenditure R'000
City of Cape Town	29	29
Households	362	362

1.11 Conditional grants and earmarked funds

The Provincial Treasury did not receive any conditional grants or earmarked funds for the financial year under review.

1.12 Capital investment, maintenance and asset management plans

The investment in capital projects does not form part of the Provincial Treasury's core functions (strategic objectives) and no funds were appropriated for this purpose.

Maintenance

This section is not applicable to the Provincial Treasury, as it did not have a property asset portfolio under its control for the period under review.

Asset Management

The additions in computer equipment and related equipment as stated in Part 4, Disclosure notes 23 and 24 could be justified as follows:

Additional computer equipment was purchased for new appointees.

ERA licenses in terms risk management were procured due to additional requirements.

An increase in responsibilities necessitated the procurement of additional audio visual equipment.

The increase in the use of the current fleet of vehicles and the increase of the Provincial Treasury establishment necessitated the purchase of three additional permanent vehicles.

The disposals of assets could be justified as follows:

Government vehicles procured appeared on the assets registers of both the provincial treasury and the department of transport and public works:

Branch Government Motor Transport. These assets must only appear on the asset register of the latter department and were therefore removed from the asset register of the Provincial Treasury utilising the disposal process.

In terms of computer equipment, redundant items were transferred to other departments or sold and obsolete items donated to institutions that could still utilise it.

Redundant furniture and equipment were donated to various schools.

The loss incurred due to two cases of cheque fraud (Department 70) and the theft of cash have been registered and written off.

The asset register is automatically updated when new assets are acquired or when redundant assets are disposed of. An annual stock take has been completed and reconciled in the 2006/07 financial year.

Approximately 80% of the Provincial Treasury's assets are in a good state, while the remaining 20% are in a fair condition.

No maintenance projects have been undertaken during the financial year under review and no projects are being carried forward from the financial year under review to the following financial year.

No facility was closed down or downgraded during the period under review for whatever reason.

Where needs arise to follow the route of bidding for projects, the Supply Chain Management process outlined in the Provincial Treasury's Accounting Officer's System acts as a guideline.

2. Programme performance in detail

This section will deal with the respective programme's performances in more detail. It will be placed in perspective by focussing on the respective purposes or aims, measurable objectives, service delivery objectives and indicators and service delivery achievements of the different programmes/ sub-programmes.

2.1 Programme 1: Administration

Aim: To provide and maintain high quality support service to the Minister and the Provincial Treasury pertaining to sound financial administration, supply chain management, auxiliary services, and corporate services.

Sub-programme 1.1	:	Office of the Minister
Purpose	:	To render secretarial, administrative and office support services and act as linkage with the Treasury, the Department of Economic Development and the Provincial Parliament, enabling the minister to realise her treasury and economic development responsibilities.
Measurable Objectives	:	Smooth and effective functioning of the Minister's office. Strengthen linkage with Treasury, Economic Development and Provincial Parliament. Ensure good public profile for the Minister Fulfilment of Minister's legislative and political functions.
Service delivery achievements	:	No service delivery achievements of note can be registered.
Reasons for achieving targets	:	A co-ordinated approach to work specifics was followed.
Reasons for not achieving targets	:	Targets were achieved.
The attainment of targets contributed in the following manner towards achieving the Provincial Treasury's outcomes	:	This sub-programme performs staff functions and it does not directly contribute towards achieving the Provincial Treasury's outcomes.

Programme 1: Administration			
Output	Output performance measures/service delivery indicators	Actual performance against target	
		Target	Actual
Sub-programme 1.1: Office of the Provincial Minister			
Smooth and effective functioning of the Minister's office.	Percentage satisfaction by the Minister.	98%	98%
	Days turnaround time on documents submitted to the Minister.	5 days	2 days
Strengthen linkage with Treasury, Economic Development and Provincial Parliament.	Establish a sound relationship and communication link.	72%	90%
Ensure good public profile for the Minister.	Improve public image.	85%	90%
Fulfilment of Minister's legislative and political functions.	Good integration with departmental function.	65%	85%
	Provincial state of affairs in good shape.	75%	90%

Sub-programme 1.2 : Management Services

- Purpose** : To render strategic support and conduct overall planning.
- Measurable Objectives** : Ensure good strategic support to the HOD and his management team.
Conduct overall planning to ensure that remaining management functions are conducted on such level that Provincial Treasury delivers on its responsibilities.
- Service delivery achievements** : No service delivery achievements of note can be registered.
- Reasons for achieving targets** : A co-ordinated approach to work specifics was followed.
- Reasons for not achieving targets** : Not all posts were filled but targets were achieved.
- The attainment of targets contributed towards achieving the Provincial Treasury's outcomes in the following manner** : This sub-programme performs staff functions and it does not directly contribute towards achieving the Provincial Treasury's outcomes.

Sub-programme 1.2: Management Services

Ensure good strategic support to the HOD and his management team.	Percentage satisfaction.	75%	60%
Conduct overall planning to ensure that remaining management functions are conducted on such level that Provincial Treasury delivers on its responsibilities.	Percentage of planning mechanisms resulting in the right deliverables.	30%	20%

Sub-programme 1.3 : Corporate Services

Purpose	:	To develop a diverse and high-level performing organisation.
Measurable Objectives	:	<p>Ensure an optimal staff establishment.</p> <p>Appropriate strategies and mechanisms for attracting and acquiring the desired employees developed.</p> <p>Employees profiles determined per directorate to analyse and understand their core functions.</p> <p>To design and develop a comprehensive training and development strategy.</p> <p>To integrate SPMS into the development strategy of human resources (include career pathing/succession planning).</p> <p>Develop and design an alternative capacity building strategy.</p> <p>To provide a formal learning strategy.</p> <p>Ensure and establish, diverse and integrated workforce and environment</p> <p>To analyse and understand the culture of the organisation by conducting a cultural assessment.</p> <p>To make PT the employer of choice (EoC)</p> <p>Deliver an effective and efficient operational service</p> <p>Ensure that monitoring and evaluation systems are in place.</p>
Service delivery achievements	:	<p>The vacancy rate was reduced to 14% in December 2006, but due to an abnormal amount of resignations it escalated to 20%.</p> <p>External graduate programme was developed and implemented.</p>
Reasons for achieving targets	:	<p>A pre-determined strategy involving all staff was implemented, such as changing the organisational and functional structure to ensure better supervision and flow of work and by allocating specific responsibilities to all staff. Achievements were rewarded through the system of SPMS.</p>

Sub-programme 1.3	: Corporate Services
Reasons for not achieving targets	: Although the vacancy rate was reduced to 14% during December 2006, an abnormal amount of resignations, which was not controllable, took place during the fourth quarter, resulting in the vacancy rate escalating to 20%. The draft training policy and the competency framework will only be approved during the second quarter of 2007/08 where after training needs and service providers can be identified. The HRD strategy will only be approved during the second quarter of 2007/08 after which the career and succession planning can commence.
The attainment of targets contributed towards achieving the Provincial Treasury's outcomes in the following manner	: The Human Resource Management Component in its role as a key staff function, contributed positively towards the Provincial Treasury in meeting its goals in general.

Programme 1: Administration

Output	Output performance measures/service delivery indicators	Actual performance against target	
		Target	Actual
Sub-programme 1.3: Corporate Services			
Ensure an optimal staff establishment.	Reduce vacancy rate to 10%.	Reduce vacancy rate to 10%.	20%

Sub-programme 1.3: Corporate Services			
Develop and design an alternative capacity building strategy.	Strategy for internships, learner ships/ABET and job shadow in place.	Reviewing strategy for new intakes on internships/ABET/learner ships.	Target achieved.
To provide a formal learning strategy	Bursary Management in place.	Effective bursary management.	New bursaries awarded and managed effectively.
Ensure and established, diverse and integrated workforce and environment.	Promote Transformation and Human Rights ethos.	80% achieved.	Target achieved.
To analyse and understand the culture of the organisation by conducting a cultural assessment.	Organisational Culture assessment to be determined.	Actual cultural assessment conducted for PT and integrated into HRD strategy.	Target achieved.
To make PT the employer of choice (EoC).	Internal promotion of PT as an EoC.	Develop and implement a communication and awareness strategy internally.	Target achieved.
Deliver an effective and efficient operational service.	Positive client evaluation with respect to service conditions, policy evaluation, labour relations, maintaining the establishment and PERSAL.	Develop and implement improvement measures.	Target achieved.
Ensure that monitoring and evaluation systems are in place.	Work plans and performance plans met.	Monitoring and evaluation mechanisms in place.	Target achieved.

Sub-programme 1.4 : Financial Management

Purpose : To deliver financial management (inclusive of risk management and internal control), supply chain management and specialised auxiliary services for the Treasury.

Measurable Objective : Efficient and effective planning and budget management.
 Effective application of resources in realising strategic goals.
 Ledger accounts that accurately reflects the financial position of the Provincial Treasury.
 Efficient and effective supply chain management services.
 Financial inspections to improve internal control.
 Communicating guidelines on compliance with prescripts.

Sub-programme 1.4	: Financial Management
Service delivery achievements	: The compilation of a comprehensive operational plan and four quarterly performance reports were completed successfully with improved controls over the IYM process. The department attained to achieve a 0.23% under spending on the Adjustment Budget. Improvements within financial accounting, improved controls over timely payments and the reduction of debtors have been attained. The SCM unit has become fully operational with a well-established Bid Committee (DBC) and departmental IT Committee (DITCOM). A consultant was appointed to help improve registry and document control functions. The library is functioning.
Reasons for achieving targets	: Basically all targets as set out in the performance agreement of the CFO have been attained and concerted efforts were made with appointments to attain representivity.
Reasons for not achieving targets	: Controls over LOGIS reports, physical asset controls and expenditure payments left room for improvement.
The attainment of target: contributed towards achieving the Provincial Treasury's outcomes in the following manner	: Service delivery to all components within the Treasury has improved with better IYM information and support to all the programmes with the compilation of their budgets and strategic plans. On the payments side, improvement has been made in the provision of goods and services and several bids were approved or amended to ensure that the Provincial Treasury attain its goals with communication, risk assessments and socio-economic research projects.

2.2 Programme 2: Sustainable Resource Management

Aim: To provide professional advice and support on provincial and local government economic analysis, fiscal policy, public finance development and management of the annual provincial budget process and assist and monitor local government budgets.

Sub-programme 2.1 : Programme Support	
Purpose	: To facilitate the efficient and co-ordinated administration and management of the programme.
Measurable Objectives	: Smooth and effective functioning of the component. Trained and capacitated administrative support and line function staff. Achievement of iKapa Elihlumayo goals.
Service delivery achievements	: The unit is not yet operational.
Reasons for achieving targets	: The unit is not yet operational.
Reasons for not achieving targets	: The unit is not yet operational.
The attainment of targets contributed towards achieving the Provincial Treasury's outcomes in the following manner	: This is only a support function and is not yet operational.

Achievement of iKapa Elihlumayo goals.	Percentage support and promotion of goals in work environment.	100% support achieved.	Not yet operational.
	Percentage procurement in terms of BBEE.	50%	Not yet operational.

Sub-programme 2.2 : Economic Analysis

Purpose : To conduct macroeconomic analysis and render policy advice, i.e. to determine and analyse key economic variables, their interrelation and relevance to the budget, the potential for growth and development and the interaction with governmental and revenue patterns, alternative budgeting and other revenue and expenditure scenarios on selected key economic growth and development indicators.

Measurable Objectives :

- Describe the provincial economy.
- Determine the sources, potential and constraints for enhanced growth and development in the Western Cape.
- Assess the impact of various budget policy objectives on selected economic variables.
- Provide technical assistance and training.
- Disseminating information to other stakeholders in the provincial economy and labour market.
- Assessing socio-economic relevance of municipal IDPs

Service delivery achievements 2006 PERO tabled on 18 April 2006
Socio Economic Profiles for 30 municipalities were published two months ahead of schedule.

Sub-programme 2.2	: Economic Analysis
Reasons for achieving targets	: The products (PERO & SEP-LG) need a team approach. SEP-LG was produced by the EA team of dedicated economists and their expertise contributed in delivering the SEP-LG 2 months before due schedule. External contractors with limited involvement of the internal expertise mainly drove the PERO.
Reasons for not achieving targets	: Further work required in respect of partnership within Provincial Government economic cluster.
The attainment of targets contributed towards achieving the Provincial Treasury's outcomes in the following manner	: The 2005 PERO provided a robust socio-economic analysis that conceptualises the environment in which the lead strategies are compiled, thereby informing the 2005 Budget. The impact of SEP-LG profiles was immediate and the findings continue to influence the direction of service delivery among sector departments. In addition municipalities used the socio-economic analysis in their IDPs.

Report of the Provincial Government Western Cape Shared Audit Committee on the Provincial Treasury (Vote 3) for the financial year ending 31 March 2007

We are pleased to present our report for the above-mentioned financial year.

Appointment of the Shared Audit Committee

Provincial Treasury (Vote 3) is served by a Shared Audit Committee appointed under Cabinet Resolution 75/2003 on 23 June 2003 which was subsequently extended by Cabinet Resolutions 95/2005 and 77/2007. The term of the Shared Audit Committee expires on 31 December 2007. From 2008 the Department will be served by the Governance and Administration cluster Audit Committee.

Audit Committee Members and Attendance

The Shared Audit Committee is required to meet a minimum of 4 times per annum as per its approved Terms of Reference. During the current year 11 meetings were held and the members attended as shown below.

Member	Meetings Attended
Mr JA Jarvis (Chairperson)	11
Mr J January	5
Mr P Jones	10
Mr R Warley	8

Audit Committee Responsibility

The Shared Audit Committee has complied with its responsibilities arising from section 38(1)(a) of the PFMA and Treasury Regulation 3.1.13 and 27(1)(10). The Shared Audit Committee has also regulated its affairs and discharged its responsibilities in terms of the Audit Committee Charter.

Effectiveness of Internal Control

Internal Audit Function

In 2004 the Sihluma Sonke Consortium was appointed to develop and transfer internal audit skills to the staff of the Provincial Government over a three-year period. Due to budget and capacity constraints there was a lack of adequate coverage of high risk areas identified by the Department. This increased the risk of a poor control environment with the associated potential losses.

At the end of December 2006 the Consortium contract was extended for a further 2 years to allow the development of the Internal Audit function to be completed.

The Shared Audit Committee's review of the 2007/08 Operational Internal Audit plan indicates that there should be a smoother transfer of skills during the next two years.

Quality Assurance Review

During the year under review the Institute of Internal Auditors (SA) (IIA) conducted a quality assurance review of the Internal Audit activity. The Institute issued an opinion of partial conformance with the Standards of Internal Audit. The Internal Audit Unit is in the process of implementing the recommendations made by the IIA.

Internal Audit Findings

The critical and significant issues reported by Internal Audit during the year under review have been adequately addressed by management with the exception of administration of leave and Policy and Guidance related to Asset Management.

During the financial year the Shared Audit Committee met with management periodically to track their progress in resolving outstanding critical and significant internal control issues previously raised by the Auditor General and Internal Audit.

At the end of the financial year Management reported that with the exception of a few transversal issues most of the outstanding issues had been resolved.

Risk Management

The Shared Audit Committee notes that a Chief Risk Officer was appointed during October 2006 and that more focus is being given to strengthening the risk management function.

Information Technology

During the year under review Internal Audit carried out a comprehensive audit of IT facilities under the control of Centre for e-Innovation (Ce-I). The audit highlighted a growing crisis within IT and the need to replace outdated equipment, improve security, back-up information and develop plans to address the business needs of its customers including this Department. The Shared Audit Committee believes the way forward is for this Department's officials to participate in a project team to develop IT policies that address the needs of users on an ongoing basis.

In Year Management Reporting

The Shared Audit Committee has reviewed the In Year Management Reports and discussed these with Department officials. Sufficient progress is being made in the development and quality of these reports.

Evaluation of Financial Statements

The Shared Audit Committee has:

- reviewed and discussed the audited annual financial statements to be included in the annual report with the Auditor General and the Accounting Officer;
- reviewed the Auditor General's Management Report and Management's response thereto; and
- reviewed significant adjustments resulting from the audit.

The Shared Audit Committee concurs and accepts the Auditor General's conclusion on the annual financial statements, and is of the opinion that the audited annual financial statements be accepted and read together with the report of the Auditor General.

Appreciation

The Audit Committee wishes to express its appreciation to the Provincial Treasury, Officials of the Department, the Auditor General and the Sihluma Sonke Consortium for the information they have provided for us to compile this report.

Chairperson of the Shared Audit Committee

**REPORT OF THE ACCOUNTING OFFICER
for the year ended 31 March 2007**

Report by the Accounting Officer to the Executive Authority and Parliament/Provincial Legislature of the Republic of South Africa.

1. General review of the state of financial affairs

- The Western Cape Provincial Treasury, as indeed all provincial treasuries in the country, is responsible for improving the state of financial governance in the Province, both for the provincial and local government spheres. In both instances the actual actions are indirect in the sense that it is up to Accounting Officers to implement the required steps within their organisations, whether these be provincial departments or municipalities.

However, it is the environment, together with the commensurate norms and standards and requisite support, which has to be created or set by the Provincial Treasury that would significantly contribute towards the actual desired outcome. As regards the establishment of overall standards to be strived for, we have been greatly assisted by the financial capability model introduced by the Auditor-General during the 2005/06 assessment year and to be further rolled out in the current reporting year. With the support of the Provincial Cabinet we have set a level three target to be attained for all provincial departments by end of March 2007. A similar target has been mooted for municipalities to be achieved by end of June 2008.

It is trusted that a level 4 would be attainable by end of March 2008 or at least be strived for by provincial departments as that takes us into the domain of real service delivery and proper performance assessment.

As stated before, the public sector has to apply its resources to add to the Accelerated and Shared Growth Initiative of South Africa (ASGISA) and in the Province to the nascent Provincial Growth and Development Strategy (iKapa Elihlumayo), but this would only be attainable if good financial governance is in place. It's on how well we achieve these goals that we should be judged.

The following internal and external challenges remain:

- Building the analytical competence in the Provincial Treasury, provincial departments and municipalities to strengthen the link between governance and socio-economic needs and resource application.
 - Stabilising and building the Provincial Treasury team by improving soft skills management, recruitment, retention, talent management, training, career and succession planning.
 - Remaining deprivation in our communities, high levels of unemployment and poverty, and wide-spread disparities.
 - Constrained opportunities to participate in the economy by the young, unskilled and poor.
 - Further improving cohesion and synergy between provincial departments, the different spheres of government, private sector and civil society.
- In response to the above challenges, the Provincial Treasury achieved the following:
 - Expanded socio-economic analysis disaggregated per municipal area, meant to inform better responsiveness in resource allocation, particularly by municipalities.
 - Initiated a financial management improvement drive within the Provincial Government, primarily based on critical or problem areas highlighted in various financial assessment reports, mainly by the Auditor-General and in a generic sense by Internal Audit.

**WESTERN CAPE PROVINCE
PROVINCIAL TREASURY
VOTE 3**

**REPORT OF THE ACCOUNTING OFFICER
for the year ended 31 March 2007**

- Took steps, in partnership with the Department of Local Government and Housing and that of the department of the Premier, to improve budgeting and financial reporting at the local government level, as well as better alignment and cooperation between the provincial and local government spheres.
 - Continued to foster Public Private Partnerships (PPP's) in both the provincial and local government spheres.
 - Further whittling down of the vacancy rate within Provincial Treasury and introduction of steps to improve soft skills amongst the management cadre. Further strengthening and better targeting of training and development of Provincial Treasury staff.
 - Further deepening of departmental interaction to improve resource application to better respond to socio-economic, governance imperatives and national priorities.
 - Finalisation of Provincial Treasury's external graduate programme, with the first interns due to take up positions at the beginning of the new financial year.
- The following projects were undertaken during the year:
 - In liaison with municipalities, the production of the first ever (both for the Province and the country) of a Socio-economic Profiling (SEP LG) per municipality to assist the latter in sophisticating its Integrated Development Plans and appropriate responses in municipal budgets.
 - Institutionalisation of the co-operative Local Government Medium Term Expenditure (LG MTEC) review process.
 - Apart from the SEP-LG, three further important publications were produced, the PER&O 2006, the Financial Governance Review and Outlook 2005 and the 2007-2010 Medium Term Budget Policy Statement.
 - Bedding down the Provincial Treasury Forum, to foster the sharing of experiences between provincial treasuries and to consider proposals for the improvement of provincial financial governance.
 - The re-design of Provincial Treasury's macro structure to encourage better coordination, succession planning and deepening of competencies and efficacy, as the last phase of its restructuring subsequent to the major changes implemented in 2003.
 - Part of the latter involved an ongoing revision of job descriptions and the conclusion of the redesign of the Internal Audit component that now allows for the evolvement of a full-blown in-house capability and the subsequent decentralisation to the departments of Health, Education and Transport and Public Works over the next four years.
 - Spending trends.
 - The department's actual expenditure for the 2006/07 financial year was R133,936 million compared to the total adjusted budget of R134, 246 million. This resulted in an under-spending of R309,746 or 0.2% of the adjusted budget of which the balance will be surrendered to the Provincial Revenue Fund.
 - Under-spending of R220 000 arose as a result of the lower than calculated spending on foreign travel and staff events. R37 000 was due to no transfer payment been made to the respective SETA as anticipated. R52 000 can be attributed to a provision made for donations that did not materialise.

2. Service rendered by the department

2.1 The main services to be rendered by the Provincial Treasury are captured in Chapter 3 of the Public Finance Management Act (PFMA) and Chapter 2 of the Municipal Finance Management Act (MFMA). The original powers are vested in the Minister of Finance and Tourism as Head of the Provincial Treasury, who in turn has delegated most of these to officials within the Provincial Treasury. Both acts impart a range of responsibilities to provincial treasuries, but in the main these entail responsibilities for budget compilation, their implementation and the vesting of sound financial management in provincial departments, municipalities and entities, whether public or municipal. However, a range of other legislative provisions in different national and provincial acts and laws add further responsibilities.

2.2 Tariff policy

Betting and Gambling

- Betting and gambling revenue consists mainly of associated taxes, whether they be from limited gambling machine taxes, bookmakers' taxes or totalisator taxes. This in addition to annual licence fees from casinos, limited gambling machines, bookmakers and the totalisator. These fees and taxes are all raised and adjusted periodically as determined by the Western Cape Gambling and Racing Law, 1996 (Law 4 of 1996).

Functional Financial Training

- The Provincial Treasury annually approves tariffs payable for functional financial training rendered to officials from national government departments. These tariffs are calculated as direct expenditure plus 40% to cater for overhead costs.

2.3 Free Services

All services rendered by the Provincial Treasury, except those in paragraph 2.2, are rendered to other departments mainly in terms of the PFMA, or to municipalities as per the MFMA, as alluded to in paragraph 2.1 above. Per definition no free services were rendered by the Provincial Treasury.

2.4 Inventories

Two types of inventories are generated by LOGIS. The one consists of an inventory of store items and the other inventories of furniture and equipment. The inventory items are also reflected as major assets in Notes 23 and 24 of these Statements. Stationery to the value of ±R58 000 (as at 31 March 2007) was issued on a first in first out (FIFO) basis.

3. Capacity constraints

The three major constraints that have an adverse impact on the Provincial Treasury's performance are the high staff turnover rate, insufficient depth and limited experience. All components within the Provincial Treasury are striving to fill vacant posts, retaining and attracting staff as a high priority. However, while many appointments are made, the attrition rate within the Provincial Treasury is high. Most accept positions at higher levels in other government departments, municipalities and the private sector. Others cite environmental issues within Provincial Treasury itself not being conducive to career development and progression.

**REPORT OF THE ACCOUNTING OFFICER
for the year ended 31 March 2007**

The recruitment processes are being reviewed, part of which include the introduction of long term interns (apart from experiential placements) into a number of components, but mainly within Internal Audit, in the hope that many of them may wish to make the Provincial Treasury their employer of choice in the future.

The high turnover exacerbates capacity levels because many of the officials, who remain, have relatively short service periods with limited knowledge and expertise. That said, we are nonetheless fortunate in having achieved a representative blend of highly dedicated staff, inclusive of a relatively stable core with a great deal of depth, who together have proved worthy in more than one occasion, in pulling Provincial Treasury through some challenging patches.

4. Utilisation of donor funds

The Provincial Treasury did not receive any donor funding.

5. Trading entities and public entities

The single public entity operating under the auspices of the Provincial Treasury is the Western Cape Gambling and Racing Board. Its function is to regulate all gambling, racing and other related activities.

6. Organisations to whom transfer payments have been made

Transfers were only made to the Regional Service Council until the end of June 2006.

7. Public private partnerships (PPP)

In an endeavour to develop links with both municipalities and specific departments, the Provincial Treasury's PPP unit embarked upon an awareness campaign and hosted a PPP seminar, entitled "An Alternative Mechanism for Stimulating Economic Activity and contributing to the Provincial Growth and Development Strategy". Further, a two-day training session period was also held to better acquaint municipalities with the PPP process.

The initiative started in 2006 to delegate regulatory powers for PPP's from National Treasury to Provincial Treasuries was postponed to allow for further capacity building within the latter. It is trusted that this endeavour will be brought to a satisfactory conclusion in the new financial year.

During 2006/07 one PPP project, the Western Cape Rehabilitation Centre PPP project, achieved financial closure.

8. Corporate governance arrangements

The Provincial Cabinet approved the enlargement of the Internal Audit component from 24 to 94 posts in the fourth quarter of the reporting period. The new structure will be phased in over a period of three to four years and will enable the Provincial Government to recruit and capacitate the staff required to take over the services from the current external service provider.

9. Discontinued activities/activities to be discontinued

No specific activities were discontinued during the 2006/07 financial year.

**WESTERN CAPE PROVINCE
PROVINCIAL TREASURY
VOTE 3**

**REPORT OF THE ACCOUNTING OFFICER
for the year ended 31 March 2007**

10. Asset management

The Provincial Treasury has successfully completed its second full stock take. The Asset Register was also updated, balancing with the records on the LOGIS system.

11. Performance information

Concerted efforts were put in place during 2006/07 to improve the 2007/08 Annual Performance Plan. Performance measure indicators and measurable objectives were revised in many cases within all components with the assistance of an outside service provider. It is intended to continue using the service provider during 2007/08 to improve the Provincial Treasury's performance reporting and ensure that performance measure indicators can be properly quantified for both internal and external audits as from 2009/10 onwards. Furthermore, it is planned that the information in Annual Performance Plans, followed by the information in the four quarterly reports that ultimately feeds into the next Annual Report, is adequately synchronised.

12. SCOPA resolutions

The Provincial Treasury received a clean report for the 2005/06 reporting period and in this context no SCOPA resolutions were made applicable to this Department.

13. Other

A longstanding issue is the as yet unresolved unauthorised expenditure that predates 1 April 1995 and indeed the coming into being of the Province itself. Given the age and complexity of this cluster of accounts that in turn are derived from different structures, several interventions will be needed by the National Minister of Finance and a composite finance act will have to be passed by Parliament before this trial balance can be closed. During the fourth quarter of the year being reported on, the Provincial Treasury wrote follow up two letters to the Minister of Finance and the Director-General of National Treasury requesting assistance to enable the Western Cape Provincial Government to close the balances on this cluster of accounts.

An amount of R756 572.17 has been written off against thefts and losses on the Provincial Treasury Vote during 2006/07 and seven debit account balances were reduced. This action increased the total debit balances from R960 015 104.68 to R960 771 676.85 while the sum of the credit balances amount to R962 351 132.32. However, the correction journals did not reduce any credit balances which must still be corrected against the Provincial Revenue Fund during 2007/08 after a separate fund for this cluster of accounts have been created. Therefore the new net credit balance on this cluster of accounts is R1 579 455.47.

PROVINCIAL PARLIAMENT ON THE FINANCIAL STATEMENTS AND
PERFORMANCE INFORMATION OF VOTE 3 – PROVINCIAL
TREASURY FOR THE YEAR ENDED 31 MARCH 2007**

REPORT ON THE FINANCIAL STATEMENTS

Introduction

1. I have audited the accompanying financial statements of the Provincial Treasury which comprise the statement of financial position as at 31 March 2007, appropriation statement, statement of financial performance and cash flow statement for the year then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 82 to 124.

Responsibility of the accounting officer for the financial statements

2. The accounting officer is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting determined by the National Treasury, as set out in accounting policy 1.1 to the financial statements and in the manner required by the Public Finance Management Act, 1999 (Act No. 1 of 1999) (PFMA). This responsibility includes:
 - designing, implementing and maintaining internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error
 - selecting and applying appropriate accounting policies
 - making accounting estimates that are reasonable in the circumstances.

Responsibility of the Auditor-General

3. As required by section 188 of the Constitution of the Republic of South Africa, 1996, read with section 4 of the Public Audit Act, 2004 (Act No. 25 of 2004) and section 40(2) of the PFMA, my responsibility is to express an opinion on these financial statements based on my audit.
4. I conducted my audit in accordance with the International Standards on Auditing and General Notice 647 of 2007, issued in Government Gazette No. 29919 of 25 May 2007. Those standards require that I comply with ethical requirements and plan and perform the audit to obtain reasonable assurance whether the financial statements are free from material misstatement.
5. An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor

considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control.

- 6.** An audit also includes evaluating the:
- appropriateness of accounting policies used
 - reasonableness of accounting estimates made by management
 - overall presentation of the financial statements.
- 7.** I believe that the audit evidence I have obtained is sufficient and appropriate to provide a basis for my audit opinion.

Basis of accounting

- 8.** The department's policy is to prepare financial statements on the modified cash basis of accounting determined by the National Treasury, as set out in accounting policy 1.1 to the financial statements.

Opinion

- 9.** In my opinion, the financial statements present fairly, in all material respects, the financial position of the Provincial Treasury as at 31 March 2007 and its financial performance and cash flows for the year then ended, in accordance with the modified cash basis of accounting determined by the National Treasury, as set out in accounting policy 1.1 to the financial statements, and in the manner required by the PFMA.

OTHER MATTERS

I draw attention to the following matters that are ancillary to my responsibilities in the audit of the financial statements:

Delay in finalisation of audit

- 10.** Due to the national public sector strike action during June 2007, the Auditor-General had to delay the finalisation of affected departments. As a result, the Auditor-General's consistency review process of the audit reports could only be conducted subsequent to 31 July 2007, the consequence of which was a delay in the finalisation of the audit of this department for the 2006-07 financial year.

OTHER REPORTING RESPONSIBILITIES

Reporting on performance information

- 11.** I have audited the performance information as set out on pages 82 to 124.

Responsibilities of the accounting officer

- 12.** The accounting officer has additional responsibilities as required by section 40(3)(a) of the PFMA to ensure that the annual report and audited financial statements fairly present the performance against predetermined objectives of the department.

Responsibility of the Auditor-General

- 13.** I conducted my engagement in accordance with section 13 of the Public Audit Act, 2004, read with General Notice 646 of 2007, issued in Government Gazette No. 29919 of 25 May 2007.
- 14.** In terms of the foregoing, my engagement included performing procedures of an audit nature to obtain sufficient appropriate evidence about the performance information and related systems, processes and procedures. The procedures selected depend on the auditor's judgement.
- 15.** I believe that the evidence I have obtained is sufficient and appropriate to report that there have been no significant findings identified as a result of the audit.

APPRECIATION

- 16.** The assistance rendered by the staff of the Provincial Treasury during the audit is sincerely appreciated.

**ACCOUNTING POLICIES
for the year ended 31 March 2007**

The Financial Statements have been prepared in accordance with the following policies, which have been applied consistently in all material aspects, unless otherwise indicated. However, where appropriate and meaningful, additional information has been disclosed to enhance the usefulness of the Financial Statements and to comply with the statutory requirements of the Public Finance Management Act, Act 1 of 1999 (as amended by Act 29 of 1999), and the Treasury Regulations issued in terms of the Act and the Division of Revenue Act, Act 2 of 2006.

Presentation of the Financial Statements

1. Basis of preparation

The Financial Statements have been prepared on a modified cash basis of accounting, except where stated otherwise. The modified cash basis constitutes the cash basis of accounting supplemented with additional disclosure items. Under the cash basis of accounting transactions and other events are recognised when cash is received or paid.

1.1 Presentation currency

All amounts have been presented in the currency of the South African Rand (R), which is also the functional currency of the department.

1.2 Rounding

Unless otherwise stated all financial figures have been rounded to the nearest one thousand Rand (R'000).

1.3 Comparative figures

Prior period comparative information has been presented in the current year's financial statements. Where necessary figures included in the prior period financial statements have been reclassified to ensure that the format in which the information is presented is consistent with the format of the current year's financial statements.

1.4 Comparative figures - Appropriation Statement

A comparison between actual amounts and final appropriation per major classification of expenditure is included in the appropriation statement.

2.3.5 Financial transactions in assets and liabilities

Repayments of loans and advances previously extended to employees and public corporations for policy purposes are recognised as revenue in the statement of financial performance on receipt of the funds.

2.3.6 Gifts, donations and sponsorships (transfers received)

All cash gifts, donations and sponsorships are paid into the Provincial Revenue Fund and recorded as revenue in the statement of financial performance when received. Amounts receivable at the reporting date are disclosed in the disclosure notes to the financial statements.

3. Expenditure

3.1 Compensation of employees

Salaries and wages comprise payments to employees. Salaries and wages are recognised as an expense in the statement of financial performance when the payment is effected on the system (by no later than 31 March of each year). Capitalised compensation forms part of the expenditure for capital assets in the statement of financial performance¹.

All other payments are classified as current expense.

Social contributions include the employer's contribution to social insurance schemes paid on behalf of the employee. Social contributions are recognised as an expense in the statement of financial performance when the payment is effected on the system.

3.1.1 Short term employee benefits

Short-term employee benefits comprise of leave entitlements (including capped leave), thirteenth cheques and performance bonuses. The cost of short-term employee benefits is expensed as salaries and wages in the statement of financial performance when the payment is effected on the system (by no later than 31 March of each year).

Short-term employee benefits that give rise to a present legal or constructive obligation are disclosed in the disclosure notes to the financial statements. These amounts are not recognised in the statement of financial performance.

¹ This accounting policy is only relevant where the department elects to capitalise the compensation paid to employees involved on capital projects.

3.1.2 Long-term employee benefits

3.1.2.1 Termination benefits

Termination benefits such as severance packages are recognised as an expense in the statement of financial performance as a transfer (to households) when the payment is effected on the system (by no later than 31 March of each year).

3.1.2.2 Post employment retirement benefits

The department provides retirement benefits (pension benefits) for certain of its employees through a defined benefit plan for government employees. These benefits are funded by both employer and employee contributions. Employer contributions to the fund are expensed when the payment to the fund is effected on the system (by no later than 31 March of each year). No provision is made for retirement benefits in the financial statements of the department. Any potential liabilities are disclosed in the financial statements of the Provincial Revenue Fund and not in the financial statements of the employer department.

The department provides medical benefits for certain of its employees. Employer contributions to the medical funds are expensed when the payment to the fund is effected on the system (by no later than 31 March of each year).

3.2 Goods and services

Payments made for goods and/or services are recognised as an expense in the statement of financial performance when the payment is effected on the system (by no later than 31 March of each year). The expense is classified as capital if the goods and services were used for a capital project or an asset of R 5 000 or more is purchased. All assets costing less than R 5 000 will also be reflected under goods and services.

3.3 Financial transactions in assets and liabilities

Debts are written off when identified as irrecoverable. Debts written-off are limited to the amount of savings and/or under spending of appropriated funds. The write off occurs at year-end or when funds are available. No provision is made for irrecoverable amounts but amounts are disclosed as a disclosure note.

Forex losses are recognised on payment of funds.

All other losses are recognised when authorisation has been granted for the recognition thereof.

4.4 Investments

Capitalised investments are shown at cost in the statement of financial position. Any cash flows such as dividends received or proceeds from the sale of the investment are recognised in the statement of financial performance when the cash is received.

Investments are tested for an impairment loss whenever events or changes in circumstances indicate that the investment may be impaired. Any impairment loss is included in the disclosure notes.

4.5 Inventory

Inventories purchased during the financial year are disclosed at cost in the notes.

4.6 Capital assets

A capital asset is recorded on receipt of the item at cost. Cost of an asset is defined as the total cost of acquisition. Where the cost cannot be determined accurately, the capital asset may be stated at fair value.

Disclosure Notes 23 and 24 reflect the total movement in the asset register for the current financial year.

5. Liabilities

5.1 Payables

Recognised payables mainly comprise of amounts owing to other governmental entities. These payables are recognised at historical cost in the statement of financial position.

5.2 Lease commitments

Lease commitments represent amounts owing from the reporting date to the end of the lease contract. These commitments are not recognised in the statement of financial position as a liability or as expenditure in the statement of financial performance but are included in the disclosure notes.

Operating and finance lease commitments are expensed when the payments are made. Assets acquired in terms of finance lease agreements are disclosed in the annexures and disclosure notes to the financial statements.

Accruals represent goods/services that have been received, but where no invoice has been received from the supplier at the reporting date, or where an invoice has been received but final authorisation for payment has not been effected on the system.

Accruals are not recognised in the statement of financial position as a liability or as expenditure in the statement of financial performance but are included in the disclosure notes.

5.4 Contingent liabilities

A contingent liability is a possible obligation that arises from past events and whose existence will be confirmed only by the occurrence or non-occurrence of one or more uncertain future events not wholly within the control of the department; or

A contingent liability is a present obligation that arises from past events but is not recognised because:

- It is not probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation; or
- The amount of the obligation cannot be measured with sufficient reliability.

Contingent liabilities are included in the disclosure notes.

5.5 Commitments

Commitments represent goods/services that have been approved and/or contracted, but where no delivery has taken place at the reporting date.

Commitments are not recognised in the statement of financial position as a liability or as expenditure in the statement of financial performance but are included in the disclosure notes.

6. Net Assets

6.1 Capitalisation reserve

The capitalisation reserve comprises of financial assets and/or liabilities originating in a prior reporting period but which are recognised in the statement of financial position for the first time in the current reporting period. Amounts are transferred to the Provincial Revenue Fund on disposal, repayment or recovery of such amounts.

6.2 Recoverable revenue

Amounts are recognised as recoverable revenue when a payment made in a previous financial year becomes recoverable from a debtor in the current financial year.

1. Detail of transfers and subsidies as per Appropriation Act (after Virement):

Detail of these transactions can be viewed in note 6 (Transfers and subsidies) and Annexure 1 (A-D) to the Annual Financial Statements.

2. Detail of specifically and exclusively appropriated amounts voted (after Virement):

Detail of these transactions can be viewed in note 1 (Annual Appropriation) to the Annual Financial Statements.

3. Detail on financial transactions in assets and liabilities

Detail of these transactions per programme can be viewed in note 5 (Financial transactions in assets and liabilities) to the Annual Financial Statements.

4. Explanations of material variances from Amounts Voted (after virement):

Programme 4: Financial Governance	32,349	32,343	6	-
Total	134,246	133,936	310	0.2

4.1 Per Programme:

Programme 1: Administration

The under spending on this programme partly results from lower than expected spending on foreign travel and staff events. Provisions were also made for donations and FASSET which did not materialise as anticipated, thus increasing the under spending.

Programme 2: Sustainable Resource Management

There are no material variances to report on.

Programme 3: Asset and Liabilities Management

There are no material variances to report on.

Programme 4: Financial Governance

There are no material variances to report on.

**NOTES TO THE APPROPRIATION STATEMENTS
for the year ended 31 March 2007**

4.2 Per Economic classification

Current payments:

Goods and services

The under spending is mainly due to the lower than expected expenditure on foreign travel and staff events.

Transfers and subsidies:

Departmental agencies and accounts

The saving was due to no transfer payment made to the respective SETA as anticipated.

Foreign governments and international organisations

The saving is due to a provision made for donations, which did not materialise.

Human Resource Management

Oversight Report

The statistics and information published in this part of the annual report are required in terms of Chapter 1, Part III J.3 of the Public Service Regulations, 2001 and have been prescribed by the Minister for the Public Service and Administration for all departments within the Public Service.

The statistical tables provide high-level information on key human resource issues. The information aims to empower legislatures, the media, the public and other key stakeholders to monitor whether departments:

- Are exercising the powers granted under Public Service and Public Finance legislation in a responsible manner.
- Are achieving national transformation priorities established by the Cabinet, for example, affirmative action.

Annual reports produced at the end of each financial year are aimed at strengthening the accountability of departments to key stakeholders. The tables in this report are revised on a regular basis by the Department of Public Service and Administration (DPSA).

1. Service Delivery

All departments are required to develop a Service Delivery Improvement (SDI) Plan. The following tables reflect the components of the SDI plan as well as progress made in the implementation of the plan. Services provided per programme are discussed in Part 2 of this statement.

Note: Brief motivations in respect of overtime in excess of R60 000.

Programme 1: The main reason for the overtime was to compile the Annual Financial Statements, the Annual Report and Annual Performance Plan for the Provincial Treasury. The HRM unit also made use of overtime on irregular intervals.

Programme 2: The reason for the overtime is that the Directorate had to meet the due dates set for the effective and efficient completion of the budgetary process, achieving associated goals, related matters and ad hoc instructions. Further, the overtime within this programme is cyclic of nature and is mostly concentrated in January/February (when finalising the main budget), November (when finalising the adjustment budget) or due to specific processes (e.g. preparing for the Local Government cooperative summit).

3. Employment and Vacancies

The following tables summarise the number of posts on the establishment, the number of employees, the vacancy rate, and whether there are any staff that are additional to the establishment. This information is presented in terms of three key variables:- programme (Table 3.1), salary band (Table 3.2) and critical occupations (Table 3.3). Table 3.3 provides the establishment and vacancy information for the key critical occupations of the Provincial Treasury that require monitoring. The vacancy rate reflects the percentage of posts that are not filled.

4. Job Evaluation

The Public Service Regulations, 1999 introduced job evaluation as a way of ensuring that work of equal value is remunerated equally. Within a nationally determined framework, executing authorities may evaluate or re-evaluate any job in his or her organisation. In terms of the Regulations all vacancies on salary levels 9 and higher must be evaluated before they are filled. This was complemented by a decision by the Minister for the Public Service and Administration that all SMS jobs must be evaluated before 31 December 2002.

5. Employment Changes

This section provides information on changes in employment over the financial year.

Turnover rates provide an indication of trends in the employment profile of the Provincial Treasury. The following tables provide a summary of turnover rates by salary band (Table 5.1) critical occupations (Table 5.2), reasons for leaving the department (Table 5.3), promotion by critical occupation (Table 5.4) and promotion by salary band (Table 5.5).

Note: Officials are appointed on contract for a fixed period and this is registered on Persal (Electronic Salary System). Once a contract expires, Persal registers a termination. Should the contract be renewed, Persal would register a new appointment. This means that although one person was contracted with regular renewals to his/her contract, Persal will register a termination and a new appointment, with each renewal. Thus the discrepancy between the number of employees per band and the number of employees appointed and the number of appointments terminated.

10. HIV/Aids & Health Promotion Programmes

Table 10.1: Steps taken to reduce the risk of occupational exposure

Units/categories of employees identified to be at high risk of contracting HIV & related diseases (if any)	Key steps taken to reduce the risk
The environment in the Provincial Treasury is for the most part administrative and does not place employees at risk of contracting HIV and related diseases.	Employees are regularly informed about universal precautions as precautionary measure to occupational injuries that may result in blood spillage.

Table 10.2: Details of Health Promotion and HIV/Aids Programmes (tick the applicable boxes and provide the required information)

Question	Yes	No	Details, if yes
1. Has the department designated a member of the SMS to implement the provisions contained in Part VI E of Chapter 1 of the Public Service Regulations, 2001? If so, provide her/his name and position.	√		The Director: Human Resource Management is appointed to manage HIV and AIDS in the Department. This post is currently vacant and in the process of being filled. This responsibility has in the meanwhile become incumbent on the Acting Director: HRM
2. Does the department have a dedicated unit or has it designated specific staff members to promote the health and well being of your employees? If so, indicate the number of employees who are involved in this task and the annual budget that is available for this purpose.	√		Provincial Treasury has a Transformation Unit responsible for the administration of all Human Rights issues. Three posts have been created for this purpose on the approved establishment of which 2 posts are actively filled. The third post is in the process of being filled.
3. Has the department introduced an Employee Assistance or Health Promotion Programme for your employees? If so, indicate the key elements/services of this Programme.	√		Provincial Treasury has procured the services from an outsourced service provider.
