George Schmidt arrived in 1737 at the Cape of Good Hope to establish the oldest mission south of the Sahara desert in Africa. The Hernnhutters had a good relationship with the Dutch West Indian Company in West Indies and thus were introduced to the Dutch East India Company. From humble beginnings to second largest church province in the Unitas Fratrum. Various mission societies established more than 1000 mission stations in South Africa.

BACKGROUND ON ELIM:

• 1815: Latrobe recommended an English-speaking missionary to be sent to the Cape: The Rev H P Hallbeck from England arrived in 1817
• Mainly settled by emancipated slaves and their descendants
• 1824: Moravians purchased farm Vogelstruys Kraal
• 1st missionaries were the Rev. Johann Gottlieb Bonatz and C Thomson
• 1830: Watermill constructed
• 1835: Church built and enlarged in 1865
• Monument to commemorate the freeing of slaves in 1834
• Best preserved or the Moravian settlements in South Africa
• Historic core of Elim is a provincial heritage site
• 1975: Special protective order on thatched houses in Church Street
• 1839: Descendants of Maniesa, an emancipated female slave (originally from Bengal, India) inherited farm from their previous owner
• 1845: Rev Teutsch visited the area
• 1846: Requested assistance from Groenekloof (Mamre) with the education of their children.

This village of white-washed, thatched cottages has South Africa’s only slave freedom memorial. The local thatchers are renowned for their expert craftsmanship and the surrounds reflect their talents. Many of the country’s rarest plant species are indigenous and the town has a thriving wild flower export industry. The Old Mill Tea Room is popular for its products made from flour ground at the Mission's Mill. The Old Water Mill built in 1833 has the largest wooden water-wheel in South Africa and is still in use.

BACKGROUND ON GOEDVERWACHT:

- 1896: Opening of new church, now a provincial heritage site
- Watermill was built to assist with grinding of wheat and rye production

Goedverwatcht is situated in a fertile valley and boasts beautiful historical buildings, including a mission store and watermill. Wild flowers and fynbos are in full bloom from mid-August to mid-September.

Goedverwacht contact details for local church, cultural tours, watermill, tourism organization:

BACKGROUND ON WUPPERTHAL:

- **1830:** Established as the Wupperthal Institute by the Rhenish Mission society on the farm Riedmond by J G Leipoldt, a frequent visitor to Genadendal
- Permit issued by the Cape Colonial Government on condition that Wupperthal must be based on the Genadendal model
- Inhabited by dispersed Khoi and San and emancipated slaves from area
- Became a Moravian settlement by choice of inhabitants in 1965 after the Rhenish Mission Society withdrew from South Africa
- Historic core of Wupperthal is a provincial heritage site
- A photographic survey and conservation guidelines were produced and printed from funding made available by Norwegian government
- Wupperthal has several outstations, including Elizabethsfontein, Eselsbank and Langbome
- One of the best preserve historical settlements in South Africa

This Mission Station is situated in the Tra-Tra Valley on the edge of the Cederberg Wilderness Area with rock formations, rich bird-life, seasonal wildflowers, a historic shoe factory and a rooibos tea factory. Farmers still harvest their crops with sickles using donkeys to thresh the grain.

BACKGROUND ON WITTEWATER:

This village is on the slopes of the Piketberg Mountain and offers rock art sites and wild flowers. It has many historical buildings and thatched, white-washed houses with brightly painted windows. German Moravian missionaries established it in the early part of the 19th century as a mission station, run in conjunction with the nearby Goedverwacht Mission.

SOUTH AFRICAN CHALLENGES AND OPPORTUNITIES:

- Draft Integrated Development Plans with local community participation
- Identify conservation-worthy sites and structures
- Draft site-specific conservation guidelines
- Land reform issues
- Develop conservation management plans and obtain buy-in from all relevant authorities
- Ensure integrated economic development for each community
- Develop sustainable cultural tourism development plans
- Develop funding mechanisms and fund-raise
- Ensure socio-economic development
- Explore benefits for local community to fight poverty
- Explore heritage education opportunities
- UNESCO’s World Heritage Convention (1972)
- Global Strategy of the World Heritage Committee ensure World Heritage List reflects the world’s cultural and natural diversity of outstanding universal value
- Religious heritage: Significance of Moravian Heritage compared to other religious heritage
- New Guidelines for the World Heritage Convention must be studied (2005)
- Once on the Tentative List, training opportunities for training of site managers exist in the ICROM’s Africa 2009 World Heritage Conservation Programme
- Respect for State party processes for nomination on Tentative List of World Heritage Sites
- Funding for preparation of a nomination dossier
- Ensure conservation management plan is drafted and implementated
- Responsibility for periodical reporting once inscribed on the World Heritage List
- Develop a vision: A future for the past
- Identify, evaluate, document and assess conservation-worthy sites and structures
- Determine significance in terms of agreed criteria
- Draft site-specific conservation guidelines
- Develop conservation management plans and obtain buy-in from all role-players
- Develop educational and interpretive tools
- Process for nomination on the South African Tentative List of World Heritage Sites
- Funding for preparation of a nomination file
- International cooperation and develop networks
- International funding opportunities, e.g. Genadendal – Dutch-funded project, Wupperthal and Elim – Norwegian-funded project, Mamre – German-funded projects, etc.
